Abstract of Proposed Collection

The purpose of the DS–5528 is to document the evacuation of persons from abroad when their lives are endangered by war, civil unrest, or natural disaster; document issuance of a crisis evacuation loan; obtain a Privacy Act Waiver to share information about the welfare of a U.S. citizen or U.S. lawful permanent resident consistent with the Privacy Act of 1974; and, to facilitate debt collection.

Methodology

An electronic version of the Evacuee Manifest and Promissory Note in the form of a .pdf file was created, allowing applicants to type their information into the form, print it, and present it to a consular officer at the evacuation point.

An alternative input method for evacuees utilizing the MS-Forms application has been utilized by some posts and provides the same functionality as the .pdf file. After completing the Microsoft Forms fields, applicants may print out and sign the form and transmit the form to post via email/fax. Alternatively, consular officers may accept a completed but unsigned form electronically, print it out, and then obtain the applicant's signature on the form prior to the individual boarding the transport. Continued software development may provide the capability to electronically submit signed loan applications for adjudication. The final stage of software development should not only allow the applicant to enter his/her information and submit the form, but will also make the information available for welfare inquiries which fall under the Privacy Act of 1974, as well as all stages of financial processing including the Department of State's debt collection process. Due to the potential for serious conditions during crisis events that often affect electronic and internet infrastructure systems, the electronic form will not replace the paper form. Rather, the paper form will still be maintained and used in the event that applicants are unable to submit forms electronically.

Zachary Parker,
Director.
