

construction because they are not currently managed as open roads.

- The pipeline would be constructed and maintained in accordance with an updated construction, operation, and maintenance plan (COM Plan) that includes details on restoration, rehabilitation, visual resources, and all required mitigation for reducing or eliminating impacts to resources. See the FERC FEIS, Sec. 1.4 for a complete list of requirements for the ACP.

Four Forest Plan standards on the MNF and nine Forest Plan standards in Management Area 5C on the GWNF would be amended (see “Forest Plan Amendment” section) to ensure the SUP is consistent with the Forest Plans. Upon completion of pipeline construction, a longer-term SUP would be issued for a period up to 30 years for the operation and maintenance of a right-of-way.

Forest Plan Amendments

The Forest Plan Amendment on the MNF would modify four standards as described in Tables 2 and 3 in the 2017 Forest Service ROD including SW06 (severe rutting), SW07 (use of wheeled and/or tracked, motorized equipment), SW03 (disturbed soil rehabilitation), and TE07 (threatened and endangered species, special use permits).

The Forest Plan Amendment on the GWNF would place the ACP into Management Area 5C (Designated Utility Corridors) and amend FW–244 (utility corridors), FW–5 (revegetation), FW–8 (water saturated areas), FW–16 (exposed soil in channeled ephemeral zones), FW–17 (residual basal area in channeled ephemeral zones), use of wheeled and/or tracked, motorized equipment), 11–003 (exposed soil within riparian corridors), 4A–025 (Appalachian National Scenic Trail), 2C3–015 (Eligible Recreational River Area), and FW–182 (scenic integrity objectives).

The Planning Rule at 36 CFR 219.13(b)(2) requires responsible officials to provide notice of which substantive requirements of 36 CFR 219.8 through 219.11 are likely to be directly related to the amendment. Whether a rule provision is directly related to an amendment is determined by any one of the following: The purpose for the amendment, a beneficial effect of the amendment, a substantial adverse effect of the amendment, or a lessening of plan protections by the amendment (36 CFR 219.13(b)(5)). Based on those criteria, the substantive Planning Rule provisions that are likely to be directly related to the amendments are: § 219.8(a)(1) (terrestrial ecosystems); § 219.8(a)(2)(ii) (soils and water

productivity); § 219.8(a)(2)(iv) (water resources); § 219.8(a)(3)(i) (ecological integrity of riparian areas); § 219.9(b) (contributions to recovery of threatened and endangered species); § 219.10(a)(3) (utility corridors); § 219.10(b)(1)(vi) (other designated areas); § 219.10(b)(1)(i) (scenic character); and § 219.11(c) (timber harvesting for purposes other than timber production).

Responsible Official

The responsible officials are the Regional Foresters for the Southern and Eastern Regions.

Nature of Decision To Be Made

Given the purpose and need, the Regional Foresters will review the proposed action, alternatives, the environmental consequences, the stipulations (mitigation) that would be applicable in the SUP, public comment, and the project record in order to make the following decisions on whether to: (1) Authorize the use and occupancy of NFS land for Atlantic to construct, operate, and maintain a natural gas pipeline that crosses NFS lands administered by the MNF and GWNF via issuance of a SUP; (2) Approve Forest Plan amendments that would modify four standards in the MNF’s Forest Plan and nine standards in the GWNF’s Forest Plan; and (3) Adopt all or portions of the FERC FEIS.

While the Supply Header project was included in the FERC FEIS, it is not on NFS lands. Therefore, no analysis will be prepared or decision made on this project.

Public Engagement Process

Scoping was completed and summarized in the FERC FEIS (FEIS, Section ES–2, 1.3). Written, specific comments, including those that were relevant to NFS lands, identified concerns and issues that were addressed in the FEIS. Scoping will not be repeated and this SEIS will focus on the following:

- Issues identified in the Court ruling including the potential for the proposal to cause adverse impacts to soil, water, and threatened and Endangered Species Act (ESA) Threatened and Endangered species and their habitat;
- The purpose and impact of the Forest Plan amendments on affected resources (soil, water, ESA Threatened and Endangered species, scenic integrity, ANST, and eligible recreation rivers) and consistency with the Planning Rule;
- The feasibility and practicality of having routes that are not on NFS lands; and,

- A re-evaluation and assessment of erosion, sedimentation, and water quality effects in relation to anticipated mitigation effectiveness.

Additional opportunities for public comment will be provided when the Draft SEIS is available. A Forest Service decision to authorize the construction and operation of the ACP will be subject to the Forest Service predecisional administrative review procedures established in 36 CFR 218 (per 36 CFR 219.59(b)). Those wishing to object must meet the requirements at 36 CFR 218, Subpart A and B for the project.

Lisa A. Northrop,

Acting Associate Deputy Chief, National Forest System.

BILLING CODE 3411–15–P

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the New Mexico Advisory Committee; Correction

AGENCY: Commission on Civil Rights.
ACTION: Notice; correction to call-in number.

SUMMARY: The Commission on Civil Rights published a notice in the **Federal Register** on Wednesday, May 27, 2020, concerning a meeting of the New Mexico Advisory Committee. The document contained an incorrect call-in number, which now has changed to a new call-in number.

FOR FURTHER INFORMATION CONTACT: Angelica Trevino, (202) 695–8935, atrevino@usccr.gov.

SUPPLEMENTARY INFORMATION:

Correction

In the **Federal Register** of Wednesday, May 27, 2020, in FR Doc. 2020–11291, on page 31739, second column of 31739, correct the call-in number to (888) 394–8218.

Dated: June 5, 2020.

David Mussatt,

Supervisory Chief, Regional Programs Unit.
