**SUPPLEMENTARY INFORMATION:** In compliance with the Paperwork

Reduction Act, ACL has submitted the following proposed information collection to OMB for review and clearance.

The SHIP-SMP Survey of Group Outreach and Education Events is a survey of individuals who attend outreach and education events provided by the State Health Insurance Assistance Program (SHIP) or Senior Medicare Patrol (SMP). These events help Medicare beneficiaries understand their Medicare benefits and options. These events also increase the ability of beneficiaries to identify fraud, waste, and abuse within health care programs generally, and Medicare/Medicaid specifically.

The State Health Insurance Assistance Program (SHIP) was created under the Omnibus Budget Reconciliation Act of 1990. This section of the law authorized the Department of Health and Human Services (HHS) to make grants to states to establish and maintain health insurance advisory service programs for Medicare beneficiaries. Grant funds were made available to support information, counseling, and assistance activities related to Medicare, Medicaid, and other health insurance options.

The Senior Medicare Patrol (SMP) program was authorized in 1997 under Titles II and IV of the Older Americans Act, the Omnibus Consolidated Appropriation Act of 1997 and the Health Insurance Portability and Accountability Act of 1996. The SMP mission is to empower and assist Medicare beneficiaries, their families, and caregivers, to prevent, detect, and report suspected healthcare fraud, errors, and abuse through outreach, counseling, and education.

SMP grantees support ACL's goals of promoting increased choice and greater independence among older adults and individuals with disabilities. SMP activities enhance the financial, emotional, physical, and mental well-being of older adults, thereby increasing their capacity to maintain security in retirement and make better financial and healthcare choices.

SHIP-SMP grantees provide group outreach and education through presentation events, and this collection will survey the attendees of those events. The SHIP-SMP Survey of Group Outreach and Education Events will focus on group outreach and education events and the individuals who attend them, to determine if the target audience is satisfied with the information they are

receiving. This is a renewal of the existing Senior Medicare Program National Beneficiary Survey, which received clearance on August 28, 2017, with ICR Reference Number 201702-0985-003 and OMB Control Number 0985-0056. That survey was conducted over a three-year period beginning on October 1, 2017, and will conclude on March 30, 2020.

To date, the Senior Medicare Program National Beneficiary Survey has generated over 5000 responses, all of which were submitted anonymously and voluntarily.

ACL requests renewal of the survey to continue the collection performed in Fiscal Years 2018, 2019, and 2020. Reports developed for FY18 and FY19 participants have provided an overall measure of presentation attendee satisfaction and have provided insight into the relationship between presentation inputs (information provided, access to presentations) and overall satisfaction. The renewed survey will include both SHIP and SMP presentations and will survey every participating state and territory at least once each year.

To generate a sample with a 95% confidence level at the national level 400 responses will be required, which is based on over 500,000 group outreach and education event attendees in 2018. ACL will draw a representative sample of event attendees by surveying each of the 54 participating states and territories at least once. An average event surveyed in FY18 or FY19 generated 11 completed surveys, resulting in an estimated minimal collection of 600 responses.

In the first three years of the existing survey states and territories had the opportunity to exceed the minimum requirements, in order to collect a larger overall dataset for their state or territory. This opportunity will continue with the renewed survey. Assuming that an average state or territory collects 100 surveys per year, the maximum burden estimate is 5400 responses per year.

The proposed data collection tools may be found on the ACL website for review at <https://www.acl.gov/about-acl/public-input>.

**ACTION:** Notice

**SUMMARY:** The Administration for Community Living (ACL) is announcing that the proposed collection of information listed above has been submitted to the Office of Management and Budget (OMB) for review and clearance as required under section 506(c)(2)(A) of the Paperwork Reduction Act of 1995. This 30-Day notice collects comments on the information collection requirements related to Proposed new information collection requirements related to Evaluation of participants of an Annual SMP/SHIP National Training Conference hosted by the Office of Healthcare Information and Counseling.

**SUPPLEMENTARY INFORMATION:** In compliance with 44 U.S.C. 3507, ACL has submitted the following proposed collection of information to OMB for review and clearance. The Office of Healthcare Information and Counseling (OHIC) hosts an annual national training conference for the federally funded programs that it administers. The audience for this training conference includes attendees from State Health Insurance Assistance Program (SHIP) and Senior Medicare Patrol (SMP) programs, which are two nationally recognized programs that provide Medicare information and counseling to Medicare beneficiaries and help, fight Medicare fraud through prevention and education. Grantee leadership is required to attend this training annually to ensure they receive critical information and technical assistance needed to help them successfully meet the requirements of their grant awards.

Grantees are encouraged to bring up to three (3) people from each program. Programs operate in each of the 50 states, the District of Columbia, Guam, Puerto Rico, and the US Virgin Islands. The information collected in this survey is necessary to ensure that ACL is meeting the technical assistance needs of the attendees and to capture valuable feedback to be used for future training meetings. By gathering feedback on the quality of the training and content provided, we can ensure attendee satisfaction and gather information for

future planning. ACL administers a contract to develop and provide the training conference evaluation tool for ACL's approval. They also disseminate a tool to all participants following each training conference to evaluate attendee satisfaction. This training conference survey is introduced and explained during the program specific meetings and during the general session on the first day of the training conference. The survey is not mandatory, but is reinforced as a way for ACL to provide useful, engaging sessions that assist the attendees in successfully meeting the requirements of their grant awards. This evaluation tool will gather feedback on the quality of the training and content provided and the experience of the attendees to be used for future planning.

**Comments in Response to the 60-Day Federal Register Notice**

A 60-Day Notice s published in the **Federal Register** on February 7, 2020 Vol. 85 pages 7309-7310. ACL received one public comment during the 60-day public comment period; the public comment related to the current COVID-19 pandemic requesting the 2020 event be held virtually. Though it is essential for this event to be held in-person and to bring together national partners from across the country each year, this year's COVID-19 pandemic has halted all in-person event capability. ACL intends to hold the 2020 conference virtually.
