Foreign-Trade Zones Board

[B-38-2020]

Foreign-Trade Zone (FTZ) 126—Reno, Nevada; Notification of Proposed Production Activity; Tesla, Inc. (Battery Penthouse Controllers); McCarren and Sparks, Nevada

Tesla, Inc. (Tesla) submitted a notification of proposed production activity to the FTZ Board for its facilities in McCarren and Sparks, Nevada. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on June 10, 2020.

Tesla already has authority to produce lithium-ion batteries, electric motors, and stationary energy storage systems within Subzone 126D. The current request would add a finished product and eleven foreign status materials/components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials/components and specific finished product described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Tesla from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status materials/components noted below and in the existing scope of authority, Tesla would be able to choose the duty rate during customs entry procedures that apply to battery penthouse controllers (duty rate 2.7%). Tesla would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include battery penthouse controllers, plastic carriers, aluminum gaskets, gearbox casings, power converters, radial bearings, resolver sensors, rotor rings, unsaturated polyester imide resin, plastic vents, and voltage measurement boards (duty rate ranges from duty-free to 6.5%). The request indicates that certain materials/components are subject to special duties under Section 232 of the Trade
