

Chapter 50, replaces existing clause B–29, Explosives, with new clause B–29, Storage and Use of Explosives and Magazine Security; clarifies the purpose of the new clause; specifies all types of special use authorizations that may authorize storage and use of explosives and therefore, may require inclusion of clause B–29; and describes implementation of the new clause.

The Forest Service has made a finding of good cause that an exigency exists to support issuance of the interim directives, which become effective upon publication for public comment. The interim directives make revisions regarding storage and use of explosives under special use authorizations, such as at Winter Sports Resorts and highway avalanche mitigation programs conducted by State transportation departments that enhance public safety on National Forest System lands and need to go into effect upon publication for public comment.

After the public comment period closes, the Forest Service will consider timely comments that are within the scope of the interim directives in the development of the final directives. A notice of the final directives, including a response to timely comments, will be posted on the Forest Service's web page at <https://www.fs.fed.us/about-agency/regulations-policies>.

Tina Johna Terrell,

Associate Deputy Chief, National Forest System.
