

2027 Applications/FY 2023, FY 2024 and FY 2025 Annual Reports will be provided in the subsequent edition of the Application/Annual Report Guidance.

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Maria G. Button,

Director, Executive Secretariat.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Lists of Designated Primary Medical Care, Mental Health, and Dental Health Professional Shortage Areas

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: This notice informs the public of the availability of the complete lists of all geographic areas, population groups, and facilities designated as primary medical care, mental health, and dental health professional shortage areas (HPSAs) as of May 1, 2020. The lists are available on HRSA's HPSAFind website.

ADDRESSES: Complete lists of HPSAs designated as of May 1, 2020, are available on the website at <https://data.hrsa.gov/topics/health-workforce/shortage-areas>. Frequently updated information on HPSAs is available at <https://data.hrsa.gov/tools/shortage-area>. Information on shortage designations is available at <https://bhw.hrsa.gov/shortage-designation>.

FOR FURTHER INFORMATION CONTACT: For further information on the HPSA designations listed on the website or to request additional designation, withdrawal, or reapplication for designation, please contact Janelle D. McCutchen, DHed, MPH, CHES, Chief, Shortage Designation Branch, Division of Policy and Shortage Designation, Bureau of Health Workforce, HRSA, 5600 Fishers Lane, Room 11W14,

Rockville, Maryland 20857, (301) 443-9156, or sdb@hrsa.gov.

SUPPLEMENTARY INFORMATION:

Background

Section 332 of the Public Health Service (PHS) Act, 42 U.S.C. 254e, provides that the Secretary shall designate HPSAs based on criteria established by regulation. HPSAs are defined in section 332 to include (1) urban and rural geographic areas with shortages of health professionals, (2) population groups with such shortages, and (3) facilities with such shortages. Section 332 further requires that the Secretary of HHS annually publish lists of the designated geographic areas, population groups, and facilities. The lists of HPSAs are to be reviewed at least annually and revised as necessary.

Final regulations (42 CFR part 5) were published in 1980 that include the criteria for designating HPSAs. Criteria were defined for seven health professional types: Primary medical care, dental, psychiatric, vision care, podiatric, pharmacy, and veterinary care. The criteria for correctional facility HPSAs were revised and published on March 2, 1989 (54 FR 8735). The criteria for psychiatric HPSAs were expanded to mental health HPSAs on January 22, 1992 (57 FR 2473). Currently funded PHS Act programs use only the primary medical care, mental health, or dental HPSA designations.

HPSA designation offers access to potential federal assistance. Public or private nonprofit entities are eligible to apply for assignment of National Health Service Corps (NHSC) personnel to provide primary medical care, mental health, or dental health services in or to these HPSAs. NHSC health professionals enter into service agreements to serve in federally designated HPSAs. Entities with clinical training sites located in HPSAs are eligible to receive priority for certain residency training program grants administered by HRSA's Bureau of Health Workforce. Other federal programs also utilize HPSA designations. For example, under authorities administered by the Centers for Medicare and Medicaid Services, certain qualified providers in geographic area HPSAs are eligible for increased levels of Medicare reimbursement.

Content and Format of Lists

The three lists of designated HPSAs are available on the HRSA Data Warehouse HPSA Find website and include a snapshot of all geographic areas, population groups, and facilities that were designated HPSAs as of May

1, 2020. This notice incorporates the most recent annual reviews of designated HPSAs and supersedes the HPSA lists published in the **Federal Register** on June 25, 2019 (**Federal Register**/Vol. 84, No. 122/Monday, June 25, 2019/Notices 29869).

In addition, all Indian Tribes that meet the definition of such Tribes in the Indian Health Care Improvement Act of 1976, 25 U.S.C. 1603(d), are automatically designated as population groups with primary medical care and dental health professional shortages. Further, the Health Care Safety Net Amendments of 2002 provides eligibility for automatic facility HPSA designations for all federally qualified health centers (FQHCs) and rural health clinics that offer services regardless of ability to pay. Specifically, these entities include FQHCs funded under section 330 of the PHS Act, FQHC Look-Alikes, and Tribal and urban Indian clinics operating under the Indian Self-Determination and Education Act of 1975 (25 U.S.C. 450) or the Indian Health Care Improvement Act. Many, but not all, of these entities are included on this listing. Absence from this list does not exclude them from HPSA designation; facilities eligible for automatic designation are included in the database when they are identified.

Each list of designated HPSAs is arranged by state. Within each state, the list is presented by county. If only a portion (or portions) of a county is (are) designated, a county is part of a larger designated service area, or a population group residing in a county or a facility located in the county has been designated, the name of the service area, population group, or facility involved is listed under the county name. A county that has a whole county geographic or population group HPSA is indicated by the phrase "County" following the county name.

Development of the Designation and Withdrawal Lists

Requests for designation or withdrawal of a particular geographic area, population group, or facility as a HPSA are received continuously by HRSA. Under a Cooperative Agreement between HRSA and the 54 state and territorial Primary Care Offices (PCOs), PCOs conduct needs assessments and submit applications to HRSA to designate areas as HPSAs. HRSA refers requests that come from other sources to PCOs for review. In addition, interested parties, including Governors, State Primary Care Associations, and state professional associations, are notified of requests so that they may submit their comments and recommendations.

HRSA reviews each recommendation for possible addition, continuation, revision, or withdrawal. Following review, HRSA notifies the appropriate agency, individuals, and interested organizations of each designation of a HPSA, rejection of recommendation for HPSA designation, revision of a HPSA designation, and/or advance notice of pending withdrawals from the HPSA list. Designations (or revisions of designations) are effective as of the date on the notification from HRSA and are updated daily on the HPSA Find website. The effective date of a withdrawal will be the next publication of a notice regarding the list in the **Federal Register**.

Thomas J. Engels,
Administrator.

BILLING CODE 4165-15-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Submission to OMB for Review and Approval; Public Comment Request; Application and Other Forms Used by the National Health Service Corps (NHSC) Scholarship Program (SP), the NHSC Students to Service Loan Repayment Program (S2S LRP), and the Native Hawaiian Health Scholarship Program (NHHSP), OMB No. 0915-0146—Revision

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services.

ACTION: Notice.

SUMMARY: In compliance with of the Paperwork Reduction Act of 1995, HRSA has submitted an Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and approval. Comments submitted during the first public review of this ICR will be provided to OMB. OMB will accept further comments from the public during the review and approval period. OMB may act on HRSA's ICR only after the 30 day comment period for this notice has closed.

DATES: Comments on this ICR should be received no later than July 15, 2020.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/

PRAMain. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: To request a copy of the clearance requests submitted to OMB for review, email Lisa Wright-Solomon, the HRSA Information Collection Clearance Officer at paperwork@hrsa.gov or call (301) 443-1984.

SUPPLEMENTARY INFORMATION:

Information Collection Request Title: Application and Other Forms Used by the National Health Service Corps (NHSC) Scholarship Program (SP), the NHSC Students to Service Loan Repayment Program (S2S LRP), and the Native Hawaiian Health Scholarship Program (NHHSP).

OMB No. 0915-0146—Revision

Abstract: Administered by HRSA's Bureau of Health Workforce (BHW), the NHSC SP, NHSC S2S LRP, and the NHHSP provide scholarships or loan repayment to qualified students who are pursuing primary care health professions education and training. In return, students agree to provide primary health care services in underserved communities located in federally designated Health Professional Shortage Areas once they are fully trained and licensed health professionals. Awards are made to applicants who demonstrate the greatest potential for successful completion of their education and training as well as commitment to provide primary health care services to communities of greatest need. The information from program applications, forms, and supporting documentation is used to select the best qualified candidates for these competitive awards, and to monitor program participants' enrollment in school, postgraduate training, and compliance with program requirements.

Although some program forms vary from program to program (see program-specific burden charts below), required forms generally include: A program application, academic and non-academic letters of recommendation, the authorization to release information, and the acceptance/verification of good standing report. Additional forms for the NHSC SP include the data collection worksheet, which is completed by the educational institutions of program participants; the post-graduate training verification form (applicable for NHSC S2S LRP participants), which is completed by program participants and their residency director; and the enrollment verification form, which is

completed by program participants and the educational institution for each academic term. The NHHSP program will add 3 new forms including the scholar enrollment verification, change in program curriculum and graduation documentation forms. These forms are completed by the grantee on behalf of the participant and the educational institution to verify the participant's enrollment status for each academic term, to provide notice of any change in the participant's program curriculum and to verify that NHHSP has met its financial obligation to pay tuition and related fees or to hold additional funds to cover any tuition balance or fees on the participant's student account.

Upon review of the 60-day notice, it was determined that The “Post Graduate Training Form” was accidentally included as a duplicate entry since it is already captured in the “NHSC awardees/schools/post graduate training programs/sites” section, which is the proper program for which it is used. Therefore, it was removed from the NHSC Students to Service Loan Repayment Program Application” section of the Estimated Burden Table.

A 60-day notice published in the **Federal Register** on March 9, 2020, vol. 85, No. 46; pp. 13662–13664. There was one public comment.

Need and Proposed Use of the Information: The NHSC SP, S2S LRP, and NHHSP applications, forms, and supporting documentation are used to collect necessary information from applicants that enable HRSA to make selection determinations for the competitive awards and monitor compliance with program requirements.

Likely Respondents: Qualified students who are pursuing education and training in primary care health professions and are interested in working in health professional shortage areas.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.
