**Air Plan Approval; Oklahoma; Updates to the General SIP and New Source Review Permitting Requirements; Correction**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule; correction.

**SUMMARY:** The Environmental Protection Agency (EPA) is correcting a final rule that was published in the **Federal Register** on April 10, 2020 which will be effective on May 11, 2020. The final rule approved revisions to the state implementation plan for Oklahoma (Oklahoma SIP) concerning the incorporation by reference of federal requirements, updates to the general SIP provisions, and updates to the New Source Review (NSR) permit programs to address public notice and modeling requirements, including certain statutory provisions. This correction does not change any final action taken by the EPA on April 10, 2020; today's action merely provides further clarification on the rulemaking citations for the Oklahoma SIP.

**DATES:** This rule is effective on May 11, 2020.

**ADDRESSES:** The EPA has established a docket for this action under Docket ID No. EPA-R06-OAR-2018-0208. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet. Publicly available docket materials are available electronically through <https://www.regulations.gov>.

**Withdrawal of Certain Federal Water Quality Criteria Applicable to Washington**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA or Agency) is taking final action to amend the federal regulations to withdraw certain human health water quality criteria applicable to waters in the State of Washington. The EPA is taking this action because the State adopted, and the EPA approved, human health criteria that the Agency determined are protective of Washington’s designated uses for its waters. In this action, the EPA is amending the federal regulations to withdraw those certain human health criteria applicable to Washington but promulgated by the Agency, as described in the August 6, 2019 proposed rule. The withdrawal will enable Washington to implement its EPA-approved human health criteria, submitted on August 1, 2016, and approved on May 10, 2019, as applicable criteria for Clean Water Act (CWA or the Act) purposes.

**DATES:** This final rule is effective on June 12, 2020.

**ADDRESSES:** The EPA has established a docket for this action identified by Docket ID No. EPA-HQ-OW-2015-0174, at <https://www.regulations.gov>. For additional information about the EPA’s public docket, visit the EPA Docket Center homepage at <https://www.epa.gov/dockets>.

**I. General Information**

*Does this action apply to me?*

This final action withdraws certain federal human health criteria (HHC) in the State of Washington that are no longer needed due to the EPA’s approval of the corresponding State HHC on May 10, 2019. Entities discharging pollutants in Washington waters, citizens, as well as the State of Washington may be interested in this rulemaking, because after the effective date of this rulemaking Washington’s EPA-approved HHC, rather than the federal HHC, will be the applicable water quality standards in Washington waters for CWA purposes. This action applies only to waterbodies in the State of Washington and does not apply to waters that are within Indian Country as defined in 18 U.S.C. 1151. If you have questions regarding the applicability of this action to a particular entity, consult the person identified in the preceding **FOR FURTHER INFORMATION CONTACT** section.

**II. Background**

*What are the applicable federal statutory and regulatory requirements?*

Consistent with the CWA, the EPA’s water quality standards (WQS) program assigns to states and authorized tribes the primary authority for adopting
