

The Exchange does not believe the proposed rule change will impose any burden on inter-market competition because the proposed rule change applies only to products listed on the Exchange. Additionally, the proposed order type is intended to accommodate riskless transactions for parties that are not seeking price improvement, but rather looking to swap risk exposure, and therefore is not intended to have a competitive impact. Further, the proposed rule is substantially similar to a rule on the Cboe Exchange and may promote inter-market competition.²¹
