SUPPLEMENTARY INFORMATION: On March 18, 2020 (85 FR 15347), the NRC published a direct final rule amending part 34 of title 10 of the *Code of Federal Regulations* (10 CFR), "Licenses for Industrial Radiography and Radiation Safety Requirements for Industrial Radiographic Operations"; 10 CFR part 36, "Licenses and Radiation Safety Requirements for Irradiators"; and 10 CFR part 39, "Licenses and Radiation Safety Requirements for Well Logging," to authorize the use of modern personnel dosimeters. The amendments align personnel dosimetry requirements in these areas with the requirements for all other NRC licensees.

The NRC also issued supplemental guidance (ADAMS package Accession No. ML19360A184) in conjunction with the direct final rule. The existing guidance for 10 CFR parts 34, 36, and 39 is provided in NUREG-1556, "Consolidated Guidance About Materials Licenses," in the volumes for industrial radiography (Volume 2), irradiators (Volume 6), and well logging (Volume 14). The supplemental guidance documents are in a markup format to these NUREG-1556 volumes and reflect the provisions in the direct

final rule. The NRC intends to incorporate this supplemental guidance into the next comprehensive revision of NUREG-1556. Beginning on June 16, 2020, licensees may use the supplemental guidance to comply with the provisions in the direct final rule.

In the direct final rule, the NRC stated that if no significant adverse comments were received, the direct final rule would become effective on June 16, 2020. As described more fully in the direct final rule, a significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change.

The NRC received one comment from the public, which agreed with the proposed changes to the regulations. Because no significant adverse comments were received, the direct final rule will become effective as scheduled.

Dated on May 26, 2020.

SUPPLEMENTARY INFORMATION: On April 3, 2020 (85 FR 18857), the NRC published a direct final rule amending its regulations in part 72 of title 10 of the *Code of Federal Regulations* by revising the TN Americas LLC NUHOMS® EOS Dry Spent Fuel Storage System listing within the “List of approved spent fuel storage casks” to include Amendment No. 1 to Certificate of Compliance No. 1042. Amendment No. 1 makes the following changes: Adds a new basket type (Type 4) to allow for the loading of intact, damaged, or failed fuel; adds another new basket type (Type 5); accepts fuel assemblies with a minimum two-year cooling time, in selected locations within the basket; and adds the NUHOMS® MATRIX design as an alternative to the EOS horizontal storage module design for the storage of spent fuel. In the direct final rule published on April 3, 2020, the NRC stated that if no significant adverse comments were received, the direct final rule would become effective on June 17, 2020. The NRC received and docketed two comments on the companion proposed rule (85 FR 18876; April 3, 2020). Electronic copies of these comments can be obtained from the Federal Rulemaking website <https://www.regulations.gov> under Docket ID NRC–2019–0224, and are also available in ADAMS under Accession Nos. ML20118C707 and ML20126G364.

The NRC evaluated the comments against the criteria described in the direct final rule and determined that they were not significant and adverse. Specifically, the comments were outside the scope of this rulemaking, did not oppose the rule, or did not propose a change to the rule, such that the rule would be ineffective or unacceptable

without incorporation of the change. Therefore, the direct final rule will become effective as scheduled.

Business Loan Program Temporary Changes; Paycheck Protection Program—Revisions to First Interim Final Rule

AGENCY: U.S. Small Business Administration.

ACTION: Interim final rule.

SUMMARY: On April 2, 2020, the U.S. Small Business Administration (SBA) posted on its website an interim final rule relating to the implementation of sections 1102 and 1106 of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act or the Act) (published in the **Federal Register** on April 15, 2020). Section 1102 of the Act temporarily adds a new product, titled the “Paycheck Protection Program,” to the U.S. Small Business Administration’s (SBA’s) 7(a) Loan Program. Subsequently, SBA issued a number of interim final rules implementing the Paycheck Protection Program. On June 5, 2020, the Paycheck Protection Program Flexibility Act of 2020 (Flexibility Act) was signed into law, amending the CARES Act. This interim final rule revises SBA’s interim final rule published in the **Federal Register** on April 15, 2020, by changing key provisions, such as the loan maturity, deferral of loan payments, and forgiveness provisions, to conform to the Flexibility Act. SBA also is making conforming amendments to the use of PPP loan proceeds for consistency with amendments made in the Flexibility Act. Several of these amendments are retroactive to the date of enactment of the CARES Act, as required by section 3(d) of the Flexibility Act.
