and effective September 15, 2019, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order. FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

SUPPLEMENTARY INFORMATION:

Correction

In the Federal Register of January 2, 2020, in FR Doc. 2019–27998, on page 45, in the third column:

- Replace “we are seeking to revise this information collection” with “we are seeking to renew and revise this information collection”;
- Replace “14,360 annual burden hours” with “1,436 annual burden hours”;
- Replace “Estimated Total Annual Non-Hour Cost: $2,100,000” with “Estimated Total Annual Non-Hour Cost: $4,200,000”.

We are restating the entire Paperwork Reduction Act statement (which was provided in Section V.J. of the preamble to the proposed rule) here for the convenience of anyone who wishes to comment on the information collection.

J. Paperwork Reduction Act

OMB Control No. 1076–0104 currently authorizes the collections of information related to petitions for Federal acknowledgment under the Indian Reorganization Act (IRA) contained in 25 CFR part 83, with an expiration of October 31, 2021. With this rulemaking, we are seeking to renew and revise this information collection to include collections of information related to petitions for Federal acknowledgment under the Alaska IRA and 25 CFR part 82. The current authorization totals an estimated 1,436 annual burden hours. This rule change would require a revision to an approved information collection under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 et seq., for which the Department is requesting OMB approval.

OMB Control Number: 1076–0104.

Title: Federal Acknowledgment as an Indian Tribe, 25 CFR 82 & 83.

Brief Description of Collection: This information collection requires entities seeking Federal recognition as an Indian Tribe to collect and provide information in a documented petition evidencing that the entities meet the criteria set out in the rule.

Type of Review: Revision of currently approved collection.

Respondents: Entities petitioning for Federal acknowledgment.

Number of Respondents: 2 on average (each year).

Number of Responses: 2 on average (each year).

Frequency of Response: On occasion.

Estimated Time per Response: (See table below).

Estimated Total Annual Hour Burden: 2,872 hours.

Estimated Total Annual Non-Hour Cost: $4,200,000.

OMB Control No. 1076–0104 currently authorizes the collections of information contained in 25 CFR part 83. If this proposed rule is finalized, DOI estimates that the annual burden hours for respondents (entities petitioning for Federal acknowledgment) will increase by approximately 1,436 hours, for a total of 2,872 hours.
