

ENVIRONMENTAL PROTECTION AGENCY

[FRL-10010-25-Region 5]

Public Water System Supervision Program Approval for the State of Michigan**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice of tentative approval.

SUMMARY: Notice is hereby given that the Environmental Protection Agency (EPA) has tentatively approved a revision to the state of Michigan's Public Water System Supervision Program under the federal Safe Drinking Water Act (SDWA) by adopting the Revised Total Coliform Rule. The EPA has determined this revision is no less stringent than the corresponding federal regulation. Therefore, the EPA intends to approve this revision to the state of Michigan's Public Water System Supervision Program, thereby giving Michigan Department of Environment, Great Lakes, and Energy primary enforcement responsibility for this regulation. This approval action does not extend to public water systems in Indian Country. By approving this rule, EPA does not intend to affect the rights of federally recognized Indian Tribes in Michigan, nor does it intend to limit existing rights of the state of Michigan.

DATES: Any interested party may request a public hearing on this determination. A request for a public hearing must be submitted by July 10, 2020. The EPA Region 5 Administrator may deny frivolous or insubstantial requests for a hearing. However, if a substantial request for a public hearing is made by July 10, 2020, EPA Region 5 will hold

a public hearing, and a notice of such hearing will be published in the **Federal Register** and a newspaper of general circulation. Any request for a public hearing shall include the following information: the name, address, and telephone number of the individual, organization, or other entity requesting a hearing; a brief statement of the requesting person's interest in the Regional Administrator's determination and a brief statement of the information that the requesting person intends to submit at such hearing; and the signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

If EPA Region 5 does not receive a timely and appropriate request for a hearing and the Regional Administrator does not elect to hold a hearing on his own motion, this determination shall become final and effective on July 10, 2020 and no further public notice will be issued.

ADDRESSES: All documents relating to this determination are available for inspection at the following offices between the hours of 9 a.m. and 4 p.m., Monday through Friday, except for official holidays and unless the offices are closed due to COVID 19: Michigan Department of Environment, Great Lakes, and Energy, Drinking Water and Environmental Health Division, 525 W Allegan, Constitution Hall 4th floor, Lansing, MI 48909-7741; and the U.S. Environmental Protection Agency Region 5, Ground Water and Drinking Water Branch (WG-15J), 77 W Jackson Blvd., Chicago, IL 60604. Requestors can email Jennifer Kurtz Crooks, crooks.jennifer@epa.gov, to receive

documents related to this determination in the case of office closures.

SUPPLEMENTARY INFORMATION:

A. Purpose

Under the PRA, (44 U.S.C. 3501-3520) Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires Federal Agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of

information, before submitting the collection to OMB for approval. To comply with this requirement, GSA is publishing notice of the proposed collection of information set forth in this document.

Whether seeking a loan, Social Security benefits, veterans benefits, or other services provided by the Federal Government, individuals and businesses expect Government customer services to be efficient and intuitive, just like services from leading private-sector organizations. Yet the 2016 American Consumer Satisfaction Index and the 2017 Forrester Federal Customer Experience Index show that, on average, Government services lag nine percentage points behind the private sector.

A modern, streamlined and responsive customer experience means: Raising government-wide customer experience to the average of the private sector service industry; developing indicators for high-impact Federal programs to monitor progress towards excellent customer experience and mature digital services; and providing the structure (including increasing transparency) and resources to ensure customer experience is a focal point for agency leadership. To support this, OMB Circular A-11 Section 280 established government-wide standards for mature customer experience organizations in government and measurement. To enable Federal programs to deliver the experience taxpayers deserve, they must undertake three general categories of activities: Conduct ongoing customer research, gather and share customer feedback, and test services and digital products.

These data collection efforts may be either qualitative or quantitative in nature or may consist of mixed methods. Additionally, data may be collected via a variety of means, including but not limited to electronic or social media, direct or indirect observation (*i.e.*, in person, video and audio collections), interviews, questionnaires, surveys, and focus groups. GSA will limit its inquiries to data collections that solicit strictly voluntary opinions or responses.

The results of the data collected will be used to improve the delivery of
