**SUPPLEMENTARY INFORMATION:**

**Background**

The Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), prohibits certain activities with endangered and threatened species unless authorized by a Federal permit. The ESA and our implementing regulations in part 17 of title 50 of the Code of Federal Regulations (CFR) provide for the issuance of such permits and require that we invite public comment before issuing permits for activities involving endangered species.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

### Bureau of Reclamation

[RR03240000, XXXR4079V4, RX122562102010000]

#### Termination of Notice of Intent To Prepare an Environmental Impact Statement for the Navajo Generating Station-Kayenta Mine Complex

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice.

**SUMMARY:** The Bureau of Reclamation (Reclamation) is terminating preparation of an Environmental Impact Statement (EIS) for the Navajo Generating Station-Kayenta Mine Complex (NGS-KMC). The proposed action was modified in

2017, and Reclamation determined that an Environmental Assessment (EA) rather than an EIS was the appropriate level of environmental documentation for the modified proposed action. An EA was prepared on an Extension Lease by Reclamation and the Bureau of Indian Affairs (BIA)-Navajo Region as joint lead agencies. Signed Findings of No Significant Impact (FONSI) were announced to the public on November 30, 2017.

**FOR FURTHER INFORMATION CONTACT:** Ms. Leslie Meyers, Bureau of Reclamation, Phoenix Area Office, 6150 West Thunderbird Road, Glendale, AZ 85306-4001; telephone (623) 773-6211; facsimile (623) 773-6480; email [lmeyers@usbr.gov](mailto:lmeyers@usbr.gov). Persons who use a telecommunications device for the deaf may call the Federal Relay Service (Fed Relay) at 1-800-877-8339 TTY/ASCII to contact the above individual during normal business hours or to leave a message or question(s) after hours. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:** Pursuant to the National Environmental Policy Act (NEPA) of 1969, as amended, 42 U.S.C. 4231-4347; the Council on Environmental Quality's Regulations for Implementing the Procedural Provisions of NEPA, 40 CFR parts 1500 through 1508; and the Department of the Interior's regulations, 43 CFR part 46, a Notice of Intent to prepare the EIS for the NGS-KMC Project was published in the **Federal Register** on May 16, 2014 (79 FR 28546). Under the proposed action, Reclamation and other federal agencies would provide federal approvals and/or decisions necessary to continue the operation and maintenance of the NGS-KMC facilities through December 2044.

Publication of the **Federal Register** notice was followed with a public scoping period that ended on July 7, 2014. The Draft EIS was made available for public review and comment from September 30 to December 29, 2016.

On February 13, 2017, the utility owners of NGS-KMC (Lessees) issued a statement indicating they no longer intended to operate NGS-KMC after expiration of the existing 1969 Lease, on December 22, 2019, citing the rapidly changing economics of the energy industry. The statement also confirmed the Lessees would be willing to operate NGS-KMC through December 2019, if all necessary agreements were reached with the Navajo Nation, to allow for retirement of NGS-KMC within 5 years. The EIS proposed action was modified and Reclamation determined that an EA, rather than an EIS, was the appropriate
