AGENCY: Employment and Training Administration (ETA), U.S. Department of Labor (Department).

SUPPLEMENTARY INFORMATION: ETA proposes a three-step approach to determine whether a state is eligible for RESEA Outcome Payments. The proposed approach reflects RESEA's statutory purpose, as defined in Section 306(b)(1), SSA, to improve employment outcomes of individuals that receive unemployment compensation (UC) and to reduce the average duration of receipt of such compensation through employment. The three-step approach includes:

1. Evaluation of state reemployment performance using the RESEA program to determine if a state met or exceeded the target for the Reemployment Rate in the 2nd Quarter After Program Exit for RESEA participants performance measure;
2. Evaluation of the state's Average UI duration to determine if the state demonstrated a decrease in its average UI duration as a result of the RESEA services provided to UI claimants; and
3. Award allocation.

I. Introduction

The federal-state UI program is a required partner in the comprehensive, integrated workforce system. Individuals who have lost employment through no fault of their own and have earned sufficient wage credits, may receive UI benefits if they meet initial and continuing eligibility requirements. Beginning in 2005, the Department and participating state workforce agencies have been addressing the individual reemployment needs of UI claimants and working to prevent and detect UI improper payments through the voluntary UI Reemployment and Eligibility Assessment (REA) program. Beginning in FY 2015, the voluntary RESEA program replaced the REA program. On February 9, 2018, the President signed the Bipartisan Budget Act of 2018 (Pub. L. 115-123) (BBA), which included amendments to the SSA creating a permanent authorization for the RESEA program. In FY 2019, a total of 50 states and jurisdictions operated a RESEA program.

The primary goals for the RESEA program are to: Improve employment outcomes for individuals that receive UC and to reduce average duration of receipt of UC through employment; strengthen program integrity and reduce improper payments; promote alignment with the broader vision of the Workforce Innovation and Opportunity Act (WIOA)—increasing program integration and service delivery for job seekers; and establish RESEA as an entry point to

other workforce system partner programs for individuals receiving UC.

II. Background

The RESEA provisions are contained in Section 30206 of the BBA, enacting Section 306 of the SSA. In addition to program requirements, Section 306 of the SSA also contains provisions for the funding of the RESEA program. The law specifies three uses and designates the proportion of annual appropriations to be assigned to these uses: (1) Base funding for states to operate the RESEA program (84 percent to 89 percent depending on the year); (2) outcome payments designed to reward states meeting or exceeding certain criteria (10 percent to 15 percent of the appropriation depending on the year); and (3) up to one percent for the Secretary of Labor to use for research and technical assistance to states. Additionally, the law requires the Department to develop a methodology to allocate and distribute base funding and outcome payments to states beginning in FY 2021.

In August 2019, ETA published a Notice in the **Federal Register** to inform states of the methodology to allocate base funding to states for the RESEA program. Details regarding the RESEA base formula allocation methodology can be found at: <https://www.federalregister.gov/documents/2019/08/08/2019-16988/allocating-grants-to-states-for-reemployment-services-and-eligibility-assessments-resea-in>. The present Notice proposes the methodology to distribute RESEA outcome payments to states.

Section 306(f)(2)(A), SSA requires ETA to make "outcome payments" to states that meet or exceed the outcome goals for reducing the average duration of receipt of UC by improving employment outcomes. The law specifically states:

"IN GENERAL.—Of the amounts made available for grants under this section for each fiscal year after 2020, the Secretary shall reserve a percentage equal to the outcome reservation percentage¹ for such fiscal year for outcome payments to increase the amount otherwise awarded to a State under paragraph (1). Such outcome payments shall be paid to States conducting reemployment services and eligibility assessments under this section that, during the previous fiscal year, met or exceeded the outcome goals provided in subsection (b)(1) related to reducing the average duration of receipt of unemployment compensation by improving employment outcomes".

¹ Section 306(f)(2)(B), SSA defines the "outcome reservation percentage" as 10 percent for fiscal years 2021 through 2026 and 15 percent for fiscal years thereafter.
