

competitive market in which market participants can readily favor one of the 16 competing option exchanges if they deem fee levels at a particular venue to be excessive. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and to attract order flow to the Exchange. Based on publicly-available information, and excluding index-based options, no single exchange currently has more than 16% of the market share of executed volume of multiply-listed equity and ETF options trades.¹³ Therefore, currently no exchange possesses significant pricing power in the execution of multiply-listed equity & ETF options order flow. More specifically, in January 2020, the Exchange had less than 10% market share of executed volume of multiply-listed equity & ETF options trades.¹⁴

The Exchange believes that the proposed rule change reflects this competitive environment because it continues the fee waiver, which is designed to reduce monthly costs for Floor participants whose operations have been disrupted by the unanticipated Floor closure. In reducing this monthly financial burden, the proposed change would allow affected participants to reallocate funds to assist with the cost of shifting and maintaining their previously on-Floor operations to off-Floor. Absent this change, such participants may experience an unintended increase in the cost of doing business on the Exchange, which would make the Exchange a less competitive venue on which to trade as compared to other options exchanges.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A)¹⁵ of the Act and subparagraph (f)(2) of Rule 19b-4¹⁶ thereunder, because it establishes a due,

fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹⁷ of the Act to determine whether the proposed rule change should be approved or disapproved.

May 5, 2020.

The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

¹⁷ 15 U.S.C. 78s(b)(2)(B).

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On March 12, 2020, the Exchange filed with the Commission a proposed rule change to establish reopening protections for Nasdaq listed securities following a Level 1 or Level 2 market-wide circuit breaker trading halt initiated under Rule 4121.³ The proposed rule change indicated that operative date of the reopening protections would be during April 2020.⁴ The Exchange proposes to modify the operative date and delay the implementation of this functionality to July 2020. The Exchange will issue an Equity Trader Alert notifying members prior to implementing the functionality.

Due to the recent market volatility resulting from the novel coronavirus pandemic, the Exchange has been adjusting its systems testing schedule and assessing any risks to the operation of its systems that could potentially be introduced by implementing new functionality during this time. The extension would therefore provide the Exchange with flexibility and additional time to adjust its systems testing schedule, and to develop and test this new functionality, to safeguard against any such risk. Furthermore, the extension would allow the Exchange to implement the halt reopening changes after the Russell Rebalance, a significant market event occurring in June 2020, and for which the Exchange will reduce the number of changes to its systems. The Exchange has historically limited rolling out new functionality before the Russell Rebalance to mitigate the operational risk of introducing

technology changes before this significant market event.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁵ in general, and furthers the objectives of Section 6(b)(5) of the Act,⁶ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest by providing the Exchange additional time to implement SR-NASDAQ-2020-012. As discussed above, the proposed delay is in recognition of both the recent market volatility and upcoming annual Russell Rebalance in June 2020. The Exchange believes that the extension would therefore allow the Exchange to mitigate any potential risks to the market and the operation of its systems by limiting the implementation of new functionality until after the Russell Rebalance, which, in turn, protects investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange's proposal to delay the implementation of SR-NASDAQ-2020-012 does not impose an undue burden on competition. Delaying the implementation will simply allow the Exchange additional time to properly plan and implement SR-NASDAQ-2020-012.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section

19(b)(3)(A)(iii) of the Act⁷ and subparagraph (f)(6) of Rule 19b-4 thereunder.⁸

A proposed rule changed filed under Rule 19b-4(f)(6)⁹ normally does not become operative prior to 30 days after the date of filing. However, pursuant to Rule 19b-4(f)(6),¹⁰ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because doing so will allow the Exchange to adjust its testing schedule and develop and test the new auction functionality adequately prior to implementation.¹¹

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-NASDAQ-2020-023 on the subject line.

⁷ 15 U.S.C. 78s(b)(3)(A)(iii).

⁸ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

DEPARTMENT OF TRANSPORTATION (DOT)**Federal Aviation Administration****Notice of Intent To Rule on a Land Release Request at Hamilton Municipal Airport (VGC), Hamilton, NY**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of request to release airport land.

SUMMARY: The FAA proposes to rule and invites public comment on the application for a release of approximately 14.59 acres of federally obligated airport property at Hamilton Municipal Airport, Hamilton, Madison County, NY, from conditions, reservations, and restrictions contained in Airport Improvement Program (AIP) grants that would restrict the use of said land to aeronautical purposes. This acreage is composed of portions of seven parcels that were acquired by the Village of Hamilton through AIP Grants 3–36–0192–01–1995 and 3–36–0192–02–1998. It is proposed that 12.69 acres, composed of portions of seven parcels, would be released by the FAA for sale. The land is not needed for aeronautical purposes. The use of the land after the release will be compatible with the airport and will not interfere with the airport or its operation. The Federal share of the proceeds from the sales of land would be dedicated to a future AIP eligible airport effort. It is also proposed
