Background

On April 10, 2020, TSA published a Request for Information: Air Cargo Security Options to Mitigate Costs of Compliance with International Security Requirements. See 85 FR 20234. The RFI requests information from the public, specifically the air cargo industry, relating to compliance with international security standards for the transport of air cargo by commercial aircraft operators. Effective June 30, 2021, international standards require that all international air cargo carried by commercial aircraft operators (passenger and all-cargo) be either screened or be received from another TSA-regulated entity that has applied security controls and/or screened the cargo. TSA is seeking information regarding options to reduce the burden on U.S. and foreign

all-cargo aircraft operators in complying with the international standard, such as security controls implemented throughout the supply chain that provide a level of security commensurate with the screening of cargo before transport. Because TSA does not expect these standards to require changes to current procedures for cargo transported on passenger aircraft, this RFI is focused only on all-cargo operations.

Specific Issues for Discussion

There are several areas in particular in which TSA seeks information and comment from the industry at the public meeting; these specific issues are identified in the RFI. See 85 FR at 20237-20238. These key issues are intended to help focus public comments on subjects that TSA must explore in order to complete its review of potential frameworks. The comments at the meeting need not be limited to these issues.

Participation at the Meeting

The meeting is expected to begin at 10:00 a.m. and end by 12:00 p.m. (EDT). Following an introduction by TSA, members of the public will be invited to ask clarifying questions or present their views.

Individuals may address statements, questions, comments during the virtual meeting's specified "open floor" times, in the order they present themselves to the moderator. To accommodate as many questions as possible, the amount of time allocated to each speaker may be limited by TSA.

Public Meeting Procedures

TSA will use the following procedures to facilitate the meeting:

(1) There will be no admission fee or other charge to attend or to participate in the meeting. The meeting may adjourn early if scheduled speakers complete their statements or questions in less time than is scheduled for the meeting and there are no remaining questions from meeting participants.

(2) An individual, whether speaking in a personal or a representative capacity on behalf of an organization, will be limited to a 5-minute statement and scheduled on a first-come, first-served basis.

(3) Any speaker prevented by time constraints from speaking will be encouraged to submit written remarks to the docket, which will be made part of the record.

(4) For information on services for individuals with disabilities or to request assistance at the meeting, please contact the person listed in the **FOR**

FURTHER INFORMATION CONTACT section above before July 20, 2020.

(5) Representatives of TSA will preside over the meeting.

(6) The meeting will be recorded by a court reporter. TSA will provide a summary of the meeting and list of participants in the docket for this action. Any person who is interested in purchasing a copy of the transcript should contact the court reporter directly.

(7) Statements made by TSA representatives are intended to facilitate discussion of the issues or to clarify issues. Any statement made during the meeting by a TSA representative is not intended to be, and should not be construed as, TSA's official position.

(8) The meeting is designed to invite public views and gather additional information. No individual will be subject to cross-examination by any other participant; however, TSA representatives may ask questions to clarify a statement.
