SUPPLEMENTARY INFORMATION: The U.S. Copyright Office has established a group registration option that allows a newsletter publisher to register an entire month of issues with one application and one filing fee. A publisher may use this option if each issue is “an all-new issue or an all-new collective work that has not been previously published.”¹ In addition, the newsletter “must usually” be published “at least two days each week.”² The word “usually” was added to the regulation “to account for occasional situations where the newsletter suspends publication (*e.g.*, for a holiday).”³

On February 24, 2020, the Office issued a notice of proposed rulemaking (the “NPRM”) requesting public comment on an amendment that would extend this option to a broader range of publishers.⁴ The NPRM noted that it had come to the Office’s attention that many newsletters are published just once a week.⁵ The requirement that publication must usually occur at least twice a week renders these newsletters ineligible for this group registration option. Some newsletter publishers may be able to use the group registration option for serials (which is specifically intended for publications that are distributed at intervals of a week or longer), but to do so each issue “must be an all-new collective work.”⁶ Thus, if a newsletter is published once a week, and if the issues in the group do not qualify as all-new collective works, the publisher may not qualify for either the group registration option for newsletters or the group registration option for serials. For these types of newsletters, the publisher must submit a separate application and filing fee for each issue.

To address this issue, the NPRM proposed to eliminate the requirement that newsletters must be published at least two days a week to qualify for the

group registration option for newsletters.⁷ During the comment period, the Office received no comments concerning the NPRM.⁸ Therefore, the Office is proceeding to issue a final rule that is identical to the proposed rule.

Under the final rule, newsletter publishers will still be required to complete and submit an online application and upload a digital deposit to seek a group registration.⁹ The online application is labeled “Daily Newsletters,” but to be clear, this form may be used to register any newsletter, even if it is not published on a daily basis, as long as all of the issues are published within the same month.

Likewise, newsletter publishers will still be required to comply with the mandatory deposit requirement if the newsletter is published in the United States in a physical form.¹⁰ To satisfy this requirement, the publisher must provide the Library of Congress with up to two complimentary subscriptions to the newsletter.¹¹ To facilitate this process, the final rule updates the mailing address where complimentary subscription copies of newsletters and other serials should be sent.

Technical Correction to Reimbursement of Qualifying Adoption Expenses for Certain Veterans

AGENCY: Department of Veterans Affairs.
ACTION: Correcting Amendment.

SUMMARY: This final rule will add the Office of Management and Budget approval number for the new collection of information in the Department of Veterans Affairs (VA) regulation that governs the reimbursement of qualifying adoption expenses incurred by a veteran with a service-connected disability that results in the inability of the veteran to procreate without the use of fertility treatment.

SUPPLEMENTARY INFORMATION: In a document published in the **Federal Register** on December 13, 2019, VA adopted as final, with changes, an interim final rule providing for reimbursement of qualifying adoption expenses incurred by certain veterans (84 FR 68046). The Paperwork Reduction Act of 1995 (44 U.S.C. 3507) requires that VA consider the impact of paperwork and other information collection burdens imposed on the public. Under 44 U.S.C. 3507(a), an agency may not collect or sponsor the collection of information, nor may it impose an information collection requirement unless it displays a currently valid Office of Management and Budget (OMB) control number. See also 5 CFR 1320.8(b)(3)(vi). As required by 44 U.S.C. 3507(d), VA submitted the information collection associated with § 17.390 to OMB for its review. OMB approved the new information collection requirements associated with the interim final rule under a 6-month emergency clearance and assigned OMB control number 2900-0860, although the control number did not appear in § 17.390 as revised by the final rule because the OMB control number 2900-0860 expired on March 31, 2019. VA applied to OMB for a renewal of this information collection under a separate document and OMB approved the renewal of this information collection requirement associated with the final rule on March 10, 2020. This document revises § 17.390 by adding the approved OMB control number.
