

TABLE—DRAFT RISK ASSESSMENTS BEING MADE AVAILABLE FOR PUBLIC COMMENT—Continued

Registration review case name and No.	Docket ID No.	Chemical review manager and contact information
DCOIT Case 5023	EPA-HQ-OPP-2014-0403	Stephen Savage, <i>savage.stephen@epa.gov</i> , (703) 347-0345.

Pursuant to 40 CFR 155.53(c), EPA is providing an opportunity, through this notice of availability, for interested parties to provide comments and input concerning the Agency’s draft human health and/or ecological risk assessments for the pesticides listed in the Table in Unit IV. The Agency will consider all comments received during the public comment period and make changes, as appropriate, to a draft human health and/or ecological risk assessment. For specific comments the Agency is soliciting, see Unit V of this notice. EPA may then issue a revised risk assessment as part of the proposed interim decision (PID), explain any changes to the draft risk assessment, and respond to comments.

Information submission requirements. Anyone may submit data or information in response to this document. To be considered during a pesticide’s registration review, the submitted data or information must meet the following requirements:

- To ensure that EPA will consider data or information submitted, interested persons must submit the data or information during the comment period. The Agency may, at its discretion, consider data or information submitted at a later date.
- The data or information submitted must be presented in a legible and useable form. For example, an English translation must accompany any material that is not in English and a written transcript must accompany any information submitted as an audiographic or videographic record. Written material may be submitted in paper or electronic form.
- Submitters must clearly identify the source of any submitted data or information.
- Submitters may request the Agency to reconsider data or information that the Agency rejected in a previous review. However, submitters must explain why they believe the Agency should reconsider the data or information in the pesticide’s registration review.

As provided in 40 CFR 155.58, the registration review docket for each pesticide case will remain publicly accessible through the duration of the registration review process; that is, until all actions required in the final decision

on the registration review case have been completed.

V. Request for Comment

The EPA specifically requests comment concerning the draft risk assessments in the following areas:

- The use of *in vitro* and the artificial neural network-based defined approach (DA) to determine points of departure used in the isothiazolinone draft risk assessments instead of using laboratory animal data to evaluate risks for dermal sensitization.
- The use of a 100-fold uncertainty factor (UF) for the *in vitro* points of departure and use of a 10-fold UF for the human study point of departure selected for the human health dermal assessment.

Additionally, EPA requests information that may help the Agency refine the draft risk assessments. For the human health risk assessment, EPA welcomes the following information:

- For the assessment of inhalation risk, the inhalation toxicity study for DCOIT has been bridged to assess hazard of both BIT and BBIT, which do not have inhalation toxicity data. While the no observed adverse effect level (NOAEC) value from the DCOIT study is conservative, refinement of the NOAEC through benchmark dosing is not possible. Due to the 32-fold difference between the NOAEC and lowest observed adverse effect level (LOAEC) values in the DCOIT study, the inhalation risks may be overestimated using the conservative, unrefined endpoint from DCOIT. Additional chemical-specific inhalation toxicity data using proper dose spacing to conduct benchmark dose analysis would help to refine the inhalation risk assessments for the isothiazolinones.
- Residue transfer data are not available at this time for textiles/ clothing, plastics, and carpets and 100% of the application rate was assumed to transfer to children. Data currently being collected by the Antimicrobial Exposure Assessment Task Force (AEATF II) will potentially help to refine the human incidental oral and dermal exposures.

For the environmental risk assessments, EPA requests the following information:

- Degradation studies to show potential degradation in wastewater treatment facilities.
- More robust usage data on paper production, including information on how the compounds are used in paper production.

Authority: 7 U.S.C. 136 *et seq.*
 Dated: April 9, 2020.

Anita Pease,
Director, Antimicrobials Division, Office of Pesticide Programs.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0912; FRS 16752]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control

number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before July 13, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email *PRA@fcc.gov* and to *Cathy.Williams@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, and as required by the PRA of 1995 (44 U.S.C. 3501-3520), the FCC invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

OMB Control Number: 3060-XXXX.

Title: 3.7 GHz Band Relocation Coordinator and Relocation Payment Clearinghouse Real-Time Disclosure of Communications Required by Sections 27.1413(c)(6) and 27.1414(b)(4)(i).

Form Number: N/A.

Type of Review: New information collection.

Respondents: Business or other for profit entities.

Number of Respondents: 2 respondents; 12 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to Obtain or retain benefits. Statutory authority for this information collection is contained in sections 1, 2, 4(i), 4(j), 5(c), 201, 302, 303, 304, 307(e), and 309 of the Communications Act of 1934, as

amended, 47 U.S.C. 151, 152, 154(i), 154(j), 155(c), 201, 302, 303, 304, 307(e), 309.

Total Annual Burden: 12 hours.

Total Annual Costs: No cost.

Nature and Extent of Confidentiality:

The information collected under this collection will be made publicly available.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: On February 28, 2020, in furtherance of the goal of releasing more mid-band spectrum into the market to support and enable next-generation wireless networks, the Commission adopted a Report and Order, FCC 20-22, (*3.7 GHz Report and Order*) in which it reformed the use of the 3.7-4.2 GHz band, also known as the C-Band. The 3.7-4.2 GHz band currently is allocated in the United States exclusively for non-Federal use on a primary basis for Fixed Satellite Service (FSS) and Fixed Service. Domestically, space station operators use the 3.7-4.2 GHz band to provide downlink signals of various bandwidths to licensed transmit-receive, registered receive-only, and unregistered receive-only earth stations throughout the United States. The *3.7 GHz Report and Order* calls for the relocation of existing FSS operations in the band into the upper 200 megahertz of the band (4.0-4.2 GHz) and making the lower 280 megahertz (3.7-3.98 GHz) available for flexible-use throughout the contiguous United States through a Commission-administered public auction of overlay licenses in the 3.7 GHz Service that is scheduled to occur later this year, with the 20 megahertz from 3.98-4.0 GHz reserved as a guard band. The Commission adopted a robust transition schedule to achieve an expeditious relocation of FSS operations and ensure that a significant amount of spectrum is made available quickly for next-generation wireless deployments, while also ensuring effective accommodation of relocated incumbent users. The *3.7 GHz Report and Order* establishes a deadline of December 5, 2025, for full relocation to ensure that all FSS operations are cleared in a timely manner, but provides an opportunity for accelerated clearing of the band by allowing incumbent space station operators, as defined in the *3.7 GHz Report and Order*, to commit to voluntarily relocate on a two-phased accelerated schedule (with additional obligations and incentives for such operators), with a Phase I deadline of December 5, 2021, and a Phase II deadline of December 5, 2023.

The Commission concluded in the *3.7 GHz Report and Order* that a neutral, independent third-party Relocation

Payment Clearinghouse (RPC) should be established to administer the cost-related aspects of the transition in a fair, transparent manner, mitigate financial disputes among stakeholders, and collect and distribute payments in a timely manner to transition incumbent space station operators out of the 3.7-3.98 GHz band. The Commission also concluded that a Relocation Coordinator (RC) should be appointed to ensure that all incumbent space station operators are relocating in a timely manner, and to be responsible for receiving notice from earth station operators or other satellite customers of any disputes related to comparability of facilities, workmanship, or preservation of service during the transition and notify the Commission of disputes and recommendations for resolution.

To protect the fair and level playing field for applicants to participate in the Commission's auction for overlay licenses in the 3.7 GHz Service, the RPC and the RC are each required to make real-time, public disclosures of the content and timing of and the parties to communications, if any, from or to such applicants, as applicants are defined by the Commission's rule prohibiting certain auction-related communications, 47 CFR 1.2105(c)(5)(i), whenever the prohibition in 47 CFR 1.2105(c) applies to competitive bidding for licenses in the 3.7 GHz Service. *See* 47 CFR 27.1413(c)(6), 27.1414(b)(4)(i) (as adopted in the *3.7 GHz Report and Order*). The Commission is seeking approval for a new information collection to permit the RPC and the RC to make the required real-time, public disclosure of any such communications, as necessary.

Federal Communications Commission.

Marlene Dortch,

Secretary.
