

Amendment Nos.	291.
Public Comments Requested as to Proposed NSHC (Yes/No).	NSHC.
Docket Nos.	50–250.

Vistra Operations Company LLC; Comanche Peak Nuclear Power Plant, Unit Nos. 1 and 2; Somervell County, TX

Date of Amendment	April 17, 2020.
Brief Description of Amendment	The amendments revised Comanche Peak Nuclear Power Plant, Units 1 and 2, Technical Specification 5.5.9, “Unit 1 Model D76 and Unit 2 Model D5 Steam Generator (SG) Program,” to allow a one-time change in the Comanche Peak Unit 2 SG inspection frequency. The change allowed the licensee to defer the Unit 2 SG inspections for the spring 2020 refueling outage to the fall 2021 refueling outage.
ADAMS Accession No.	ML20108E878.
Amendment Nos.	173 (Unit 1) and 173 (Unit 2).
Public Comments Requested as to Proposed NSHC (Yes/No).	NSHC.
Docket Nos	50–445, 50–446.

For details, including the applicable notice period, see the individual notice in the **Federal Register** on the day and page cited.

Dated: April 23, 2020.

For the Nuclear Regulatory Commission.

Mohamed K. Shams,

Deputy Director, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 72–27; NRC–2019–0193]

Humboldt Bay Independent Spent Fuel Storage Installation

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering the renewal of Special Nuclear Materials (SNM) License SNM–2514 for the Humboldt Bay independent spent fuel storage installation (ISFSI) (Humboldt Bay ISFSI) located in Humboldt County, California. The NRC has prepared an environmental assessment (EA) for this proposed license renewal in accordance with its regulations. Based on the EA, the NRC has concluded that a finding of no significant impact (FONSI) is appropriate. The NRC also is conducting a safety evaluation of the proposed license renewal.

DATES: The EA and FONSI referenced in this document are available on May 5, 2020.

ADDRESSES: Please refer to Docket ID NRC–2019–0193 when contacting the NRC about the availability of information regarding this document.

You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov/> and search for Docket ID NRC–2019–0193. Address questions about NRC docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301–287–9127 email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced.

FOR FURTHER INFORMATION CONTACT: Monika Coflin, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–5932, email: Monika.Coflin@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering a license renewal request for SNM–2514 for the Humboldt Bay ISFSI located in Humboldt County, California (ADAMS Package Accession No. ML18215A202). The licensee, Pacific Gas & Electric (PG&E), is requesting to renew license SNM–2514 for the Humboldt Bay ISFSI for an additional 40 years. The current license will expire on November 17,

2025. If approved, PG&E would be able to continue to possess and store spent nuclear fuel at the Humboldt Bay ISFSI in accordance with the requirements in part 72 of title 10 of the *Code of Federal Regulations* (10 CFR), “Licensing Requirements for the Independent Storage of Spent Nuclear Fuel, High-Level Radioactive Waste, and Reactor-Related Greater than Class C Waste.”

The NRC staff has prepared a final EA as part of its review of this license renewal request in accordance with the requirements of 10 CFR part 51, “Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions.” Based on the final EA, the NRC has determined that an environmental impact statement (EIS) is not required for this proposed action and a FONSI is appropriate. The NRC is also conducting a safety evaluation of the proposed license amendment pursuant to 10 CFR part 72, and the results will be documented in a separate Safety Evaluation Report (SER). If PG&E’s request is approved, the NRC will issue the license renewal following publication of this final EA and FONSI and the SER in the **Federal Register**.

II. Final Environmental Assessment Summary

PG&E is requesting to renew license SNM–2514 for the Humboldt Bay ISFSI for a 40-year period. The NRC has considered the proposed action and alternatives to the proposed action, including license renewal for an additional 20-year term, shipment of spent fuel to an offsite facility, and the no-action alternative of denying the license renewal request. The results of the NRC’s environmental review can be found in the final EA (ADAMS Accession No. ML19252A248). The NRC staff performed its environmental review in accordance with the requirements in 10 CFR part 51. In

conducting the environmental review, the NRC considered information in the license renewal application and from communications with the California State Historic Preservation Office; the State of California Native American Heritage Commission (NAHC); nine Native American Tribes; the California Department of Fish and Wildlife (CDFW); and the California State Department of Health Services.

Approval of PG&E's proposed license renewal request would allow the five (5) HI-STAR 100 HB casks containing spent fuel and one storage cask containing greater than Class C (GTCC) activated metal waste to continue to remain on the Humboldt Bay ISFSI for an additional 40 years. The estimated annual dose to the nearest resident from ISFSI activities is 0.0448 mSv/yr (4.48 mrem/yr), which is below the 0.25 mSv/yr (25 mrem/yr) limit specified in 10 CFR 72.104(a). Furthermore, PG&E maintains a radiation protection program for the ISFSI in accordance with 10 CFR part 20 to ensure that radiation doses are as low as is reasonably achievable (ALARA). Accordingly, no significant radiological or non-radiological impacts are expected to result from approval of the license renewal request, and the proposed action would not significantly contribute to cumulative impacts at the Humboldt Bay site. Additionally, the proposed action would not cause a significant impact on any population, nor did the staff identify significant percentages of minority or low-income populations within a 6 km (4 mi) radius of the ISFSI. The Commission has stated that absent "significant impacts, an environmental justice review should not be considered for an EA where a FONSI is issued unless special circumstances warrant the review."

In its license renewal request, PG&E is proposing no changes in how it handles or stores spent fuel at the Humboldt Bay ISFSI. Approval of the proposed action would not result in any new construction or expansion of the existing ISFSI footprint beyond that previously approved. The ISFSI is a largely passive facility that produces no liquid or gaseous effluents. No significant radiological or nonradiological impacts are expected from continued normal operations. Occupational dose estimates associated with the proposed action and continued normal operation and maintenance of the ISFSI are expected to be at ALARA levels and within the limits of 10 CFR 20.1201. Therefore, the NRC staff has determined that pursuant to 10 CFR 51.31, preparation of an EIS is not required for the proposed action, and

pursuant to 10 CFR 51.32, a FONSI is appropriate.

Furthermore, the NRC staff determined that, because approval of this license renewal request would maintain the status quo at the site, it does not have the potential to cause effects on historic properties; therefore, in accordance with 36 CFR 800.3(a)(1), no consultation is required under Section 106 of the National Historic Preservation Act of 1966. The NRC staff informed the California State Historic Preservation Officer (SHPO) of its determination via letter dated June 19, 2019 (ADAMS Accession No. ML19169A154) and informed nine Native American Tribes via letters dated November 15, 2018 (ADAMS Package Accession No. ML18303A365). The California SHPO responded via letter dated July 11, 2019, indicating that the SHPO does not object to a finding that no historic properties would be affected by this undertaking (ADAMS Accession No. ML19198A078). The NRC staff, with the assistance of the U.S. Fish and Wildlife Service Information for Planning and Consultation (IPaC) project planning tool, determined that the listed species and/or critical habitat would not be adversely affected by the proposed action.

III. Finding of No Significant Impact

Based on its review of the proposed action in the EA, in accordance with the requirements in 10 CFR part 51, the NRC has concluded that the proposed action, renewal of NRC Special Nuclear Materials License No. SNM-2514 for the Humboldt Bay ISFSI located in Humboldt County, California, will not significantly affect the quality of the human environment. Therefore, the NRC has determined, pursuant to 10 CFR 51.31, that preparation of an EIS is not required for the proposed action and a finding of no significant impact is appropriate.

Dated: April 30, 2020.

For the Nuclear Regulatory Commission.

Cinthya I. Roman-Cuevas,

Chief, Environmental Review Materials Branch, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

POSTAL REGULATORY COMMISSION

[Docket Nos. MC2020-123 and CP2020-131; MC2020-124 and CP2020-132]

New Postal Product

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning a negotiated service agreement. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

DATES: *Comments are due:* May 7, 2020.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at <http://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202-789-6820.

SUPPLEMENTARY INFORMATION:

Table of Contents

- I. Introduction
- II. Docketed Proceeding(s)

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the market dominant or the competitive product list, or the modification of an existing product currently appearing on the market dominant or the competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.¹

The Commission invites comments on whether the Postal Service's request(s)
