

to Individuals and Households implement the policy and procedures set forth in section 408 of the Stafford Act, 42 U.S.C. 5174, as amended. This program provides financial assistance and, if necessary, direct assistance to eligible individuals and households who, as a direct result of a major disaster or emergency, have uninsured or under-insured, necessary expenses and serious needs, and are unable to meet such expenses or needs through other means. Individuals and households applying for assistance must provide information detailing their losses and needs through the disaster assistance registration process covered under collection 1660-0002, Disaster Assistance Registration. If FEMA determines the applicant had home or personal property damage, has no insurance, or that the applicant's insurance coverage may not meet their needs, an inspection is issued to verify disaster caused damage. All pertinent information for a specific applicant is stored under a unique registration identification (ID) within the National Emergency Management Information System (NEMIS). An inspection request occurs due to NEMIS-driven business rules (automatically), applicant request, or FEMA caseworker request. The scope of an inspection for owners includes noting real and personal property (furnishing and appliances) damages to the interior and exterior of the dwelling, addressing special needs, transportation, unmet needs, and miscellaneous purchases. Inspectors do not note real property specifications for renters.

Once the inspector validates the information provided by the applicant during registration intake, the inspector begins a physical assessment of real and/or personal property damages utilizing Automated Construction Estimator (ACE) software. The inspector then uploads this information back to FEMA via the NEMIS through use of a secure connection. The inspector only records observed disaster caused damages and does not determine eligibility or damage award levels. FEMA's policies and business rules determine eligibility and award levels based upon the damage assessment, and other available information.
