

Title: 5-Year Record Retention Requirement for Export and Boycott Transactions.

OMB Control Number: 0694–0096.

Form Number(s): None.

Type of Request: Extension of a current information collection.

Number of Respondents: 100,000.

Average Hours Per Response: 1 Second to 1 Minute.

Burden Hours: 258.

Needs and Uses: This collection is necessary under Sections 760 and 762.6(a) of the Export Administration Regulations (EAR). The five-year retention requirement corresponds with the statute of limitations for violations and is necessary to preserve potential evidence for investigations. All parties involved in the export, reexport, transshipment or diversion of items subject to the EAR and the U.S. party involved in the export transaction involving a reportable boycott request are required to maintain records of these activities for a period of five years. The frequency depends upon how often each entity is involved in an export transaction or one involving a reportable boycott request.

Affected Public: Business or other for-profit organizations.

Frequency: On Occasion.

Respondent's Obligation: Voluntary.

Legal Authority: Export Control Reform Act 4812(b) and 4814(b)(1)(B).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0694–0096.

ENVIRONMENTAL PROTECTION AGENCY

Coastal Nonpoint Pollution Control Program: Intent to Find that Washington has Satisfied All Conditions of Approval Placed on its Coastal Nonpoint Pollution Control Program

AGENCY: National Oceanic and Atmospheric Administration, U.S. Department of Commerce, and U.S. Environmental Protection Agency.

ACTION: Notice of availability of proposed finding; request for comments.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA) and the U.S. Environmental Protection Agency (EPA) (the Federal agencies) invite public comment on the agencies' proposed finding that Washington has satisfied all conditions the agencies established as part of their 1998 approval of the State's coastal nonpoint pollution control program (coastal nonpoint program). The Coastal Zone Act Reauthorization Amendments (CZARA) directs states and territories with coastal zone management programs previously approved under Section 306 of the Coastal Zone Management Act to develop and implement coastal nonpoint programs, which must be submitted to the Federal agencies for approval. Prior to making such a finding, NOAA and the EPA invite public input on the two Federal agencies' rationale for this proposed finding.

DATES: Individuals or organizations wishing to submit comments on the proposed findings document should do so by August 14, 2020.

ADDRESSES: Comments may be submitted by:

- *Electronic Submission:* Submit all electronic public comments via the Federal eRulemaking Portal. Go to www.regulations.gov/docket?D=NOAA-NOS-2019-0135, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- *Mail:* Submit written comments to Joelle Gore, Chief, Stewardship Division (N/OCM6), Office for Coastal Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland 20910; phone (240) 533–0813; ATTN: Washington Coastal Nonpoint Program.

Instructions: All comments received are a part of the public record and will

generally be posted for public viewing on www.regulations.gov without change. All personally identifiable information (for example, name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the commenter will be publicly accessible. NOAA and EPA will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous). Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The federal agencies will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system).

FOR FURTHER INFORMATION CONTACT:

Copies of the proposed findings document may be found on www.regulations.gov/docket?D=NOAA-NOS-2019-0135 and NOAA's Coastal Nonpoint Pollution Control Program website at <https://coast.noaa.gov/czm/pollutioncontrol/>. Additional background information on the state's program may be obtained upon request from: Allison Castellan, Stewardship Division (N/OCM6), Office for Coastal Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland 20910, phone (240) 533–0799, email: allison.castellan@noaa.gov; or Michelle Wilcox, U.S. EPA Region 10, Washington Operations Office, 300 Desmond Drive, SE, Suite 102, Lacey, WA 98503, phone: (360) 753–9469, email: wilcox.michelle@epa.gov.

SUPPLEMENTARY INFORMATION: Section 6217(a) of the Coastal Zone Act Reauthorization Amendments (CZARA), 16 U.S.C. 1455b(a), requires that each state (or territory) with a coastal zone management program previously approved under section 306 of the Coastal Zone Management Act must prepare and submit to the federal agencies a coastal nonpoint pollution control program for approval. Washington originally submitted its program to the Federal agencies for approval in September 1995. The Federal agencies provided public notice of and invited public comment on their proposal to approve, with conditions, the Washington program (63 FR 27055). The Federal agencies approved the program by letter dated June 30, 1998, subject to the conditions specified in the letter (63 FR 37094). The Federal agencies propose to find, and invite public comment on the proposed findings, that Washington has now fully satisfied all conditions (of the earlier

approval) of its coastal nonpoint program.

The proposed findings document for Washington's program is available at www.regulations.gov/docket?D=NOAA-NOS-2019-0135 and information on the Coastal Nonpoint Program in general is available on the NOAA website at <https://coast.noaa.gov/czm/pollutioncontrol/>.
