SUPPLEMENTARY INFORMATION:

I. Background

Purpose of the Committee

MCSAC was established to provide FMCSA with advice and recommendations on motor carrier safety programs and motor carrier safety regulations. MCSAC is composed of up to 25 voting representatives from safety advocacy, safety enforcement, labor, and industry stakeholders of motor carrier safety. The diversity of the Committee ensures the requisite range of views and expertise necessary to discharge its responsibilities. The committee operates as a discretionary committee under the authority of the U.S. Department of Transportation (DOT), established in accordance with the provisions of the Federal Advisory Committee Act (FACA), as amended 5 U.S.C. App. 2.

Meeting Agenda

The MCSAC will take up the following issues:

- Task 20–1 will provide the MCSAC with the opportunity to discuss changes to the package and small goods delivery sector. A number of companies are now using small vehicles (e.g., vehicles with a gross vehicle weight rating less than 10,000 pounds, etc.) to deliver goods and there appears to be a gap in safety oversight of both drivers and vehicles. For this task, members will hear from Agency experts on trends in the Fatality Analysis Reporting System (FARS) and Motor Carrier Management Information System (MCMIS) crash and highway safety data.

- Task 20–2 will focus on the impact of the aging demographic of the commercial motor vehicle driver workforce on the truck and bus industries and whether this trend will exacerbate the driver shortage problem. Stakeholders have expressed concerns about the need to address the driver shortage, including options for allowing younger drivers to enter the industry. How would an aging workforce impact motor carriers' ability to deliver services and goods safely in interstate commerce? For this task, FMCSA will consider data by agency experts on the distribution of age among CMV drivers.

- Additionally, FMCSA will brief the MCSAC members on the impact of the legalization of hemp on the safety oversight of CMV drivers. While FMCSA's safety regulations prohibit drivers' use or transportation of illegal drugs, what actions should be considered to ensure motor carriers, drivers and enforcement officials have appropriate guidance concerning hemp and what happens if drivers test positive for tetrahydrocannabinol.

II. Meeting Participation

While not required, advance registration is encouraged. To indicate that you will attend, please email the person listed in the **FOR FURTHER INFORMATION CONTACT** section by the deadline referenced in the **DATES** section. The meeting will be open to the public for its entirety. The U.S. Department of Transportation is committed to providing equal access to this meeting for all participants. If you need alternative formats or services because of a disability, such as sign language, interpretation, or other ancillary aids, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Oral comments from the public will be heard throughout the meeting, at the discretion of the MCSAC chairman and

designated federal officer. Additionally, to ensure that all participants have had the opportunity to have their comments heard, the agenda will include a public comment period at the end of each day's session. Members of the public may submit written comments to the person listed in the **FOR FURTHER INFORMATION CONTACT** section on the topics to be considered during the meeting by the deadline referenced in **DATES** section. Any member of the public may submit a written statement after the meeting deadline, and it will be presented to the committee.

Larry W. Minor,

Associate Administrator for Policy.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. FRA–2020–0027–N–11]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of information collection; request for comment.

SUMMARY: Under the Paperwork Reduction Act of 1995 (PRA) and its implementing regulations, this notice announces that FRA is forwarding the Information Collection Request (ICR) abstracted below to the Office of Management and Budget (OMB) for review and comment. The ICR describes the information collection and its expected burden. On April 15, 2020, FRA published a notice providing a 60-day period for public comment on the ICR.

DATES: Interested persons are invited to submit comments on or before July 27, 2020.

ADDRESSES: Written comments and recommendations for the proposed ICR should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find the particular ICR by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Ms. Hodan Wells, Information Collection Clearance Officer, Office of Railroad Safety, Regulatory Analysis Division, Federal Railroad Administration, telephone (202) 493–0440, email: Hodan.wells@dot.gov.

SUPPLEMENTARY INFORMATION: The PRA, 44 U.S.C. 3501–3520, and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. See 44 U.S.C. 3506, 3507; 5 CFR 1320.8 through 1320.12. On April 15, 2020, FRA published a 60-day notice in the **Federal Register** soliciting comment on the ICR for which it is now seeking OMB approval. See 85 FR 21064. FRA received no comments in response to this notice.

Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507(b)–(c); 5 CFR 1320.12(d); see also 60 FR 44978, 44983, Aug. 29, 1995. OMB believes the 30-day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect.

Comments are invited on the following ICR regarding: (1) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the information will have practical utility; (2) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways to minimize the burden of information collection activities on the public, including the use of automated collection techniques or other forms of information technology.

The summaries below describe the ICR that FRA will submit for OMB clearance as the PRA requires:

Title: Track Safety Standards.

OMB Control Number: 2130–0010.

Abstract: The information collection associated with 49 CFR part 213 is used by FRA to ensure and enhance rail safety by monitoring complete compliance with all regulatory requirements. Part 213 prescribes minimum safety requirements for railroad track that is part of the general railroad system of transportation. While the requirements prescribed in this part generally apply to specific track
