

hours and 4 of the hours the employee worked each week were nightshift hours compensated at a premium rate of an extra \$5 per hour, the employee's total straight time earnings would be \$620 (fixed salary of \$600 plus \$20 of premium pay for the 4 nightshift hours). In this case, the regular rate of pay in each of these weeks is \$16.53 and \$12.92, respectively, and the employee's total compensation would be calculated as follows: For the 37.5 hour week the employee is owed \$620 (fixed salary of \$600 plus \$20 of non-overtime premium pay, with no overtime hours); and for the 48 hour week \$671.68 (fixed salary of \$600 plus \$20 of non-overtime premium pay, and 8 hours of overtime at one-half times the regular rate of \$12.92 for a total overtime payment of \$51.68). This principle applies in the same manner regardless of the reason for the hourly premium rate (e.g., weekend hours).

(3) *Example.* If during the course of 2 weeks this employee works 37.5 and 48 hours and the employee received a \$100 productivity bonus each week, the employee's total straight time earnings would be \$700 (fixed salary of \$600 plus \$100 productivity bonus). In this case, the regular rate of pay in each of these weeks is \$18.67 and \$14.58, respectively, and the employee's total compensation would be calculated as follows: For the 37.5 hour week the employee is owed \$700 (fixed salary of \$600 plus \$100 productivity bonus, with no overtime hours); and for the 48 hour week \$758.32 (fixed salary of \$600 plus \$100 productivity bonus, and 8 hours of overtime at one-half times the regular rate of \$14.58 for a total overtime payment of \$58.32).

(c) Typically, such fixed salaries are paid to employees who do not customarily work a regular schedule of hours and are in amounts agreed on by the parties as adequate compensation for long workweeks as well as short ones, under the circumstances of the employment as a whole. Where the conditions for the use of the fluctuating workweek method of overtime payment are present, the Act, in requiring that "not less than" the prescribed premium of 50 percent for overtime hours worked be paid, does not prohibit paying more. On the other hand, where all the facts indicate that an employee is being paid for overtime hours at a rate no greater than that which the employee receives for nonovertime hours, compliance with the Act cannot be rested on any application of the fluctuating workweek overtime formula.

(d) The fixed salary described in paragraph (a) of this section does not vary with the number of hours worked

in the workweek, whether few or many. However, employers using the fluctuating workweek method of overtime payment may take occasional disciplinary deductions from the employee's salary for willful absences or tardiness or for infractions of major work rules, provided that the deductions do not cut into the minimum wage or overtime pay required by the Act.

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is amending and updating its special local regulations relating to recurring marine parades, regattas, and other events that take place in the Coast Guard Sector Ohio Valley area of responsibility

(AOR). This rule informs the public of regularly scheduled events that require additional safety measures through the establishing of a special local regulation. Through this rulemaking the current list of recurring special local regulations is updated with revisions, additional events, and removal of events that no longer take place in Sector Ohio Valley's AOR. When these special local regulations are enforced, certain restrictions are placed on marine traffic in specified areas.

DATES: This rule is effective June 8, 2020.

§ Section
U.S.C. United States Code

II. Background Information and Regulatory History

The Captain of the Port Sector Ohio Valley (COTP) is establishing, amending, and updating its current list of recurring special local regulations codified under 33 CFR 100.801 in Table 1, for the COTP Ohio Valley zone.

On February 14, 2020, the Coast Guard published a notice of proposed rulemaking (NPRM) titled Sector Ohio Valley Annual and Recurring Special Local Regulations Update (85 FR 8499). There we stated why we issued the NPRM, and invited comments on our proposed regulatory action related to those recurring regulated areas. During the comment period that ended March 16, 2020, no comments were received.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making it effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be impracticable and contrary to the public interest because immediate action is necessary to

respond to the potential safety hazards associated with these marine events.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70041 (previously 33 U.S.C. 1233 The Coast Guard is amending and updating the special local regulations under 33 CFR part 100 to include the most up to date list of recurring special local regulations for events held on or around navigable waters within the Sector Ohio Valley AOR. These events include marine parades, boat races, swim events, and others. The current list under 33 CFR 100.801 requires amending to provide new information on existing special local regulations, include new special local regulations expected to recur annually or biannually, and to remove special local regulations that are no longer required. Issuing individual regulations for each new special local regulation, amendment, or removal of an existing special local regulation creates unnecessary administrative costs and burdens. This rulemaking reduces administrative overhead and provides the public with notice through publication in the **Federal Register** of the upcoming recurring special local regulations.

IV. Discussion of Comments, Changes, and the Rule

As noted above, we received no comments on our NPRM published February 14, 2020. There are no changes in the regulatory text of this rule from the proposed rule in the NPRM.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13771 directs agencies to control regulatory costs through a budgeting process. This rule has not been designated a "significant regulatory action," under Executive Order 12866. Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB), and pursuant to OMB guidance it is exempt from the requirements of Executive Order 13771.
