

recommendation work related to telecommunications security. NTIA's deliberations on security issues will be guided by the objectives of recognizing the role of other standards development organizations (SDOs); promoting private sector leadership on technical standards; and ensuring the ITU-T work remains within its mission scope.

We seek comment on the policy position outlined for this objective. Specifically:

(a) What, if any, ITU recommendations are necessary to ensure a resilient, secure and diverse 5G supply chain (to include, for example, manufacturing, importation, operations, maintenance and distribution) to ensure traceability, transparency, security, privacy and trustworthiness of data, devices and networks?

(b) What should the ITU-T continue to focus on that has value to U.S. interests?

(c) What unique value does the ITU Standardization Sector, as part of an intergovernmental organization, provide?

(d) What areas should the ITU-T avoid and of those, where are those areas better handled?

VI. Explore Further Coordination and Collaboration With Other Industry-Led Standards Development Organizations

There are numerous SDOs with deep expertise on various aspects of telecommunications and information policies. While the ITU-T has been widening its areas of interest in recent years, the participation from U.S. firms in ITU-T standards work has declined. At the same time, we have seen a dramatic increase in the participation from other countries looking to gain influence at the ITU. NTIA will continue to advocate for standards from SDOs developed using a consensus-based, industry-driven approach; that industry should lead international standards development processes, and that those processes should be transparent and open. The ITU-T Study Group 13's Network 2030 Focus group, for example, has studied the capabilities of networks for the year 2030 and beyond to answer specific questions on what kinds of network internet Protocol (IP) architecture and the enabling mechanisms are suitable for novel scenarios, such as holographic type communications and high-precision communication demands of emerging market verticals.⁷ Additionally, we expect to see and oppose proposals to

include other topics that may not be appropriate for ITU-T consideration and are better addressed by other SDOs—both private and public/private partnerships. We expect to see and oppose topics in the following areas as completely outside the ITU-T remit: Consumer protection, personal data protection, healthcare technology, and unmanned aerial vehicles.

We seek comment on the policy position outlined for this objective. Specifically:

Are there specific areas where the work of the ITU-T is either duplicative or has unnecessary overlaps with the work of other SDOs? If so, please describe the duplication or overlap, as well as any additional concerns.

Request for Public Comment

In addition to the questions above, NTIA invites comment on the full range of issues that may be presented by this inquiry, and also welcomes input and comments on any specific issues being advanced by other countries, private sector organizations, and stakeholders for WTSA-2020.

Instructions for Commenters:

Commenters are encouraged to address any or all of the questions in this RFC. Comments that contain references to studies, research, and other empirical data that are not widely published should include copies of the referenced materials with the submitted comments. Comments submitted by email should be machine-readable and should not be copy-protected. Comments submitted by mail may be in hard copy (paper) or electronic (on CD-ROM or disk).

Commenters should include the name of the person or organization filing the comment, as well as a page number on each page of their submissions. All comments received are a part of the public record and generally will be posted on the NTIA website, <https://www.ntia.gov>, without change. All personal identifying information (for example, name, address) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Additions and Deletions

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Additions to and deletions from the Procurement List.

SUMMARY: This action adds products and a service to the Procurement List that will be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities, and deletes products and services from the Procurement List previously furnished by such agencies.

DATES: *Date added to and deleted from the Procurement List:* June 07, 2020.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, 1401 S Clark Street, Suite 715, Arlington, Virginia 22202-4149.

FOR FURTHER INFORMATION CONTACT: Michael R. Jurkowski, Telephone: (703) 603-2117, Fax: (703) 603-0655, or email CMTEFedReg@AbilityOne.gov.

SUPPLEMENTARY INFORMATION:

Additions

On 3/27/2020 and 4/3/2020, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed additions to the Procurement List. This notice is published pursuant to 41 U.S.C. 8503 (a)(2) and 41 CFR 51-2.3.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the products and service and impact of the additions on the current or most recent contractors, the Committee has determined that the products and service listed below are suitable for procurement by the Federal Government under 41 U.S.C. 8501-8506 and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the products and service to the Government.
2. The action will result in authorizing small entities to furnish the products and service to the Government.

⁷ See ITU-T Focus Group on Technologies for Network 2030, available at <https://www.itu.int/en/ITU-T/focusgroups/net2030/Pages/default.aspx>.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501–8506) in connection with the products and service proposed for addition to the Procurement List.

End of Certification

Accordingly, the following products and service are added to the Procurement List:
