

mechanism that helps keep each ETF's price in line with the value of its underlying portfolio when overpriced or trading at a discount to the securities on which it is based; and how these processes can serve to mitigate the potential price impact of the ETF shares that might otherwise result from increased position limits.⁶³

In addition, as discussed above, the Exchange believes that current margin and net capital requirements serve to limit the size of positions maintained by any one account.⁶⁴ The Commission agrees that these financial requirements should help to address concerns that a member or its customer may try to maintain an inordinately large unhedged position in the options subject to this proposal and will help to reduce risks if such a position is established.

The Commission further agrees with the Exchange that the reporting requirements imposed by Exchange Rule 8.43,⁶⁵ as well as the Exchange's surveillance procedures, together with those of other self-regulatory organizations,⁶⁶ should help protect against potential manipulation. The Commission expects that the Exchange will continue to monitor trading in the options subject to this proposal for the purpose of discovering and sanctioning manipulative acts and practices, and to reassess the position and exercise limits, if and when appropriate, in light of its findings.

In sum, given the measure of liquidity for the options subject to this proposal and the underlying products, the creation and redemption process and issuer arbitrage mechanisms that exist relating to the underlying instruments, the margin and capital requirements cited above, the Exchange's options reporting requirements, and the Exchange's surveillance procedures and agreements with other markets, the Commission believes that increasing the position and exercise limits for XLF and HYG options to 500,000 contracts, for EFA and FXI options to 1,000,000 contracts, for SPY options to 3,600,000 contracts, and for MXEA and MXEF options to 50,000 contracts with no near-term position limit is consistent with the Act.

V. Accelerated Approval of Proposed Rule Change, as Modified by Amendment No. 1

The Commission finds good cause to approve the proposed rule change, as modified by Amendment No. 1, prior to the thirtieth day after the date of publication of notice of the filing of Amendment No. 1 in the **Federal**

Register. As discussed above, in Amendment No. 1, the Exchange: (1) Provided additional justification and analysis in support of the proposal, which is summarized above; (2) revised its proposal to eliminate the proposed increase to position limits for options on OIH; and (3) made technical, corrective, and clarifying changes. The Commission notes that Amendment No. 1 does not otherwise modify the proposed rule change, which was subject to a full notice-and-comment period. Rather, Amendment No. 1 serves to narrow the scope of the original proposal by maintaining the existing position limit of 250,000 contracts for options on OIH. The Commission also notes that Amendment No. 1 provides additional accuracy, clarity, and justification to the proposal, thereby facilitating the Commission's ability to make the findings set forth above to approve the proposal. Accordingly, the Commission finds good cause, pursuant to Section 19(b)(2) of the Act,⁶⁷ to approve the proposed rule change, as modified by Amendment No. 1, on an accelerated basis.

VI. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,⁶⁸ that the proposed rule change, as modified by Amendment No. 1 (SR-CBOE-2020-015), be, and hereby is, approved on an accelerated basis.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁶⁹

J. Matthew DeLesDernier,

Assistant Secretary.

See proposed Exchange Rule 4.5(f).
