Title: USAID Partner Survey:

Operating in the COVID-19 Environment.

Type of Review: Emergency.

Purpose

In response to COVID-19, USAID's top priority is to protect the safety, health, and security of our global workforce—including our Implementing Partners, in order to ensure that we can

continue our life-saving mission across the world, and support partner countries in their response to COVID-19.

The purpose of this survey is to help USAID's COVID-19 Task Force to get an expansive view of our programs and the challenges being faced by our implementing partners. With this information, USAID hopes to identify opportunities to support implementing partners, programs, and partner countries during COVID-19.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

May 5, 2020.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by June 10, 2020 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the

following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food Safety and Inspection Service

Title: Voluntary Destruction of Imported Meat, Poultry, and Egg Products.

OMB Control Number: 0583-New.
Summary of Collection: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

Imported meat, poultry, and egg products that do not comply with U.S. requirements are not allowed to enter U.S. commerce and are identified as "U.S. Refused Entry" product. Inspection Program Personnel (IPP) are required to verify that U.S. refused entry product is stored and segregated from other product at an official import inspection establishment until final disposition occurs, or permission to move the shipment is granted by a FSIS Office of Field Operations (OFO) District Office (DO).

Need and Use of the Information: FSIS IPP will use the information during the observation of the product destruction to verify that the product being destroyed is the same product that was refused entry and that the product is controlled by the import establishment until destruction is completed. The Importer/Broker/Agent will complete FSIS Form 9840-4, Voluntary Destruction of Imported Meat (Including Siluriformes), Poultry, and

Egg Product, for product that will be destroyed under FSIS supervision.

Description of Respondents: Business or other for-profit.

Number of Respondents: 151.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 17,818.

SUPPLEMENTARY INFORMATION:

Title: *Phytophthora Ramorum*;

Quarantine and Regulations.

OMB Control Number: 0579-0310.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States.

In accordance with the regulations in "Subpart X-*Phytophthora Ramorum*" (§§ 301.92 through 301.92-12), the Animal and Plant Health Inspection Service of the U.S. Department of Agriculture restricts the interstate movement of certain articles to prevent the spread of *Phytophthora ramorum*, the plant pathogen that causes the disease commonly known as sudden oak death. The regulations contain requirements for the interstate movement of regulated articles, such as nursery stock and certain trees, from both quarantined areas and regulated establishments and involve information collection activities including compliance agreements, annual inspections of nurseries and certification of nurseries, issuance and cancellation of certificates, sampling labels for testing, records of fungicide applications, recordkeeping of incoming and outgoing shipments of plants, notification of high risk *P. ramorum* genera, and emergency action notifications.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.3 hours per response.

Respondents: Plant growers, nursery operators, and State plant regulatory officials.

Estimated annual number of respondents: 43.

Estimated annual number of responses per respondent: 15.

Estimated annual number of responses: 622.

Estimated total annual burden on respondents: 181 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 6th day of May 2020.

Michael Watson,

Acting Administrator, Animal and Plant Health Inspection Service.
