**SUPPLEMENTARY INFORMATION:**

*Title:* FERC–153, Generic Clearance for the Collection of Qualitative Feedback on Commission Service Delivery.

*OMB Control No.:* 1902–0293.

*Type of Request:* Generic information collection.

*Abstract:* On March 17, 2020, the Commission published a Notice in the **Federal Register** (85 FR 15159) in Docket No. IC20–11–000 requesting public comments. The Commission received no public comments and is indicating that in the related submittal to OMB. This information collection provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration’s commitment to improving service delivery. By qualitative feedback, we mean data that provides useful insights on perceptions and opinions but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. This collection will allow for ongoing, collaborative and actionable communications between FERC and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Commission’s services will be unavailable.

The Commission will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low burden for respondents (based on considerations of total burden hours, total number of respondents, or burden hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- The collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program soon;
- Personal identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of the Commission (if released, the Commission must indicate the qualitative nature of the information);
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which

generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study.

As a general matter, this information collection will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

This information collection is subject to the PRA. The Commission generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information which does not display a valid OMB Control Number. See 5 CFR 1320.6(a). OMB authorization for an information collection cannot be for more than three years without renewal.

On March 17, 2020, the Commission published a Notice in the **Federal Register** in Docket No. IC20–11–000 requesting public comments. The Commission received no public comments.

*Type of Respondents/Affected Public:* Individuals and households; Businesses or other for-profit and not-for-profit organizations; State, Local, or Tribal government.

*Estimate of Annual Burden:*<sup>1</sup> The Commission estimates the annual public reporting burden and cost for the information collection as:

**ESTIMATED ANNUAL BURDEN FOR GENERIC CLEARANCE FOR FERC–153**

	Number of respondents	Number of responses per respondent	Total number of responses	Average burden minutes per response	Total burden hours
	(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)
Generic Clearance .....	27,000	1	27,000	10 minutes .....	4,500 hours. <sup>2</sup>

<sup>1</sup> Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide

information to or for a Federal agency. For further explanation of what is included in the information

collection burden, refer to 5 Code of Federal Regulations 1320.3.

*Comments:* Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

All exemptions and provisions included in the SORN for PSS 1.0 under the OASIS portal will transfer to the new SORN for PSS 2.0.

**DATES:** Persons wishing to comment on this system of records notice must do so by June 29, 2020. New routine uses for this new system of records will be effective June 29, 2020.

*Instructions:* Direct your comments to Docket ID No. EPA-HQ-OMS-2019-0371. The EPA's policy is that all comments received will be included in the public docket without change and may be made available online at [www.regulations.gov](http://www.regulations.gov), including any personal information provided, unless the comment includes information claimed to be Controlled Unclassified Information (CUI) or other information for which disclosure is restricted by statute. Do not submit information that you consider to be CUI or otherwise protected through [www.regulations.gov](http://www.regulations.gov). The [www.regulations.gov](http://www.regulations.gov) website is an "anonymous access" system for EPA, which means the EPA will not know your identity or contact information unless you provide it in the body of your comment. Each agency determines submission requirements within their own internal processes and standards. EPA has no requirement of personal information. If you send an email comment directly to the EPA without going through [www.regulations.gov](http://www.regulations.gov) your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. If you submit an electronic comment, the EPA recommends that you include your name and other contact information in the body of your comment. If the EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, the EPA may not be able to consider your comment. available docket materials are available either electronically in [www.regulations.gov](http://www.regulations.gov) or in hard copy at the OMS Docket, EPA/DC, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OMS Docket is (202) 566-1752.

**FOR FURTHER INFORMATION CONTACT:** Jon Ross, Office of Mission Support, Environmental Protection Agency, William Jefferson Clinton North Building, Mailcode 3206A, 1200 Pennsylvania Avenue NW, Washington, DC 20460; telephone number, (202) 564-6153; email address, [Ross.Jon@epa.gov](mailto:Ross.Jon@epa.gov).

**SUPPLEMENTARY INFORMATION:** The Office of Mission Support (OMS) plans to replace the current PSS (1.0), which is a module of OASIS (EPA-41), with a new system, PSS 2.0, outside of the OASIS portal. OMS is creating a stand-alone Privacy Act system of records for the Personnel Security System (PSS) 2.0. All exemptions and provisions included in the SORN for PSS 1.0 under the OASIS portal will transfer to the new SORN for PSS 2.0. Details regarding the system of records are contained in this **Federal Register** Notice. The PSS 2.0 assists the Security Management Division (SMD) with tracking the documentation associated with security investigations for Federal and non-Federal personnel working for EPA. This includes reporting requirements that meet the Security Executive Agent Directive (SEAD) 3, which establishes reporting requirements for all "covered individuals" who have access to classified information or who hold a sensitive position. Access to the system is restricted to authorized users and will be maintained in a secure, password protected computer system, in secure areas and buildings with physical access controls and environmental controls. In the performance of their official duties, EPA federal personnel must input and manage Sensitive Personally Identifiable Information (such as SSN) and Personally Identifiable Information (such as home address and email address). The data is required in the system to start the onboarding process and to manage personnel through lifecycle activity at EPA (such as background investigations).
