

Production under FTZ procedures could exempt CoLinX from customs duty payments on the foreign-status materials/components used in export production (estimated 4 percent of production). On its domestic sales, for the foreign-status materials/components noted below and in the existing scope of authority, CoLinX would be able to choose the duty rates during customs entry procedures that apply to kits of tapered roller bearing cup/cone assemblies and gearheads (duty rates, 2.5% or 5.8%). CoLinX would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include tapered roller bearing cones, inner and outer races for tapered roller bearings, and fixed ratio speed changers (duty rates, 2.5% or 5.8%). The request indicates that certain tapered roller bearings are subject to an antidumping/countervailing duty (AD/CVD) order if imported from China. The FTZ Board's regulations (15 CFR 400.14(e)) require that merchandise subject to AD/CVD orders, or items which would be otherwise subject to suspension of liquidation under AD/CVD procedures if they entered U.S. customs territory, be admitted to the zone in privileged foreign status (19 CFR 146.41). The request also indicates that certain materials/components are subject to special duties under Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is June 24, 2020.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via www.trade.gov/ftz.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Technology Letter of Explanation

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on 2/6/2020 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: Bureau of Industry and Security.

Title: Technology Letter of Explanation.

OMB Control Number: 0694-0047.

Form Number(s): None.

Type of Request: Regular submission, extension of a current information collection.

Number of Respondents: 6,283.

Average Hours per Response: 30 minutes to 2 hours.

Burden Hours: 9,416.

Needs and Uses: The collection is necessary as export licensing officers must make decisions on licensing the export of United States commodities and technical data to foreign countries. When an export involves certain technical data or knowhow described in the Export Administration Regulation, additional information is required to fully understand the transaction and make a licensing decision. The additional information is necessary to evaluate technology exports as covered under this collection. Under certain
