

*Type of Information Collection:* Revision of a currently approved information collection.

*OMB Number:* 1660-0114.

*Form Titles and Numbers:* FEMA Form 089-5, PSGP Investment Justification.

*Abstract:* The previous version of FEMA Form 089-5 presented numerous editing and submission challenges for applicants, often leaving required information blank within the form. Additionally, numerous applicants annually fail to provide required content information within a detailed budget worksheet or provide no detailed budget worksheet at all. A detailed budget worksheet is required; however it is not currently in a required template. This update changes the format and software of Form 089-5 and incorporates the detailed budget worksheet to help ensure accurate project accounting. By broadening the form to include all required project information, applicants will have fewer documents to track and submit; and subsequent agency reviews will be streamlined and improve consistency among application format.

*Affected Public:* State, local and Tribal Governments; businesses or other for-profits and non-profits.

*Estimated Number of Respondents:* 893.

*Estimated Number of Responses:* 1,759.

*Estimated Total Annual Burden Hours:* 17,450 hours.

*Estimated Total Annual Respondent Cost:* \$1,430,377.

*Estimated Respondents' Operation and Maintenance Costs:* 0.

*Estimated Respondents' Capital and Start-Up Costs:* 0.

*Estimated Respondents' Operation and Maintenance Costs:* 0.

*Estimated Respondents' Capital and Start-Up Costs:* 0.

*Estimated Total Annual Cost to the Federal Government:* \$1,055,219.

## Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those

who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, such as permitting electronic submission of responses.

## SUPPLEMENTARY INFORMATION:

### Comments

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

### Overview of This Information Collection

(1) *Type of Information Collection:* Extension, Without Change, of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Standards to Prevent, Detect, and Respond to Sexual Abuse and Assault in Confinement Facilities

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. DHS is setting standards for the prevention, detection, and response to sexual abuse in its confinement facilities. For DHS facilities and as incorporated in DHS contracts, these standards require covered facilities to retain and report to the agency certain specified information relating to sexual abuse prevention planning, responsive planning, education and training, and investigations, as well as to collect, retain, and report to the agency certain specified information relating to allegations of sexual abuse within the covered facility.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* 1,386,177 responses at 6 minutes (.1 hours) per response.

(6) *An estimate of the total public burden (in hours) associated with the collection:* 120,082 annual burden hours.

Dated: May 8, 2020.

Scott Elmore,

PRA Clearance Officer.

**SUPPLEMENTARY INFORMATION:** In  
accordance with the PRA and its  
implementing regulations at 5 CFR  
1320.8(d)(1), all information collections  
require approval under the PRA. We  
may not conduct or sponsor and you are  
not required to respond to a collection  
of information unless it displays a  
currently valid OMB control number.

As part of our continuing effort to  
reduce paperwork and respondent

burdens, we invite the public and other  
Federal agencies to comment on new,  
proposed, revised, and continuing  
collections of information. This helps us  
assess the impact of our information  
collection requirements and minimize  
the public's reporting burden. It also  
helps the public understand our  
information collection requirements and  
provide the requested data in the  
desired format.

We are especially interested in public  
comment addressing the following:

(1) Whether or not the collection of  
information is necessary for the proper  
performance of the functions of the  
agency, including whether or not the  
information will have practical utility;

(2) The accuracy of our estimate of the  
burden for this collection of  
information, including the validity of  
the methodology and assumptions used;

(3) Ways to enhance the quality,  
utility, and clarity of the information to  
be collected; and  
(4) How might the agency minimize  
the burden of the collection of  
information on those who are to  
respond, including through the use of  
appropriate automated, electronic,  
mechanical, or other technological  
collection techniques or other forms of  
information technology, e.g., permitting  
electronic submission of response.

Comments that you submit in  
response to this notice are a matter of  
public record. We will include or  
summarize each comment in our request  
to OMB to approve this ICR. Before  
including your address, phone number,  
email address, or other personal  
identifying information in your  
comment, you should be aware that  
your entire comment—including your  
personal identifying information—may  
be made publicly available at any time.  
While you can ask us in your comment  
to withhold your personal identifying  
information from public review, we  
cannot guarantee that we will be able to  
do so.

*Abstract:* The information collected  
for the National Survey of Fishing,  
Hunting, and Wildlife-Associated  
Recreation (FHWAR) assists the Fish  
and Wildlife Service in administering  
the Wildlife and Sport Fish Restoration  
grant programs. The 2022 FHWAR  
survey will provide up-to-date  
information on the uses and demands  
for wildlife-related recreation resources  
and a basis for developing and  
evaluating programs and projects to  
meet existing and future needs.

We collect the information in  
conjunction with carrying out our  
responsibilities under the Dingell-  
Johnson Sport Fish Restoration Act (16  
U.S.C. 777-777m) and the Pittman-

Robertson Wildlife Restoration Act (16  
U.S.C. 669-669i). Under these acts, as  
amended, we provide approximately \$1  
billion in grants annually to States for  
projects that support sport fish and  
wildlife management and restoration,  
including:

- Improvement of fish and wildlife  
habitats,
- Fishing and boating access,
- Fish stocking, and
- Hunting and fishing opportunities.

We also provide grants for aquatic  
education and hunter education,  
maintenance of completed projects, and  
research into problems affecting fish  
and wildlife resources. These projects  
help to ensure that the American people  
have adequate opportunities for fish and  
wildlife recreation. We conduct the  
survey about every 5 years. The 2022  
FHWAR survey will be the 14th  
conducted since 1955. We sponsor the  
survey at the States' request, which is  
made through the Association of Fish  
and Wildlife Agencies. We contract with  
the National Opinion Research Center  
(NORC) at the University of Chicago,  
which collects the information using  
internet, telephone, or mail-in  
interviews. Respondents are invited to  
take the survey with a mailed letter.  
NORC will select a sample of  
sportspersons and wildlife watchers  
from a household screen and conduct  
three detailed interviews during the  
survey year. The survey collects  
information on the number of days of  
participation, species of animals sought,  
and expenditures for trips and  
equipment. Information on the  
characteristics of participants includes  
age, income, sex, education, race, and  
State of residence.

Federal and State agencies use  
information from the survey to make  
policy decisions related to fish and  
wildlife restoration and management.  
Participation patterns and trend  
information help identify present and  
future needs and demands. Land  
management agencies use the data on  
expenditures and participation to assess  
the value of wildlife-related recreational  
uses of natural resources. Wildlife-  
related recreation expenditure  
information is used to estimate the  
impact on the economy and to support  
the dedication of tax revenues for fish  
and wildlife restoration programs.
