BILLING CODE 4333-15-P

DEPARTMENT OF THE INTERIOR**Bureau of Land Management**

[LLCOF07000.L14920000.ER0000.20X]

Notice of Realty Action: Competitive Issuance of a Communications Use Lease in Hinsdale County, CO

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of realty action.

SUMMARY: The Bureau of Land Management (BLM) is initiating a competitive bid process for granting a communications-use lease on public land in Hinsdale County, Colorado. The successful bidder will be granted a communications-use lease to construct a new communications facility at the Hill 71 communications site.

DATES: Bid proposals must be received no later than July 22, 2020.

ADDRESSES: Mail bid proposals to Field Manager, BLM Gunnison Field Office, 210 W Spencer Ave, Suite A, Gunnison, CO 81230.

FOR FURTHER INFORMATION CONTACT: Marnie Medina, Realty Specialist, Gunnison Field Office, by telephone (970) 642-4954 or by email at mmedina@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact Ms. Medina during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The BLM Gunnison Field Office determined there is a competitive interest in providing an additional communications-use facility at the Hill 71 communication site in Hinsdale County, Colorado. The competitive bid process described in this Notice will be processed pursuant to Title V of the Federal Land Policy and Management Act of 1976 and BLM

right-of-way regulations at 43 CFR part 2800.

Existing communication facilities at the Hill 71 communication site include Hinsdale County-owned buildings and a BLM-owned tower. The existing facilities are at capacity and unable to accommodate additional uses. A second facility (building, tower, back-up generator, etc.) would provide for unmet current and future demand at the site. The BLM received three applications and one expression of interest for developing a communications-use facility at the Hill 71 communication site. The BLM has not formally accepted any of the three applications, thereby making this site suitable for competitive leasing.

The BLM has determined that competition exists for constructing a second communications facility at Hill 71, in accordance with 43 CFR 2804.23. The Hill 71 site is located in an area with sensitive visual resources and the BLM has determined that only one additional facility is appropriate.

The Hill 71 communication site is located approximately 7 miles southeast of Lake City, Colorado, and legally described as:

New Mexico Principal Meridian, Colorado
T. 43 N., R. 4 W.,
sec. 35, lots 6 and 7.

Granting a communications-use lease at the Hill 71 communication site conforms with the BLM Gunnison Resource Area Approved Resource Management Plan, approved in February 1993.

In conformance with the National Environmental Policy Act, an environmental analysis will be conducted once a successful bidder has been identified.

Bid Process: A Prospectus for An Opportunity to Construct, Operate, and Maintain a Commercial Communications Facility at the Hill 71 Communications Site that describes the details of the opportunity, the bid proposal requirements, and instructions for submitting a bid proposal for consideration is available at: <https://go.usa.gov/xdUKK>. Bid proposals will be evaluated according to the Evaluation Criteria described in the Prospectus.

BILLING CODE 4310-JB-P

INTERNATIONAL BOUNDARY AND WATER COMMISSION; UNITED STATES AND MEXICO**United States Section: Notice of Availability of the Draft Environmental Assessment and Finding of No Significant Impact Arroyo Colorado at Harlingen Flood Flow Improvement Project, Cameron County Texas**

AGENCY: United States Section, International Boundary and Water Commission, United States and Mexico (USIBWC).

ACTION: Notice.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Final Regulations, and the USIBWC Operational Procedures for Implementing Section 102 of NEPA, published in the **Federal Register** September 2, 1981, the USIBWC hereby gives notice that the *Draft Environmental Assessment and Finding of No Significant Impact Arroyo Colorado at Harlingen Flood Flow Improvement Project, Cameron County Texas* is available. An Environmental Impact Statement will not be prepared unless additional information which may affect this decision is brought to our attention within 30 days from the date of this Notice.

FOR FURTHER INFORMATION CONTACT: Kelly Blough, Environmental Protection Specialist, USIBWC, 4191 N Mesa, El Paso, Texas 79902. Telephone: (915) 832-4734, Fax: (915) 493-2428, email: Kelly.Blough@ibwc.gov.

Availability: The electronic version of the Draft EA is available on the USIBWC web page: https://www.ibwc.gov/EMD/EIS_EA_Public_Comment.html.

SUPPLEMENTARY INFORMATION: The USIBWC prepared the EA to evaluate the environmental effects of several options that would restore the full flood conveyance capabilities to a 6.3-mile reach of Arroyo Colorado between U.S. Highway 77 Business (US 77 Business) and Cemetery Road in Harlingen, Cameron County Texas. The Preferred Alternative would dredge sediment from the channel throughout the reach and expand existing vegetation management operations. Vegetation management currently occurs along a 3.7-mile reach of Arroyo Colorado between US 77 Business and Farm-to-Market Road 509 (FM 509). The Preferred Alternative would expand vegetation management operations to include the 2.6-mile reach from FM 509 to Cemetery Road. These actions are intended to restore Arroyo Colorado's

design flood conveyance capacity of 21,000 cubic feet per second.

The draft EA evaluates potential environmental impacts of the No Action Alternative and the Preferred Alternative. Two additional alternatives were considered and evaluated but were removed from consideration because they were either not effective or not feasible. Potential impacts on natural, cultural, and other resources were evaluated. A Finding of No Significant Impact has been prepared for the Preferred Alternative based on a review of the facts and analyses contained in the EA.

An open-house public scoping meeting was held for the proposed project on December 12, 2019, at the Harlingen Community Center located at 201 E. Madison Avenue, Harlingen, Texas 78552. Notifications of the meeting and instructions to access materials and provide comment electronically were sent by mail to approximately 200 recipients. Recipients included adjacent landowners, regional and local representatives of federal and state resource agencies, interested Native American tribes, and local elected officials. Additionally, notifications were posted in newspapers of local circulation and on City of Harlingen and USBWC media outlets during the first week of December.

Thirty-five attendees signed in and 13 comments were received within the comment period. Approximately seven commenters stated that they were in general support of the Expanded Vegetation & Sediment Removal Alternative (*i.e.*, the Preferred Alternative). One commenter expressed support for a combination of the three actions that would include Off-Channel Storage, Expanded Vegetation Removal, and Expanded Vegetation & Sediment Removal. The remaining five comments proposed additional actions outside of the scope of this project that may be considered in the future.

Dated: June 10, 2020.

Jennifer Pena,

Chief Legal Counsel, International Boundary and Water Commission, United States Section.
