#### Collections 2 and 3

The following two information collections relate to requests for documents or information from former military personnel and medical records, military personnel and family medical records, or personnel and medical records of former Federal civilian employees. Both of these information collections are prescribed by 36 CFR 1228.164. In accordance with rules issued by the Office of Personnel Management, NARA's National Personnel Records Center (NPRC) administers Official Personnel Folders (OPF) and Employee Medical Folders (EMF) of former Federal civilian employees. In addition, in accordance with rules issued by the Department of Defense and the Department of Transportation (U.S. Coast Guard), NPRC also administers military personnel and medical records of veterans after discharge, retirement, and death, as well as the medical records of current members of the Armed Forces and dependents of Armed Forces personnel. *Estimated total annual burden hours:* 6,650 hours.

*Abstract:* A major fire at the NPRC on July 12, 1973, destroyed numerous military records. If individuals' requests involve records or information from records that may have been lost in the fire, we may ask requestors to complete NA Form 13075, Questionnaire about Military Service, or NA Form 13055, Request for Information Needed to Reconstruct Medical Data, so that NPRC staff can search alternative sources to reconstruct the requested information. Requesters who ask for medical records

of dependents of service personnel and hospitalization records of military personnel must complete NA Form 13042, Request for Information Needed to Locate Medical Records, so that NPRC staff can locate the desired records. Certain types of information contained in military personnel and medical records are restricted from disclosure unless the veteran provides a more specific release authorization than is normally required. Veterans must complete NA Form 13036, Authorization for Release of Military Medical Patient Records, to authorize release to a third party of a restricted type of information found in the desired record. For those who have already made a request, and want to check the status, they can use NA Form 13177, Check the Status of a Clinical & Medical Treatment Records Request.

### SUPPLEMENTARY INFORMATION:

#### I. Discussion

On March 11, 2020, Oklo filed with the NRC pursuant to Section 103 of the Atomic Energy Act and part 52 of title 10 of the *Code of Federal Regulations* (10 CFR), “Licenses, Certifications, and Approvals for Nuclear Power Plants,” an application for a combined license for one micro-reactor at the Idaho National Laboratory located in Idaho. The reactor is to be identified as the Aurora.

A notice of receipt and availability of this application was previously published in the **Federal Register** on April 3, 2020 (85 FR 19032).

The NRC staff has determined that Oklo has submitted information in accordance with 10 CFR part 2, “Agency Rules of Practice and Procedure,” and 10 CFR part 52 that is acceptable for docketing. The Docket Number established for this application is 52–049.

The NRC staff will perform a detailed technical review of the application. Docketing of the application does not preclude the NRC from requesting additional information from the applicant as the review proceeds, nor does it predict whether the Commission will grant or deny the application. The Commission will conduct a hearing in accordance with subpart L, “Informal Hearing Procedures for NRC Adjudications,” of 10 CFR part 2 and will receive a report on the COL application from the Advisory Committee on Reactors Safeguards in accordance with 10 CFR 52.87, “Referral to the Advisory Committee on Reactors Safeguards (ACRS).” If the Commission finds that the COL application meets the applicable standards of the Atomic Energy Act and the Commission’s regulations, and that required notifications to other agencies and bodies have been made, the Commission will issue a COL, in the form and containing conditions and limitations that the Commission finds appropriate and necessary.

Finally, the Commission will announce in a future **Federal Register** notice of hearing and opportunity to petition for leave to intervene as required by 10 CFR 52.85.

Dated: June 10, 2020.

For the Nuclear Regulatory Commission.
