

International Reporting Requirements

Additionally, with this submission, we will submit to OMB for approval the information collection requirements associated with international reporting requirements specified in 50 CFR 13.21(5), 50 CFR 17.22(b)(v), 50 CFR 17.31(b)(v), 50 CFR 18.30(c)(2), 50 CFR 23.6, and 50 CFR 23.33(b). These reporting requirements are associated with the findings we must make under the various laws, treaties, and regulations administered by the Service. This may include consultation on sustainable use, population data, management practices, and verification of information received from other sources. The Service does not provide a form for this collection; rather, we request specific information based on the most current data we hold, in order to enable us to update or clarify that data. We estimate the annual burden associated with the international reporting requirements to be 24 responses and 192 burden hours. There is no nonhour burden cost associated with the international reporting requirements.

ePermits Initiative

The Service's new "ePermits" initiative is an automated permit application system that will allow the agency to move towards a streamlined permitting process to reduce public burden. Public burden reduction is a priority for the Service; the Assistant Secretary for Fish, Wildlife, and Parks; and senior leadership at the Department of the Interior. The intent of the ePermits initiative is to fully automate the permitting process to improve the customer experience and to reduce time burden on respondents. This new system will enhance the user experience by allowing users to enter data from any device that has internet access, including PCs, tablets, and smartphones. It will also link the permit applicant to the *Pay.gov* system for payment of the associated permit application fee.

We anticipate including the following Service forms in the ePermits system: 3–200–19 through 3–200–37, 3–200–39 through 3–200–43, 3–200–46 through 3–200–53, 3–200–58, 3–200–61, 3–200–64 through 3–200–66, 3–200–69, 3–200–70, 3–200–73 through 3–200–76, 3–200–80, and 3–200–85 through 3–200–88.

Title of Collection: Federal Fish and Wildlife Permit Applications and Reports—Management Authority; 50 CFR 12, 13, 14, 15, 16, 17, 18, 21, 23.

OMB Control Number: 1018–0093.

Form Numbers: FWS Forms 3–200–19 through 3–200–37, 3–200–39 through 3–

200–43, 3–200–46 through 3–200–53, 3–200–58, 3–200–61, 3–200–64 through 3–200–66, 3–200–69, 3–200–70, 3–200–73 through 3–200–76, 3–200–80, and 3–200–85 through 3–200–88.

Estimated Number of Annual Responses: 8,912.

Estimated Completion Time per Response: Varies from 15 minutes to 43.5 hours, depending on activity.

Estimated Annual Burden Hours: 7,961.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion or annually, depending on activity.

Total Estimated Annual Nonhour Burden Cost: \$629,400 for costs associated with application processing fees, which range from \$0 to \$250. There is no fee for reports. Federal, tribal, State, and local government agencies and those acting on their behalf are exempt from processing fees.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.
