SUPPLEMENTARY INFORMATION:**I. General Information**

All animal feeding operations (AFOs) that meet the regulatory definition of a CAFO and are subject to 40 CFR part 412 are eligible for coverage under the permit, excluding facilities in Indian Country. Eligible CAFOs may apply for authorization under the terms and conditions of the permit by submitting a Notice of Intent (NOI) and nutrient management plan (NMP). Upon receipt, the EPA will review the NOI and NMP to ensure that all permit requirements are met. If the EPA makes a preliminary determination that the NOI is complete, the NOI, NMP, and draft terms of the NMP to be incorporated into the permit will be made available for a thirty (30) day public review and comment period.

If determined appropriate by the EPA, CAFOs will be granted coverage under the permit upon written notification by the EPA.

The EPA received 81 comments from six different organizations/entities during the public comment period which extended from October 23, 2019 through December 9, 2019. A Response to Comments document was prepared to respond to public comments received and explain any changes made to the draft general permit to produce the final general permit. The EPA received the final State CWA 401 certification on April 8, 2020.

The EPA has completed a Biological Evaluation for these Permit actions. Consultation under the Endangered Species Act between the EPA and the National Marine Fisheries Service and the U.S. Fish and Wildlife Service has been completed. The Services concurred on the EPA's determination that the Permit actions are not likely to adversely affect species listed under the Endangered Species Act or designated critical habitat.

II. Other Legal Requirements

This action was submitted to the Office of Management and Budget (OMB) for review under Executive Orders 12866, *Regulatory Planning and Review*, and 13563, *Improving Regulation and Regulatory Review*, and was determined to be not significant.
