

Dated: June 2, 2020.

Sarah L. Stewart,

Deputy General Counsel, Federal Mine Safety and Health Review Commission.

[FR Doc. 2020-12288 Filed 6-5-20; 8:45 am]

BILLING CODE 6735-01-P

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

Sending Case Issuances through Electronic Mail

AGENCY: Federal Mine Safety and Health Review Commission.

ACTION: Notice.

SUMMARY: On a temporary basis, the Federal Mine Safety and Health Review Commission will be sending its issuances through electronic mail and will not be monitoring incoming physical mail or facsimile transmissions.

DATES: Applicable: June 2, 2020.

FOR FURTHER INFORMATION CONTACT:

Sarah Stewart, Deputy General Counsel, Office of the General Counsel, Federal Mine Safety and Health Review Commission, at (202) 434-9935; ssstewart@fmshrc.gov.

SUPPLEMENTARY INFORMATION: Until July 10, 2020, case issuances of the Federal Mine Safety and Health Review Commission (FMSHRC), including *inter alia* notices, decisions, and orders, will be sent only through electronic mail. This includes notices, decisions, and orders described in 29 CFR 2700.4(b)(1), 2700.24(f)(1), 2700.45(e)(3), 2700.54, and 2700.66(a). Further, FMSHRC will not be monitoring incoming physical mail or facsimile described in 29 CFR 2700.5(c)(2). If possible, all filings should be e-filed as described in 29 CFR 2700.5(c)(1).

Authority: 30 U.S.C. 823.

Dated: June 2, 2020.

Sarah L. Stewart,

Deputy General Counsel, Federal Mine Safety and Health Review Commission.

[FR Doc. 2020-12290 Filed 6-5-20; 8:45 am]

BILLING CODE 6735-01-P

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

Sunshine Act Notice

TIME AND DATE: 10:00 a.m., Thursday, June 18, 2020.

PLACE: This meeting will be conducted through a videoconference involving all Commissioners. Any person wishing to listen to the proceedings may call the phone number listed below.

STATUS: Open.

MATTERS TO BE CONSIDERED: The Commission will consider and act upon the following in open session: *Secretary of Labor v. Scott and Thomas, employed by Mill Branch Coal Corp.*, Docket No. VA 2018-103 (Issues include whether the Judge erred by dismissing civil penalty proceedings involving individuals because he determined that the proposed penalty assessments were filed too late.)

Any person attending this meeting who requires special accessibility features and/or auxiliary aids, such as sign language interpreters, must inform the Commission in advance of those needs. Subject to 29 CFR 2706.150(a)(3) and § 2706.160(d).

CONTACT PERSON FOR MORE INFO: Emogene Johnson (202) 434-9935/(202) 708-9300 for TDD Relay/1-800-877-8339 for toll free.

PHONE NUMBER FOR LISTENING TO MEETING: 1-(866) 236-7472; Passcode: 678-100.

Authority: 5 U.S.C. 552b.

Dated: June 4, 2020.

Sarah L. Stewart,

Deputy General Counsel.

BILLING CODE 6735-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality; Notice of Meeting

AGENCY: Agency for Healthcare Research and Quality (AHRQ), HHS.

ACTION: Notice of meeting.

SUMMARY: The subcommittee listed below is part of AHRQ's Health Services Research Initial Review Group Committee. Grant applications are to be reviewed and discussed at this meeting. This subcommittee meeting will be closed to the public.

DATES: See below for date of meeting: *Health Care Research and Training (HCRT)*

Date: July 10th, 2020

ADDRESSES: Agency for Healthcare Research and Quality (Video Assisted Review), 5600 Fishers Lane, Rockville, Maryland 20857.

FOR FURTHER INFORMATION CONTACT: (to obtain a roster of members, agenda or minutes of the non-confidential portions of this meeting.) Jenny Griffith, Committee Management Officer, Office of Extramural Research Education and Priority Populations, Agency for Healthcare Research and Quality

(AHRQ), 5600 Fishers Lane, Rockville, Maryland 20857, Telephone (301) 427-1557.

SUPPLEMENTARY INFORMATION: In accordance with section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. 2), AHRQ announces this meeting of the above-listed scientific peer review groups, which are subcommittees of AHRQ's Health Services Research Initial Review Group Committee. This subcommittee meeting will be closed to the public in accordance with the provisions set forth in 5 U.S.C. App. 2 section 10(d), 5 U.S.C. 552b(c)(4), and 5 U.S.C. 552b(c)(6). The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Agenda items for this meeting are subject to change as priorities dictate.

Virginia L. Mackay-Smith,
Associate Director.

BILLING CODE 4160-90-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) approve the proposed information collection project "Identifying and Testing Strategies for Management of Opioid Use and Misuse in Older Adults in Primary Care Practices."

DATES: Comments on this notice must be received by 60 days after date of publication of this Notice.

ADDRESSES: Written comments should be submitted to: Doris Lefkowitz, Reports Clearance Officer, AHRQ, by email at doris.lefkowitz@ahrq.hhs.gov.

Copies of the proposed collection plans, data collection instruments, and specific details on the estimated burden

can be obtained from the AHRQ Reports Clearance Officer.

FOR FURTHER INFORMATION CONTACT:

Doris Lefkowitz, AHRQ Reports Clearance Officer, (301) 427-1477, or by email at doris.lefkowitz@AHRQ.hhs.gov.

SUPPLEMENTARY INFORMATION:

Proposed Project

Identifying and Testing Strategies for Management of Opioid Use and Misuse in Older Adults in Primary Care Practices

The goals of this project are to assess and describe the current prevalence, awareness, and management of opioid use, misuse, and abuse in older adults, and identify gaps and areas of needed research. Additionally, this project will support primary care practices (PCP) in developing and testing innovative strategies, approaches, and/or tools for opioid management within the context of facilitated learning collaboratives, culminating in a Compendium of Strategies for opioid management in older adults in primary care settings. Through this project, AHRQ is addressing the gaps in knowledge around opioid use in older adults in primary care settings. To accomplish this we are synthesizing what is known about the development and testing of innovative strategies, approaches, and/or tools for opioid management of older adults with pain on opioid medication, and/or opioid use disorder.

This study is being conducted by AHRQ through its contractor, Abt Associates Inc., pursuant to AHRQ's statutory authority to conduct and support research on healthcare and on systems for the delivery of such care, including activities with respect to the quality, effectiveness, efficiency, appropriateness and value of healthcare services and with respect to quality measurement and improvement. 42 U.S.C. 299a(a)(1) and (2).

Method of Collection

To achieve the goals of this project the following data collections will be implemented:

1. We will conduct a web-based survey of primary care clinicians who care for older adults. The purpose of the survey is to assess primary care clinician experiences caring for older adult patients with chronic pain on opioids. The survey will be sent to 5,000 randomly selected primary care clinicians.

2. Participating learning collaborative practices will be asked to implement strategies related to each of the key areas on the continuum: Prevention, management and treatment of opioid

use, misuse and OUD in older adults. We will collect primary data via observations, interviews, and a survey, and secondary data including practice and learning collaborative documents. The following primary data collection activities are proposed:

a. *PCP Clinical Staff Survey.* A brief web-based survey will be emailed to all clinical staff participating in the learning collaborative at baseline before starting implementation and approximately 15 months later. We assumed 20 clinical staff per clinic site, and 24 clinics for a total of 480 staff.

b. *Interviews.* In-depth interviews will occur with up to three staff at each health care organization participating in the learning collaborative, for a total of up to 72 individuals. The evaluation team will conduct these interviews with:

c. *Quality Improvement (QI) champion for the initiative in the clinics at baseline, mid-point and post-implementation.*

d. *Two additional staff (e.g. clinician, information technology analyst, behavioral health specialist) per organization (mid-point and post-implementation).*

3. *Self-Assessment.* The QI champion will complete a self-assessment tool at baseline. A similar tool is used in the Six Building Blocks program and the Centers for Disease Control (CDC) Opioid QI Collaborative. This tool is for clinics or health systems to assess the status of their QI efforts to improve opioid prescribing, and the extent to which care is consistent with the CDC Opioid Prescribing Guidelines.

4. *Quality Improvement Measures.* Each clinic will report quarterly on the QI measures. The QI measures include both process and outcome measures. Process measures are reflective of recommended clinical strategies or tools being implemented, and outcome measures examine intermediate outcomes. A data analyst at each organization will provide aggregate reports of the specified QI measures to the evaluation team on a quarterly basis over the course of a 15-month period. The QI measures are measures of opioid prescribing that are critical for understanding the potential improvements in opioid prescribing in implementing the strategies.

Estimated Annual Respondent Burden

Exhibit 1 presents estimates of the reporting burden hours for the data collection efforts. Time estimates are based on prior experiences and what can reasonably be requested of participating providers (survey) and PCPs. The number of respondents listed

in column A, Exhibit 1 reflects a projected response rate for data collection efforts.

1. *Provider web-based survey.* A survey will be sent to 5,000 randomly selected primary care clinicians. The survey will include no more than 30 items and is expected to take approximately 15 minutes to complete. We anticipate a 30% response rate, resulting in 1,500 completed surveys.

2. *PCP Learning Collaboratives Primary Data Collection.*

a. *PCP Learning Collaborative Clinical Staff Survey.* A brief survey will be emailed to all clinicians at baseline before starting implementation and approximately 15 months later. We assume 20 clinical staff per clinic site, and 24 clinics for a total of 480 staff. We assume 360 clinical staff will complete the survey based on a 75% response rate. It is expected to take up to 20 minutes to complete.

b. *Interviews.* In-depth interviews will occur with up to 3 staff at each health care organization, for a total of up to 72 individuals. The evaluation team will conduct these interviews, each lasting up to 30 minutes with:

i. *QI champion for the initiative in the clinics at baseline, mid-point and post-implementation.*

ii. *Two additional staff (e.g., clinician, information technology analyst, behavioral health specialist) per PCP at mid-point and post-implementation.*

c. *Self-Assessment.* A self-assessment tool used in the Six Building Blocks program, and CDC Opioid QI Collaborative for clinics or health systems will be provided to practices to assess where they are in their QI efforts to improve opioid prescribing, and the extent to which care is consistent with the CDC Opioid Prescribing Guideline. The QI champion or lead for the effort in each of the 24 participating PCPs will respond to the self-assessment which will take approximately 15 minutes to complete.

d. *QI Measures.* Aggregate reports of the specified quality measures will be provided on a quarterly basis over the course of a 15-month period by a data analyst at each PCP. This activity will involve 12 individuals at each learning collaborative for a total of 24. We assume 40 hours total for each data analyst to collect and provide these data: Twenty hours to develop a system for pulling these measures and five hours to pull and submit these reports each quarter. The QI measures are measures of opioid prescribing that are critical for understanding the potential improvements in opioid prescribing in implementing strategies and tools for management of opioid use, misuse, and

abuse. Each health care organization is asked to report quarterly on the QI measures. Clinics may obtain these

measures from electronic health record (EHR) data, or they may not have the sophistication or capacity to do that and

may track these measures using Excel files or other methods.

EXHIBIT 1—ESTIMATED ANNUALIZED BURDEN HOURS

| Data collection method or project activity | Number of respondents A. | Number of responses per respondent B. | Hours per response C. | Total burden hours D. |
|---|-----------------------------|--|--------------------------|--------------------------|
| | | | | |
| 1. Web-Based Provider Survey ¹ | 1,500 | 1 | 15/60 | 375 |
| 2a. Learning Collaborative Clinical Staff Survey ² | 360 | 2 | 20/60 | 240 |
| 2bi. Learning Collaborative QI Champion Interview | 24 | 3 | 30/60 | 36 |
| 2bii. Learning Collaborative Staff Interview | 48 | 2 | 30/60 | 48 |
| 2c. Learning Collaborative Self-Assessment | 24 | 1 | 15/60 | 6 |
| 2di. Learning Collaborative QI Measures—develop system | 24 | 1 | 20 | 480 |
| 2dii. Learning Collaborative QI Measures—pull and submit | 24 | 4 | 5 | 480 |
| Total | 2,028 | n/a | n/a | 1,665 |

¹ Number of respondents reflects a 30% response rate.

² Number of respondents reflects a sample size assuming a 75% response rate.

Exhibit 2, below, presents the estimated annualized cost burden

associated with the respondents' time to participate in this research. The total

cost burden is estimated to be \$72,145.62.

EXHIBIT 2—ESTIMATED ANNUALIZED COST BURDEN

| Data collection method or project activity | Number of respondents | Total burden hours | Average hourly wage rate * D. | Total cost burden |
|---|-----------------------|--------------------|----------------------------------|-------------------|
| | | | | |
| 1. Web-Based Provider Survey ¹ | 1,500 | 375 | \$101.82 | \$38,182.50 |
| 2a. Learning Collaborative Clinical Staff Survey ² | 360 | 240 | 39.42 | 9,460.80 |
| 2bi. Learning Collaborative QI Champion Interview ³ | 24 | 36 | 54.68 | 1,968.48 |
| 2bii. Learning Collaborative Staff Interview ⁴ | 48 | 48 | 39.42 | 1,892.16 |
| 2c. Learning Collaborative Self-Assessment ⁵ | 24 | 6 | 54.68 | 328.08 |
| 2di. Learning Collaborative QI Measures—develop system ⁶ | 24 | 480 | 21.16 | 10,156.80 |
| 2dii. Learning Collaborative QI Measures—pull and submit ⁷ | 24 | 480 | 21.16 | 10,156.80 |
| Total | 2,028 | 1,917 | n/a | 72,145.62 |

¹ The average hourly rate of \$101.82 for the provider survey was calculated based on the 2018 mean hourly wage rate for family and general practitioners, (occupation code 29-1062).

² The average hourly rate of \$39.42 for the learning collaborative clinical staff survey was calculated based on the 2018 mean hourly wage rate for medical and health services managers (occupation code 29-0000).

³ The average hourly rate of \$54.68 for QI champion interviews was calculated based on the 2018 mean hourly wage rate for medical and health services managers (occupation code 11-9111).

⁴ The average hourly rate of \$39.42 for staff interviews was calculated based on the 2018 mean hourly wage rate for medical and health services managers (occupation code 29-0000).

⁵ The average hourly rate of 54.68 for the Learning Collaborative QI champion to complete the self-assessment was calculated based on the 2018 mean hourly wage rate for medical and health services managers (occupation code 11-9111).

⁶ The average hourly rate of \$21.16 to develop the Learning Collaborative QI measures was calculated based on the 2018 mean hourly wage rate for medical records and health information technicians (occupation code 29-2071).

⁷ The average hourly rate of \$21.16 to pull and submit the Learning Collaborative QI measures was calculated based on the 2018 mean hourly wage rate for medical records and health information technicians (occupation code 29-2071).

Mean hourly wage rates for these groups of occupations were obtained from the Bureau of Labor & Statistics on “Occupational Employment and Wages, May 2018” found at the following URL: http://www.bls.gov/oes/current/oes_nat.htm#b29-0000.htm.

Request for Comments

In accordance with the Paperwork Reduction Act, 44 U.S.C. 3501–3520, comments on AHRQ's information collection are requested with regard to any of the following: (a) Whether the proposed collection of information is

necessary for the proper performance of AHRQ's health care research and health care information dissemination functions, including whether the information will have practical utility; (b) the accuracy of AHRQ's estimate of burden (including hours and costs) of the proposed collection(s) of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information upon the respondents, including the use of

automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the Agency's subsequent request for OMB approval of the proposed information collection. All comments will become a matter of public record.

Dated: June 2, 2020.
