

of the *Code of Federal Regulations* (10 CFR). The NRC is reviewing an exemption request from EGC dated October 3, 2019 (ADAMS Accession No. ML19276D398). EGC requested an exemption from the requirements of paragraph 72.212(b)(3) of title 10 of the *Code of Federal Regulations* (10 CFR), and the portion of 10 CFR 72.212(b)(11) that requires compliance with the terms, conditions, and specifications of the Certificate of Compliance No. 1032, for spent fuel storage at the Calvert Cliffs Nuclear Power Plant. In evaluating the request, the NRC is also considering, pursuant to authority in 10 CFR 72.7, exempting EGC from similar requirements in 10 CFR 72.212(a)(2), 10 CFR 72.212(b)(5)(i); and 10 CFR 72.214, "List of approved spent fuel storage casks."

Specifically, EGC requested an exemption to load and store Class 14x14C spent fuel with a larger maximum pellet diameter than authorized in Amendment No. 1, Revision 1 of Holtec Certificate of Compliance No. 1032 for the HI-STORM FW storage system.

## II. Environmental Assessment Summary

Under the requirements of 10 CFR 51.21 and 10 CFR 51.30(a), the NRC staff developed an environmental assessment (ADAMS Accession No. ML20114E231) to evaluate the proposed action, which is for the NRC to grant an exemption to EGC to allow loading and storage of spent fuel with a larger maximum pellet diameter than that authorized in Amendment No. 1, Revision 1 of the Holtec Certificate of Compliance No. 1032 for the HI-STORM FW storage system.

The EA defines the NRC's proposed action (*i.e.*, to grant the exemption request per 10 CFR 72.7) and the purpose of and need for the proposed action. Evaluations of the potential environmental impacts of the proposed action and alternatives to the proposed action are presented, followed by the NRC's conclusion.

This EA evaluates the potential environmental impacts of granting the exemption to load and store spent fuel with a larger maximum pellet diameter than authorized in Certificate of Compliance No. 1032, Amendment No. 1, Revision 1 in the HI-STORM FW storage system at the Calvert Cliffs Nuclear Power Plant. The potential environmental impact of using NRC-approved storage casks was initially analyzed in the EA for the rulemaking to provide for the storage of spent fuel under a general license on July 18, 1990 (55 FR 29181). The environmental

assessment for the HI-STORM FW storage system, Certificate of Compliance No. 1032, Amendment No. 1, Revision 1, (80 FR 14291) tiers off the environmental assessment for the 1990 final rule.

The NRC staff finds that the environmental effects from this exemption request is bounded by the EA for Certificate of Compliance No. 1032, Amendment No. 1, Revision 1, and that there will be no significant environmental impacts from the proposed action. The proposed action does not change the types or quantities of effluents that may be released offsite, and it does not increase occupational or public radiation exposure. The request by EGC to increase the pellet diameter without a corresponding increase in the uranium oxide loading of fuel assemblies will not result in an inadvertent criticality event. Therefore, there are no significant radiological environmental impacts associated with the proposed action. There is no change to the non-radiological effluents. The proposed action will take place within the site boundary and does not have other environmental impacts. Thus, the proposed action will not have a significant effect on the quality of the human environment. Therefore, the environmental impacts of the proposed action are no greater than those described in the EA for the rulemaking to add the HI-STORM FW storage system, Certificate of Compliance No. 1032, Amendment No. 1, Revision 1 to 10 CFR 72.214.

## III. Finding of No Significant Impact

The NRC staff has prepared an EA and associated FONSI in support of the proposed action. The NRC staff has concluded that the proposed action, for the NRC to grant the exemption requested for Calvert Cliffs Nuclear Power Plant, allowing storage of a larger pellet diameter in Amendment No. 1, Revision 1 for the HI-STORM FW storage system, will not significantly impact the quality of the human environment, and that the proposed action is the preferred alternative. The environmental impacts are bounded by the previous EA for the rulemaking to add the Certificate of Compliance No. 1032, Amendment No. 1, Revision 1 cask system to 10 CFR 72.214.

The NRC provided the Maryland Department of the Environment a draft copy of this EA for review in an email dated March 16, 2020 (ADAMS Accession No. ML20077J550).

The NRC staff has determined that this exemption would have no impact on historic and cultural resources or ecological resources and therefore no

consultations are necessary under Section 7 of the Endangered Species Act or Section 106 of the National Historic Preservation Act.

Therefore, the NRC finds that there are no significant environmental impacts from the proposed action, and that preparation of an environmental impact statement is not warranted. Accordingly, the NRC has determined that a FONSI is appropriate.

## OFFICE OF PERSONNEL MANAGEMENT

### Submission for Review: 3206-0228, CSRS/FERS Documentation in Support of Disability Retirement Application, Standard Form 3112

**AGENCY:** Office of Personnel Management.

**ACTION:** 60-Day notice and request for comments.

**SUMMARY:** The Retirement Services, Office of Personnel Management (OPM) offers the general public and other federal agencies the opportunity to comment on a revised information collection request (ICR), CSRS/FERS Documentation in Support of Disability Retirement Application, Standard Form 3112.

**DATES:** Comments are encouraged and will be accepted until July 31, 2020.

**ADDRESSES:** You may submit comments, identified by docket number and/or Regulatory Information Number (RIN) and title, by the following method:

—*Federal Rulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

All submissions received must include the agency name and docket number or RIN for this document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

**FOR FURTHER INFORMATION CONTACT:** A copy of this ICR with applicable supporting documentation, may be obtained by contacting the Retirement

Services Publications Team, Office of Personnel Management, 1900 E Street NW, Room 3316–L, Washington, DC 20415, Attention: Cyrus S. Benson, or sent via electronic mail to [Cyrus.Benson@opm.gov](mailto:Cyrus.Benson@opm.gov) or faxed to (202) 606–0910 or via telephone at (202) 606–4808.

**SUPPLEMENTARY INFORMATION:** As required by the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. chapter 35) as amended by the Clinger-Cohen Act (Pub. L. 104–106), OPM is soliciting comments for this collection (OMB No. 3206–0228). The Office of Management and Budget is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Standard Form 3112, CSRS/FERS Documentation in Support of Disability Retirement Application, collects information from applicants for disability retirement so that OPM can determine whether to approve a disability retirement under title 5, U.S.C. 8337 and 8455. The applicant will only complete Standard Forms 3112A, and 3112C. Standard Forms 3112B, 3112D and 3112E will be completed by the immediate supervisor and the employing agency of the applicant.
