

**PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS**

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

**Subpart NN—Pennsylvania**

- 2. In § 52.2020, the table in paragraph (c)(2) is amended by:
- a. Under “Part A—General” by adding a twelfth entry for “2101.20”; and
- b. Under “Part B—Permits Generally” by revising entry “2102.06”.

The addition and revision read as follows:

<b>§ 52.2020</b>	<b>Identification of plan.</b>
* * *	* * *
(c) * * *	
(2) * * *	

Article XX or XXI citation	Title/subject	State effective date	EPA approval date	Additional explanation/§ 52.2063 citation
*	*	*	*	*
<b>Part A—General</b>				
*	*	*	*	*
2101.20	Definitions	3/3/19	6/15/20, [insert <b>Federal Register</b> citation].	Adding “Significant air quality impact” for PM <sub>2.5</sub> .
<b>Part B—Permits Generally</b>				
*	*	*	*	*
2102.06	Major Sources Locating in or Impacting a Non-attainment Area.	3/3/19	6/15/20, [insert <b>Federal Register</b> citation].	Adding requirements for 2012 PM <sub>2.5</sub> NAAQS, as it relates to NNSR. Specifically, SO <sub>2</sub> , NO <sub>x</sub> , VOC, and ammonia are considered PM <sub>2.5</sub> precursors in Allegheny County, PA. Previous approval was March 30, 2015. Docket No. EPA-R03-OAR-2015-0636.

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**50 CFR Part 622**

[Docket No. 200527-0148]

RIN 0648-BJ08

**Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Greater Amberjack Management Measures; Correction**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Final rule; correcting amendment.

**SUMMARY:** NMFS corrects the final rule that implemented management measures described in a framework action to the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (FMP), which published in the **Federal Register** on April 14, 2020.

In addition to revising the commercial trip limit in the Gulf of Mexico (Gulf exclusive economic zone for greater amberjack, the final rule revised the boundaries of several Gulf reef fish management areas to reflect a change in the seaward boundary of Louisiana, Mississippi, and Alabama. That framework action final rule contained an incorrect waypoint for the Gulf reef fish longline and buoy gear restricted area. The purpose of this correcting amendment is to fix that error.

**DATES:** This correction is effective June 15, 2020.

**FOR FURTHER INFORMATION CONTACT:** Kelli O'Donnell, Southeast Regional Office, NMFS, telephone: 727-824-5305, email: [kelli.odonnell@noaa.gov](mailto:kelli.odonnell@noaa.gov).

**SUPPLEMENTARY INFORMATION:** On April 14, 2020, NMFS published a final rule in the **Federal Register** (85 FR 20611) to implement provisions for a framework action that revised the commercial trip limit for Gulf greater amberjack. That final rule also revised the boundaries of the reef fish stressed area (Table 2 of appendix B to 50 CFR part 622), the reef fish longline and buoy gear restricted area (Table 1 of appendix B to 50 CFR part 622), and the recreational shallow-water grouper closure (50 CFR 622.34(d)) to ensure the boundaries of these areas were consistent with

language in the 2016 and 2017 Consolidated Appropriations Acts (Pub. L. 114-113, December 18, 2015, and Pub. L. 115-31, May 5, 2017), that changed the state and Federal boundary for management of the Gulf reef fish fishery to 9 nautical miles (nm; 16.7 km) off the Gulf coasts of all the Gulf States. That rule did not change the management measures associated with each area. That final rule was effective on May 14, 2020.

**Correction**

In the final rule for the framework action (85 FR 20611, April 14, 2020), the regulatory text in Table 1 to appendix B to 50 CFR part 622 contained one incorrect waypoint for the reef fish longline and buoy gear restricted area. The coordinates presented to the Gulf of Mexico Fishery Management Council for review were correct. However, in the rulemaking for the framework action, Point 19 of the longline and buoy gear restricted area in Table 1 was incorrectly identified as 28°46.5' N and 89°26.0' W, which is inshore of the revised boundary of the Gulf reef fish longline and buoy gear restricted area. Thus, NMFS corrects Table 1 of appendix B to 50 CFR part 622 with the correct coordinate for Point 19 of the Gulf reef fish longline and buoy gear

restricted area, which is 28°45.8' N, 89°29.5' W.

**Classification**

The Regional Administrator, Southeast Region, NMFS has determined that this correcting amendment is necessary for the conservation and management of Gulf reef fish resources and is consistent with the framework action, the FMP, the Magnuson-Stevens Fishery Conservation and Management Act, and other applicable law.

This correcting amendment has been determined to be not significant under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), the Assistant Administrator for Fisheries, NOAA, finds good cause to waive prior notice and opportunity for additional public comment because it would be unnecessary and contrary to the public interest. This correcting amendment corrects a waypoint for the longline and buoy gear restricted area. Providing prior notice and opportunity for public

comment is unnecessary and contrary to the public interest because this is a non-substantive change and retaining the incorrect waypoint will cause confusion among the affected fishers and law enforcement. The current waypoint error results in an inshore boundary of the federally-managed restricted that is inconsistent with the provisions of the 2016 and 2017 Appropriations Acts.

For the same reasons, the Assistant Administrator also finds good cause, pursuant to 5 U.S.C. 553(d), to waive the 30-day delay in effective date for this correcting amendment. This non-substantive correction will prevent confusion about the location of the boundary for the longline and buoy gear restricted area.

Because prior notice and opportunity for public comment are not required for this rule by 5 U.S.C. 553, or any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are inapplicable. Accordingly, no Regulatory Flexibility Analysis is required and none has been prepared.

**List of Subjects in 50 CFR Part 622**

Boundary, Commercial, Coordinates, Fisheries, Fishing, Greater amberjack, Gulf of Mexico, Reef fish, Trip limits.

Dated: May 27, 2020.

**Samuel D. Rauch, III,**

*Deputy Assistant Administrator for Regulatory Programs National Marine Fisheries Service.*

Accordingly, 50 CFR part 622 is corrected by making the following correcting amendment:

**PART 622—FISHERIES OF THE CARIBBEAN, GULF OF MEXICO, AND SOUTH ATLANTIC**

■ 1. The authority citation for part 622 continues to read as follows:

**Authority:** 16 U.S.C. 1801 *et seq.*

■ 2. In appendix B to part 622, in table 1, revise the coordinates of point 19 to read as follows:

**Appendix B to Part 622—Gulf Areas**

TABLE 1 OF APPENDIX B TO PART 622—SEAWARD COORDINATES OF THE LONGLINE AND BUOY GEAR RESTRICTED AREA

Point number and reference location <sup>1</sup>	North lat.	West long.
19 South of Southwest Pass of Mississippi River .....	28°45.8'	89°29.5'

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**50 CFR Part 622**

[Docket No. 1710319998630-02; RTID 0648-XS029]

**Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Resources of the South Atlantic; 2020 Red Snapper Commercial and Recreational Fishing Seasons**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; 2020 fishing seasons notice.

**SUMMARY:** NMFS announces the limited opening of commercial and recreational red snapper in the exclusive economic

zone (EEZ) of the South Atlantic for the 2020 fishing year. This notice announces the red snapper commercial season opening date and the opening and closing dates for the red snapper recreational season, according to the accountability measures (AMs). This season announcement for South Atlantic red snapper allows fishers to maximize their opportunity to harvest the commercial and recreational annual catch limits (ACLs) while also managing harvest to protect the red snapper resource.

**DATES:** The 2020 commercial red snapper season opens at 12:01 a.m., local time, July 13, 2020. The 2020 recreational red snapper season opens at 12:01 a.m., local time, on July 10, 2020, and closes at 12:01 a.m., local time, on July 13, 2020; then reopens at 12:01 a.m., local time, on July 17, 2020, and closes at 12:01 a.m., local time, on July 18, 2020, unless changed by subsequent notification in the **Federal Register**.

**FOR FURTHER INFORMATION CONTACT:** Frank Helies, NMFS Southeast Regional Office, telephone: 727-824-5305, email: [frank.helies@noaa.gov](mailto:frank.helies@noaa.gov).

**SUPPLEMENTARY INFORMATION:** The South Atlantic snapper-grouper fishery includes red snapper and is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The South Atlantic Fishery Management Council (Council) prepared the FMP, and the FMP is implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

The final rule implementing Amendment 43 to the FMP (83 FR 35428; July 26, 2018) describes red snapper management measures including the specific timing for red snapper commercial and recreational fishing seasons. The final rule also revised the commercial and recreational ACLs for red snapper. The commercial AM requires the sector to close when commercial landings reach or are projected to reach the commercial ACL. The recreational AM is the length of the recreational season, with NMFS projecting the season length based on catch rate estimates from previous years.
