Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer at (240) 276-0361.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: National Substance Use and Mental Health Services Survey (N-SUMHSS) (OMB No. 0930-)

Historically SAMHSA collected information on substance use and mental health treatment facilities through two (2) separate data collections: The National Survey of Substance Abuse Treatment Services (N-SSATS; OMB No. 0930-0106) and the National Mental Health Services Survey (N-MHSS; OMB No. 0930-0119). SAMHSA also maintain as part of the N-SSATS data collection approval, an inventory of treatment facility, named the Inventory of Behavioral Health Services (I-BHS) (N-SSATS; OMB No. 0930-0106).

Some of the content and questions in the N-SSATS and N-MHSS data collection surveys are similar and represented an additional burden to approximately 14 percent of facilities that received both surveys. SAMHSA recognizes the need to have data collections that are less burdensome to these facilities that provide these services. To help reduce respondent
