

born, and (3) 2–4 maternal dietary data recalls. The data from IFPS III will be used to: Fill research gaps on how feeding behaviors, patterns, and practices change over the first two years of life and the health-related impacts; inform multiple federal agency efforts targeting maternal and infant and

toddler nutrition through work in hospitals, with health care providers, with early care and education providers, and outreach to families and caregivers; and provide context to policy level documents such as the *U.S. Dietary Guidelines for Americans*, which will include pregnant women and children

birth to 24 months of age for the first time in 2020–2025. CDC requests approval of 5,051 annualized burden hours for this collection. There is no cost to respondents other than their time.
