SUMMARY: The Postal Service is revising Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM) to require Detached Mail Unit (DMU) mailers and mailers that enter full-service mailings at a Business Mail Entry Unit (BMEU) to participate in Seamless Parallel by June 1, 2020. In addition, the Postal Service provides advance notice of its intent to require DMU mailers to enroll in the Seamless Acceptance Program by February 1, 2021. Moreover, the Postal Service provided advance notices of its intent to verify all full-service mailings entered at a BMEU using automated sampling and verification processes, beginning July 1, 2021.

The Postal Service received many insightful comments and questions from the mailing community in response to the proposed rule of January 8, 2020. In response to those comments, the Postal Service incorporates the following changes into this final rule, and notes that aside from these changes, Seamless Acceptance plans have not changed in substance from the proposed rule of January 8, 2020:

• Mailers with authorized DMUs and mailers entering full-service mailings at BMEUs must enroll in Seamless Parallel by June 1, 2020 (instead of March 1, 2020).

In addition, the Postal Service intends to propose the following regulatory changes in a future rulemaking:

• Mailers with authorized DMUs, as a condition of their DMU authorization, must participate in Seamless Acceptance by May 1, 2021:
  • Full-Service mailings entered at BMEUs will begin to be verified using only automated sampling and verification processes on July 1, 2021.

The Postal Service received seven formal responses on the Seamless changes for Detached Mail Unit (DMU) and Full-Service Mailings and USPS Responses.

The Postal Service notes that new rates, including incentives, must be authorized by the Governors of the Postal Service and reviewed by the Postal Regulatory Commission.

Incentive for Mailers To Adopt Seamless Acceptance

Five comments encouraged the USPS to provide an incentive for mailers to defray costs incurred from migrating to Seamless Acceptance. Respondents claim that there is a significant cost impact to business (above and beyond full-service IMb participation) to participate in Seamless Acceptance, and that the USPS should provide an incentive to offset the investment and ongoing costs incurred by mailers.

USPS Response

USPS will continue to work collaboratively with industry stakeholders to minimize any cost impact to mailers that adopt Seamless Acceptance. The Postal Service notes that new rates, including incentives, must be authorized by the Governors of the Postal Service and reviewed by the Postal Regulatory Commission.

 USPS Response

USPS has initiated the creation of a Task Team (MTAC TT–30) to work collaboratively with industry stakeholders. USPS will consider recommendations from MTAC TT–30.

Images of Mailpieces To Assist With Undocumented Errors

Four comments encourage USPS to provide mailers with images of undocumented pieces and other mailer scorecard errors so they can identify the specific mailer or mailing to investigate and resolve mail quality issues.

USPS Response

USPS will continue to explore the feasibility of this proposal.

The Timeline for Mandating Seamless Acceptance for DMUs

Three comments had concerns that the intended February 1, 2021 date was too close to implementation of the January 2021 price change. Price changes require significant resources and commenters are concerned that their resources will be limited and will not be ready by February 1, 2021.

USPS Response

As previously indicated, the USPS recognizes the industry concern with the proposed dates and has made the following changes:

• Seamless Parallel enrollment must be completed by June 1, 2020.
• Intended date to require DMU sites to Seamless changed to May 1, 2021.
• Verification of BMEU full-service mailings intended to begin on July 1, 2021.

General Overall Timeline and Deadline To Adopt Seamless Acceptance

Three comments voice concerns on the general timeline in terms of USPS ability to provide the necessary education, training, and customer service needed for mailers to adopt Seamless Acceptance.

USPS Response

USPS has provided extensive internal and external training on the Streamlined Mail Entry Programs. The Mail Entry
staff will be able to effectively manage the influx of new Seamless mailers. In addition, USPS has created a centralized Mailing and Shipping Solutions Center (MSSC) with specially trained personnel to answer mailer questions and provide information. USPS continues to emphasize ongoing internal training to ensure USPS staff have the most up-to-date training and tools necessary to assist mailers with any concerns or issues that may arise.

Legacy Verifications at Acceptance To Avoid Assessments
One comment stated that the customer was using legacy verifications as their quality control to avoid unforeseen assessments.

USPS Response
Seamless Acceptance and the automated sampling and verification processes provide mailers with the opportunity to view their mail quality metrics throughout the month utilizing the Mailer Scorecard. The Mailer Scorecard is updated each night with current Mail Quality Metric reporting, enabling mailers to diagnose errors and implement changes prior to being assessed. The Scorecard provides a daily update informing the customer of any potential assessments that could be levied if the mail quality metric continues to exceed the posted error threshold.

“After the Fact” Postage Assessment
One comment expressed a concern of a potential assessment after a mailing has been accepted and entered into the mailstream, without a chance to avoid the assessment by fixing the mailing.

USPS Response
The Postal Service works collaboratively with mailers to provide advice and guidance throughout the month on Mailer Scorecard issues. Mailers start in the Seamless Parallel process to gauge how they would have performed under Seamless verifications; no assessments are imposed during Seamless Parallel. Seamless Parallel provides mailers opportunities to gather information and correct issues prior to moving to Seamless Acceptance. During this Seamless Parallel process USPS works with mailers to mitigate Mailer Scorecard errors and prepare mailers to adopt Seamless Acceptance.

Impact on Exceptional Dispatch Periodicals, Associate Office Acceptance, and Updated Guides
Several other comments mentioned the Seamless Acceptance impact on Exceptional Dispatch for Periodicals mailings, mailings accepted at local associated offices (AO), and when updated guides would be posted.

USPS Response
There is no impact to Exceptional Dispatch Periodicals mailings. Customers would continue to drop at the sites that are currently established drop locations as part of their Exceptional Dispatch. Mailings at smaller AOs will continue as they currently do today. The updated Guide to the Mailer Scorecard and Publication 685, Publication for Streamlined Mail Acceptance for Letters and Flats will be posted on PostalPro in April 2020.

Non-Acceptance Detached Mail Unit (DMU) Duties if DMU Closes
Further comments inquired into the impact Seamless Acceptance will have on the other non-acceptance duties performed at DMUs like Certificates of Mailing, and questioned whether DMUs may be closed.

USPS Response
Due to the automated verification processes, DMU sites enrolled in Seamless Acceptance will experience a reduced presence of USPS personnel onsite. Other duties such as Certificates of Mailings and non-acceptance duties will be completed when the clerk is on site for Seamless samplings. It is not the intent of the Postal Service to close DMUs but rather to require adoption of Seamless Acceptance by May 1, 2021, as a condition of DMU authorization. When mailers submit the Form 3834, Detached Mail Unit Authorization Application, they agree to prepare mailings in accordance with applicable standards in the DMM. Any DMU mailer that anticipates they will be unable to comply with Seamless Acceptance requirements by May 1, 2021 will be required to request an extension by February 1, 2021.

Availability of Resources To Navigate Seamless Acceptance
Additional comments related to the available resources for industry to train and educate their staff.

USPS Response
There are tremendous amounts of resources currently available to customers including web based searches on PostalPro and Postal Explorer. Fact sheets, process guides, and publications are available on those sites. Mailers may also reach out to the Mailing and Shipping Solutions Center (MSSC), PostalOne or Facility Access & Shipment Tracking (FAST) helpdesks for information.

“Just in Time” Payment and Auto Finalization Impact
Commenters wondered how auto finalization affects the balance of the permit when some clients of mail preparers pay just prior to mailing. Client’s permits sometimes have insufficient funds on deposit. Is there a way for USPS to alert mail preparers when one of the client permits has insufficient funds?

USPS Response
Auto finalization puts control in the mailers’ hands. The process has not changed and sufficient funds must be in the account at the time of mailing. Under current standards specified in DMM § 705.22.3, mailings accepted under Seamless auto finalize even if one of the permits in the mailing does not have sufficient funds in combined mailings. This allows mailings to be accepted without delay.

Induction Participation and Container Placard Requirement for Small Mailings
Two different comments were submitted seeking clarity on induction requirements for BMEU-entered mailings and potential impact on container requirements.

USPS Response
No, BMEU mailers will not be required to participate in induction unless they elect to enroll in Seamless Acceptance. Induction is a requirement of Seamless Acceptance for all drop shipment mailings. When the hardcopy PS 8125, Plant-Verified Drop Shipment (PVDS) would have been used. This allows mailers to enter mailings without using the hardcopy form. Mailers will continue to follow the current placarding under Publication 685, Publication for Streamlined Mail Acceptance for Letters and Flats available on PostalPro.

Undocumented Mail and Postal Automated Redirection System (PARS) Operations
One comment stated that USPS is causing undocumented mail on the mailer’s scorecard by changing the IMb on the mailpiece to start with “93”.

USPS Response
USPS does update mailpieces that go through PARS operations. These pieces will have their IMb “Type” updated to “93” and the Address (Delivery Point) information is changed to the new address. The changed IMb no longer matches the original IMb contained in eDoc. In the past, this resulted in the piece being erroneously reported as
undocumented. However, to keep these pieces from being reported erroneously as undocumented in mailer scorecards, USPS implemented system logic to recognize that the “93” IMb type indicated a changed IMb. Prior to reporting a piece as undocumented, USPS drops the “93” and New Address portion of the IMb and attempts to match the remainder of the original IMb—STID, MID, Serial Number—combination to an eDoc. Only if a match is not found with the remaining STID, MID, Serial Number combination would the piece be reported as undocumented.

mailers that enter full-service mailings at a Business Mail Entry Unit (BMEU) must participate in the Seamless Parallel Program. Additional information on the Seamless Parallel Program is available in Publication 685, *Publication for Streamlined Mail Acceptance for Letters and Flats*, available at: https://postalpro.usps.com/StreamlinedMailAcceptLettersFlatsPub685.

2. Revise the Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM) as follows:

**Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM)**

* * * * *

**23.0 Full-Service Automation Option**

* * * * *

**23.3 Fees**

**23.3.1 Eligibility for Exception to Payment of Annual Fees and Waiver of Deposit of Permit Imprint Mail Restrictions**

Mailers who present automation or presort mailings (of First-Class Mail cards, letters, and flats, USPS Marketing Mail letters and flats, or Bound Printed Matter flats) that contain 90 percent or more full-service eligible mail as full-service, and 75 percent of their total mail is eligible for full-service incentives, are eligible for the following exceptions to standards:

- * * * * *

[Revise the text of item c to read as follows:]

c. If any mailing falls under the 90-percent and 75-percent full-service thresholds for qualified full-service mailings, the annual mailing fee will be due and the mailing verification date will become the renewal or anniversary date of the permit fees. The full-service percentage will automatically set to 0 percent on each subsequent anniversary date. The first mailing presented after the anniversary date begins the cumulative process for the full-service percentage calculation. If the first mailing presented after the anniversary date is below 90 percent, the annual fee will need to be paid prior to the mail being finalized. Once the annual fees are paid, the next validation date will be the next anniversary date.

[Delete item c2 in its entirety:]

- * * * * *

We will publish an appropriate amendment to 39 CFR part 111 to reflect these changes.
