Wireless Telecommunications Bureau Announces Relocation Payment Clearinghouse Request for Proposal, Selection Criteria, and Application Deadlines in 3.7–4.2 GHz Band Transition

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Federal Communications Commission (Commission) announces that it has received a Request for Proposal, which contains the selection criteria and filing instructions for proposals for the position of Relocation Payment Clearinghouse (Clearinghouse) in the 3.7–4.2 GHz band (C-band) transition.

DATES: Entities must file proposals electronically with the search committee, according to the filing instructions contained in the Request for Proposal, by June 29, 2020.

ADDRESSES: Federal Communications Commission, 445 12th Street SW, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Susan Mort of the Wireless Telecommunications Bureau, at (202) 418–2429 or Susan.Mort@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Public Notice* in GN Docket No. 18–122, DA 20–599 released June 8, 2020. The full text of the *Public Notice* is available for inspection and copying during normal business hours in the FCC Reference Center, 445 12th Street SW, Room CY–A257, Washington, DC 20554, or by downloading the text from the Commission's website at <https://ecfsapi.fcc.gov/file/06082630229367/>

[DA-20-599A1.pdf](https://ecfsapi.fcc.gov/file/06082630229367/DA-20-599A1.pdf) and <https://ecfsapi.fcc.gov/file/06082630229367/DA-20-599A2.pdf>. Alternative formats are available for people with disabilities (Braille, large print, electronic files, audio format), by sending an email to FCC504@fcc.gov or calling the Consumer and Governmental Affairs Bureau at (202) 418–0530 (voice), (202) 418–0432 (TTY).

Synopsis

With this Public Notice, the Wireless Telecommunications Bureau (the Bureau) announces that it has received a Request for Proposal, which contains the selection criteria and filing instructions for proposals for the position of Clearinghouse in the C-band transition. In the *3.7 GHz Band Report and Order*, the Commission adopted rules to make 280 megahertz of mid-band spectrum available for flexible use, plus a 20 megahertz guard band, throughout the contiguous United States by transitioning existing services out of the lower portion of the band and into the upper 200 megahertz of the C-band. The *3.7 GHz Band Report and Order* provided for the creation of a neutral, independent Clearinghouse to oversee the cost-related aspects of the transition, including collecting relocation payments from new 3.7 GHz Service licensees and disbursing those payments to incumbents. In the *3.7 GHz Band Report and Order*, the Commission invited a committee of stakeholders in the C-band to establish detailed selection criteria and to select the Clearinghouse. The *3.7 GHz Band Report and Order* directed the Bureau to issue a Public Notice that: (1) Notified the public that the search committee had published criteria for the selection of the Clearinghouse; (2) outlined the submission requirements; and (3) provided the closing dates for the selection of the Clearinghouse. The search committee submitted the Request for Proposal to the Commission on June 1, 2020.

The search committee's Request for Proposal, attached to this Public Notice, details the selection criteria and instructions for filing proposals for the Clearinghouse position. Entities must file proposals electronically with the search committee, according to the filing instructions contained in the Request for Proposal, by June 29, 2020.

People with Disabilities: To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an email to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202–418–0530 (voice, 202–418–0432 (tty)).

Federal Communications Commission.

Amy Brett,

Associate Division Chief, Competition and Infrastructure Policy Division, Wireless Telecommunications Bureau.

FEDERAL COMMUNICATIONS COMMISSION

[GN Docket No. 19–329; FRS 16867]

Federal Advisory Committee Act; Task Force for Reviewing the Connectivity and Technology Needs of Precision Agriculture in the United States

AGENCY: Federal Communications Commission.

ACTION: Notice of public meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, this notice advises interested persons that the Federal Communications Commission's Task Force for Reviewing the Connectivity and Technology Needs of Precision Agriculture in the United States (Task Force) will hold its third meeting via live internet link.

DATES: July 22, 2020. The meeting will come to order at 9:30 a.m.

ADDRESSES: The meeting will be held via conference call and available to the public via live feed from the FCC's web page at www.fcc.gov/live.

FOR FURTHER INFORMATION CONTACT:

Jesse Jachman, Designated Federal Officer, Federal Communications Commission, Wireline Competition Bureau, (202) 418–2668, or email: Jesse.Jachman@fcc.gov; Erin Boone, Deputy Designated Federal Officer, Federal Communications Commission, Wireless Telecommunications Bureau, (202) 418–0736, or email: Erin.Boone@fcc.gov; or Celia Lewis, Deputy Designated Federal Officer, Federal Communications Commission, Wireline Competition Bureau, (202) 418–7456, or email Celia.Lewis@fcc.gov.

SUPPLEMENTARY INFORMATION: The meeting will be held on July 22, 2020, at 9:30 a.m. EDT and may be viewed live, by the public, at <http://www.fcc.gov/live>. Any questions that arise during the meeting should be sent to PrecisionAgTF@fcc.gov and will be answered at a later date. Members of the public may submit comments to the Task Force in the FCC's Electronic Comment Filing System, ECFS, at www.fcc.gov/ecfs. Comments to the Task Force should be filed in GN Docket No. 19–329.

Open captioning will be provided for this event. Other reasonable

accommodations for people with disabilities are available upon request. Requests for such accommodations should be submitted via email to fcc504@fcc.gov or by calling the Consumer & Governmental Affairs Bureau at (202) 418-0530 (voice), (202) 418-0432 (tty). Such requests should include a detailed description of the accommodation needed. In addition, please include a way the FCC can contact you if it needs more information. Please allow at least five days' advance notice; last-minute requests will be accepted but may be impossible to fill.

Proposed Agenda: At this meeting, the Working Group leadership will update to the Task Force on their progress. This agenda may be modified at the discretion of the Task Force Chair and the Designated Federal Officer.

Federal Communications Commission.

Cecilia Sigmund,

Federal Register Liaison Officer, Office of the Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[PS Docket Nos. 15-80, 13-75, 11-60; DA 20-453; FRS 16750]

911 Reliability

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Federal Communication Commission's (FCC or Commission) Public Safety and Homeland Security Bureau (Bureau) seeks comment on the implementation of new data fields for covered 911 service providers that it will add to the Network Outage Reporting System (NORS) and 911 Reliability Certification System to improve the Bureau's situational awareness regarding 911 reliability. The effective date for the implementation of these changes will be announced in a future Public Notice.

DATES: Submit comments on or before July 20, 2020.

ADDRESSES: You may submit comments, identified by PS Docket Nos. 15-80, 13-75, 11-60; DA 20-453, by any of the following methods:

- *Federal Communications Commission's website:* <http://fjallfoss.fcc.gov/ecfs2/>. Follow the instructions for submitting comments.
- Filings can be sent by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. See

the **SUPPLEMENTARY INFORMATION** section for more instructions.

- *People with Disabilities:* Contact the FCC to request reasonable accommodations (accessible format documents, sign language interpreters, CART, etc.) by email: FCC504@fcc.gov or phone: 202-418-0530 or TTY: 202-418-0432. For detailed instructions for submitting comments see the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: For general questions, contact Kenneth Mallory, Attorney Advisor, Cybersecurity and Communications Reliability Division, Public Safety and Homeland Security Bureau, at (202) 418-7785 or kenneth.mallory@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the *Modifications to Network Outage Reporting and 911 Reliability Certifications for Covered 911 Service Providers Public Notice*, PS Docket Nos. 15-80, 13-75, 11-60; DA 20-453, released April 27, 2020.

The complete text of the *Modifications to Network Outage Reporting and 911 Reliability Certifications for Covered 911 Service Providers Public Notice* is also available electronically at: <https://www.fcc.gov/document/pshsb-seeks-comment-nors-911-reliability-certification-changes>.

I. Introduction and Background

The Bureau seeks comment on the implementation of new NORS and 911 Reliability Certification System data fields for covered 911 service providers. These new fields will improve the Bureau's ability to assess 911 reliability by aiding the Commission in identifying 911 special facilities (such as public safety answering points (PSAPs)) affected by service outages, determining whether alternative measures to circuit diversity are effective in maintaining network reliability, recognizing year-to-year improvements in 911 reliability, and ensuring compliance with existing network reliability requirements. The Bureau intends to make these modifications pursuant to its delegated authority. Specifically, the Commission has delegated authority to the Bureau to administer its "communications disruption reporting requirements," and "revise the filing system and template used for the submission of such communications disruption reports," 47 CFR 0.392(i), 0.191(g). The Commission has also delegated authority to the Bureau, "consistent with the requirements of the Administrative Procedure Act and relevant portions of the Communications Act," to develop "forms and procedures as may be

required to collect and process [911] certifications, and . . . periodically update those forms and procedures as necessary" and "order appropriate remedial action on a case-by-case basis where 911 reliability certifications indicate such actions are necessary to protect public safety," 79 FR 3123, 3129 (Jan. 17, 2014) (*911 Reliability Report and Order*). While these systems have distinct and independent reporting requirements, the Bureau believes that modifications to NORS will supply more insight into the representations covered 911 service providers make with respect to 911 reliability certifications. Specifically, supplementing NORS outage reports with information available to covered 911 service providers from their most recent 911 reliability certifications can help to confirm the extent to which any alternative measures they use to ensure circuit diversity are effective.

II. Modifications to NORS Reporting Forms

911 Special Facilities Impacted by Outages. Information about which 911 special facilities are affected by outages, and whether 911 special facilities were notified of outages, facilitates the Bureau's efforts to better ascertain and analyze the effect of outages required to be reported under the Commission's part 4 rules, and to enforce those aspects of the rules requiring covered 911 service providers to submit notifications to the Bureau regarding outages that potentially affect 911 special facilities. The part 4 rules require that "all pertinent information on the outage, including any information that was not contained in, or that has changed from that provided in, the Initial report." In the Bureau's experience, it has often been required to follow up with covered 911 service providers to determine whether 911 special facilities were affected and whether the relevant PSAPs were appropriately notified. We believe a more efficient approach would be to receive this information in the reports from covered 911 service providers at the outset. In these regards, the Bureau proposes to modify the specificity of the information requested of covered 911 service providers on NORS notification, initial and final reports submission forms. These forms will be revised to include a checkbox that will enable filers to check "yes" or "no" to indicate whether they are a covered 911 service provider. If the filer indicates that it is a covered 911 service provider, the filer will be prompted to identify which 911 special facilities are affected by an outage, whether they were notified and, if so, how they were
