DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Rescinding the Notice of Intent To Prepare Environmental Impact Statement: South Kohala, Hawaii

AGENCY: Federal Highway
Administration (FHWA), DOT.

ACTION: Notice to rescind notice of
intent (NOI) to prepare an
environmental impact statement (EIS).

SUMMARY: The FHWA is issuing this
notice to advise the public that the
FHWA is rescinding its NOI and will
not be preparing an EIS to evaluate
alternatives to realign and/or widen an
existing highway in South Kohala in the
County of Hawaii. An NOI to prepare an
EIS was published in the **Federal
Register** on November 29, 2002.

FOR FURTHER INFORMATION CONTACT:
Ralph Rizzo, Division Administrator,
Federal Highway Administration, 300
Ala Moana Boulevard, Box 50206,
Honolulu, Hawaii 96850, Telephone:
(808) 541-2700.

SUPPLEMENTARY INFORMATION: The
FHWA, in cooperation with the State of
Hawaii Department of Transportation
(HDOT), initiated an EIS with an NOI
published in the **Federal Register** on
November 29, 2002, at 67 FR 71231, to
prepare an EIS.

The study area begins near the
intersection of Mud Lane and the
Hawaii Belt Road (State Route 19) and
terminates along Mamalahoa Highway
(State Route 190) near the Waimea-
Kohala Airport. The study also included
a 1.7 mile spur to connect with Lindsey
Road. Improvements were considered
necessary to improve highway safety and
reduce congestion, while preserving
the character and ambience of the
historic Waimea village. The Project
would impact a sizable number of
historic and archaeological resources
due to the sheer number of
archaeological sites identified during
the survey. Avoidance of all these sites
would be difficult and may not be

feasible. Also, the County recently
completed intersection improvements
on the existing highway that improved
congestion. Finally, the cost for the
estimated right-of-way and construction
would likely be substantial because of
limited funding availability. Therefore,
HDOT has decided not to proceed with
the project and the preparation of the
EIS is being terminated.

review of these Federal agency actions
on the highway project will be barred
unless the claim is filed on or before

that authorizes judicial review of a
claim provides a time period of less
than 150 days for filing such claim, then
that shorter time period still applies.

SUPPLEMENTARY INFORMATION: Effective
January 17, 2017, FHWA assigned to
UDOT certain responsibilities of FHWA
for environmental review, consultation,
and other actions required by applicable
Federal environmental laws and
regulations for highway projects in
Utah, pursuant to 23 U.S.C. 327. FHWA
maintained responsibility to publish
documents proposed by UDOT to be
published in the **Federal Register**,
including notices of final agency action
under 23 U.S.C. 139(l)(1). FHWA also
maintained responsibility of the
environmental review process of the
West Davis Corridor project until its
issuance of a Record of Decision (FHWA
ROD), which occurred on September 29,
2017. Since that time UDOT has been
responsible for conducting any
additional environmental reviews that
are required for the West Davis Corridor
project. On behalf of UDOT, notice is
hereby given that the USACE has taken
final agency actions subject to 23 U.S.C.
§ 139(l)(1) by issuing licenses, permits,
and approvals for the West Davis
Corridor project in the State of Utah.

The West Davis Corridor project is a
proposed highway approximately 19
miles long and would be a four-lane
divided highway with an average right-
of-way width of 250 feet from I-15 in
Farmington to Antelope Drive in Davis
County, Utah. From Antelope Drive to
1800 North in West Point the project
would be a 146-foot-wide, limited-
access two-lane highway.

A Final Environmental Impact
Statement and Section 4(f) Evaluation
for the West Davis Corridor project
(FEIS) was approved by FHWA on June
23, 2017, and the FHWA ROD for the
project was issued on September 29,
2017. The FEIS, FHWA ROD, and other
project records are available by
contacting UDOT at the address
provided above. The FEIS and FHWA
ROD can also be viewed and
downloaded from the project website at
[https://westdavis.udot.utah.gov/final-
eis-and-rod/](https://westdavis.udot.utah.gov/final-eis-and-rod/). FHWA published a notice
of final federal agency action under 23
U.S.C. 139(l)(1) for the FEIS, FHWA
ROD and all other then-final federal

agency actions for the project on October 6, 2017, and the 150-day period for filing a claim for judicial review of those actions expired on March 5, 2018.

This notice applies to USACE's approval of a permit under Section 404 of the Clean Water Act and a Record of Decision under the National Environmental Policy Act and Section 404 of the Clean Water Act issued for the West Davis Corridor project. The USACE Record of Decision was issued on May 14, 2020 and the USACE Section 404 permit was issued on May 15, 2020 (SPK-2007-01985). As described in the USACE Record of Decision and permit, in the approximately 17.5 miles of the project covered by the permit, between I-15 in Farmington and 300 North in West Point, there will be a discharge of dredged or fill material into 55.71 acres of waters of the United States, including 52.03 acres of wetlands, 0.98 acre/1,875 linear feet of perennial streams, and 2.70 acres of other open waters. The Record of Decision and Section 404 permit authorize these discharges.

The USACE Section 404 permit and Record of Decision are available by contacting USACE at the address provided above. This notice applies to the Section 404 permit and Record of Decision and all laws under which such actions were taken, including but not limited to the following laws and their implementing regulations:
