Background: Under the Omnibus Transportation Employee Testing Act of 1991, DOT is required to implement a drug and alcohol testing program in various transportation related industries. This specific requirement is elaborated in 49 CFR part 40, Procedures for Transportation Workplace Drug and Alcohol Testing Programs. This request for a renewal of the information collection for the program includes 41 burden items related to the overall program and 2 official DOT forms: The U.S. Department of Transportation Alcohol Testing Form (ATF) [DOT F 1380] and the DOT Drug and Alcohol Testing Management Information System (MIS) Data Collection Form [DOT F 1385].

The ATF includes the employee’s name, the type of test taken, the date of the test, and the name of the employer.

The MIS form includes employer specific drug and alcohol testing information such as the reason for the test and the cumulative number of test results for the negative, positive, and refusal tests. No employee specific data is collected. The MIS data is used by each of the affected DOT Agencies (*i.e.*, Federal Aviation Administration, Federal Transit Administration, Federal Railroad Administration, Federal Motor Carrier Safety Administration, and the Pipeline and Hazardous Materials Safety Administration) and the United States Coast Guard when calculating their industry’s annual random drug and/or alcohol testing rate.

Respondents: The information will be collected from transportation employers, Department representatives, and a variety of service agents. Estimated total number of respondents is 3,593,202.
