**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Notice.

**SUMMARY:** The Agricultural Marketing Service (AMS) is announcing the designations of D.R. Schaal Agency, Inc. (Schaal) and the North Carolina Department of Agriculture and Consumer Services (NCDA) to provide official services under the United States Grain Standards Act (USGSA), as amended.

**DATES:** January 1, 2020.

**SUPPLEMENTARY INFORMATION:** In the June 25, 2019, **Federal Register** (84 FR 29839), AMS requested applications for designation to provide official services in the South Carolina area. Applications were due by July 25, 2019.

The official agencies, South Carolina Department of Agriculture (SCDA), Schaal, and NCDA, applied for designation to provide official services in the South Carolina area. SCDA applied for the entire state of South Carolina; however, withdrew its application on December 11, 2019. Schaal applied for Aiken, Allendale, Bamberg, Barnwell, Beaufort, Charleston, Colleton, Edgefield, Hampton, and Jasper Counties. NCDA applied for Chesterfield, Darlington, Dillon, Florence, Horry, Kershaw, Lancaster, Lee, Marion, and Marlboro Counties.

AMS evaluated each application against the designation criteria in section 7(f) of the USGSA (7 U.S.C. 79(f)) and determined that Schaal and NCDA are qualified to provide official services in the geographic area specified in the **Federal Register** on June 25, 2019. As such, the Federal Grain Inspection Service (FGIS) has designated Schaal and NCDA to provide official services in the specified areas of South Carolina, effective January 1, 2020, to September 30, 2021. Because Schaal and NCDA only requested, in their application, to service a total of twenty counties in South Carolina, twenty-six counties remained unassigned. In order to provide official services to customers throughout the entire state of South Carolina, FGIS has arranged for Schaal and NCDA to provide official services for those counties. Because SCDA withdrew its application to provide official services, this designation has a retroactive effective date as of January 1, 2020.

Schaal's geographic area is amended effective January 1, 2020, as follows:

Pursuant to Section 7(f)(2) of the USGSA, the following geographic area, in the states of Georgia, Iowa, Minnesota, New Jersey, New York, and South Carolina, is assigned to this official agency:

#### SUPPLEMENTARY INFORMATION:

##### Background

The World Trade Organization (WTO) was established on January 1, 1995, as the common international institutional framework for the conduct of trade

relations among its members in matters related to the Uruguay Round Trade Agreements. The WTO is the successor organization to the General Agreement on Tariffs and Trade (GATT). United States membership in the WTO was approved and the Uruguay Round Agreements Act (Uruguay Round Agreements) was signed into law by the President on December 8, 1994, Public Law 103-465, 108 Stat. 4809. The Uruguay Round Agreements became effective, with respect to the United States, on January 1, 1995. The Uruguay Round Agreements amended the Trade Agreements Act of 1979. Pursuant to section 491 of the Trade Agreements Act of 1979, as amended, the President is required to designate an agency to be "responsible for informing the public of the sanitary and phytosanitary (SPS) standard-setting activities of each international standard-setting organization" (19 U.S.C. 2578). The main international standard-setting organizations are Codex, the World Organisation for Animal Health (OIE), and the International Plant Protection Convention. The President, pursuant to Proclamation No. 6780 of March 23, 1995, (60 FR 15845), designated the U.S. Department of Agriculture as the agency responsible for informing the public of the SPS standard-setting activities of each international standard-setting organization. The Secretary of Agriculture has delegated to the Office of Trade and Foreign Agricultural Affairs the responsibility to inform the public of the SPS standard-setting activities of Codex. The Office of Trade and Foreign Agricultural Affairs has, in turn, assigned the responsibility for informing the public of the SPS standard-setting activities of Codex to the U.S. Codex Office (USCO).

Codex was created in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Codex is the principal international organization for establishing standards for food. Through adoption of food standards, codes of practice, and other guidelines developed by its committees and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers, ensure fair practices in the food trade, and promote coordination of food standards work undertaken by
