

National Science Board business, as follows:

DATES: Wednesday, July 1, 2020 at 2–4:30 p.m. EDT.

PLACE: This meeting will be held by videoconference through the National Science Foundation. An audio link will be available for the public. Members of the public must contact the Board Office to request the public audio link by sending an email to nationalsciencebrd@nsf.gov at least 24 hours prior to the teleconference.

STATUS: Open.

MATTERS TO BE CONSIDERED: (1) Chair's opening remarks and welcome of new committee members; (2) discussion of the 2019 Merit Review Digest draft, highlights of the biennial survey, and recent COV reports; (3) discussion of items to include in the Board's Overview; (4) discussion of future CO role regarding Broader Impacts; and (5) risks, including Enterprise Risk Management.

CONTACT PERSON FOR MORE INFORMATION: Point of contact for this meeting is: Ann Bushmiller (abushmil@nsf.gov), 703/292–7000. Request the public audio link by sending an email to nationalsciencebrd@nsf.gov at least 24 hours prior to the teleconference.

Meeting information and updates (time, place, subject matter or status of meeting) may be found at <http://www.nsf.gov/nsb/meetings/notices.jsp#sunshine>. Please refer to the National Science Board website www.nsf.gov/nsb for additional information.

Chris Blair,

Executive Assistant to the National Science Board Office.

BILLING CODE 7555–01–P

NATIONAL SCIENCE FOUNDATION

Sunshine Act Meeting

SUMMARY: The National Science Board's Committee on National Science and Engineering Policy (SEP), pursuant to NSF regulations, the National Science Foundation Act, as amended, and the Government in the Sunshine Act, hereby gives notice of the scheduling of a teleconference for the transaction of National Science Board business, as follows:

DATES: Wednesday, July 1, 2020 at 4–5:30 p.m. EDT.

PLACE: This meeting will be held by videoconference through the National Science Foundation. An audio link will be available for the public. Contact the

Board Office 24 hours before the teleconference to request the public audio link at nationalsciencebrd@nsf.gov.

STATUS: Open.

MATTERS TO BE CONSIDERED: Chair's opening remarks; conduct an orientation of *Science & Engineering Indicators* in preparation for the 2022 cycle.

CONTACT PERSON FOR MORE INFORMATION: Point of contact for this meeting is: Reba Bandyopadhyay (rbandyop@nsf.gov), 703/292–7000. Members of the public must contact the Board Office to request the public audio link by sending an email to nationalsciencebrd@nsf.gov at least 24 hours prior to the teleconference.

Meeting information and updates (time, place, subject matter or status of meeting) may be found at <http://www.nsf.gov/nsb/meetings/notices.jsp#sunshine>. Please refer to the National Science Board website www.nsf.gov/nsb for additional information.

Chris Blair,

Executive Assistant to the National Science Board Office.

BILLING CODE 7555–01–P

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of Permit Applications Received.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act in the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by July 27, 2020. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314.

FOR FURTHER INFORMATION CONTACT: Nature McGinn, ACA Permit Officer, at

the above address, 703–292–8030, or ACAPermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541, 45 CFR 670), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Application Details

Permit Application: 2021–002

1. *Applicant:* Megan Cimino, University of California at Santa Cruz, 1156 High Street, Santa Cruz, CA 95064.

Activity for Which Permit is Requested: Enter Antarctic Specially Protected Areas (ASPAs), Take, Harmful Interference, and Import into the USA. The applicant would conduct research as part of the Palmer Station Long-Term Ecological Research Program (Palmer LTER) relating variability in seabird ecology to changes in the physical and biological environment, especially sea ice, snow conditions and the availability of prey. The research would comprise two complimentary components at summer breeding colonies of seabirds and in their pelagic marine foraging environment. The applicant would continue long term-research efforts to assess how annual environmental variability affects seabird diets, breeding success, growth rates, survival and recruitment, behavior, population trends, foraging success and seasonal dispersal. The applicant would engage in take by capture and release in order to (1) census populations and mark breeding territories; (2) capture, mark, band and/or weigh adults, chicks and eggs; (3) obtain diet samples by stomach lavage, by screening contents of terrestrial sediment traps and/or by collecting regurgitated or defecated prey items; (4) place transmitters on individuals; (5) place instrumented artificial eggs under incubating individuals; (6) obtain tissue samples from adults and chicks (e.g., preen gland oil, blood, feathers, egg yolk, toenails); (7) collect addles/infertile eggs no longer being incubated; (8) use GPS/GIS technologies to update existing breeding habitat maps; and (9) salvage dead specimens in good condition for educational purposes. The applicant would use all/some of the above methods on the following species:

Adelie Penguin, Chinstrap Penguin, Gentoo Penguin, Brown Skua, South Polar Skua, Southern Giant Petrel, Blue-Eyed Shag, Kelp Gull, Snowy Sheathbill. All seabirds involved in this research would be released unharmed. To conduct the research, the applicant would enter the following Antarctic Specially Protected Areas: ASPA 107, Dion Islands; ASPA 113, Litchfield Island; ASPA 115, Lagotellerie Island; ASPA 117, Avian Island; ASPA 139, Biscoe Point; and ASPA 170, Charcot Island.

Location: Palmer Station area, Marguerite Bay and vicinity, Charcot Island, Rosenthal Islands. ASPA 107, Dion Islands; ASPA 113, Litchfield Island; ASPA 115, Lagotellerie Island; ASPA 117, Avian Island; ASPA 139, Biscoe Point; and ASPA 170, Charcot Island.

Dates of Permitted Activities: October 1, 2020–September 30, 2023.

Erika N. Davis,

Program Specialist, Office of Polar Programs.

BILLING CODE 7555–01–P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request; Grantee Reporting Requirements for the Industry-University Cooperative Research Centers (IUCRC) Program

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register**, and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, Reports Clearance

Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314, or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

Copies of the submission may be obtained by calling 703–292–7556.

SUPPLEMENTARY INFORMATION: NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Title of Collection: Grantee Reporting Requirements for the Industry-University Cooperative Research Centers (IUCRC) Program.

OMB Number: 3145–0088.

Type of Request: Revision to and extension of approval of an information collection.

Proposed Project

The NSF’s Division of Industrial Innovation and Partnerships (IIP), within the Engineering Directorate, serves a wide range of grantees across 5 major programs.

The IUCRC program provides a structure for academic researchers to conduct fundamental, pre-competitive research of shared interest to industry and government organizations. These organizations pay membership fees to a consortium so that they can collectively envision and fund research, with at least 90% of Member funds allocated to the direct costs of these shared research projects.

IUCRCs are formed around research areas of strategic interest to U.S. industry. Industry is defined very broadly to include companies (large and small), startups and non-profit organizations. Principal Investigators form a Center around emerging research topics of current research interest, in a pre-competitive space but with clear pathways to applied research and commercial development. Industry partners join at inception, as an existing Center grows, or they inspire the creation of a new Center by recruiting university partners to leverage NSF support. Government agencies participate in IUCRCs as Members or by partnering directly with NSF at the strategic level.

Universities, academic researchers, and students benefit from IUCRC participation through the research funding, the establishment and growth of industry partnerships, and educational and career placement opportunities for students. Industry Members benefit by accessing knowledge, facilities, equipment, and intellectual property in a highly cost-efficient model; leveraging Center research outcomes in their future proprietary projects; interacting in an informal, collaborative way with other private sector and government entities with shared interests; and identifying and recruiting talent. NSF provides funding to support Center administrative costs and a governance framework to manage membership, operations, and evaluation.

Sites within Centers will be required to provide data to NSF and/or its authorized representatives (contractors and/or grantees) annually—after the award expires for their fiscal year of activity—for the life of the Phase I, and if applicable, Phase II, and Phase III award(s).

Information collected are both quantitative and descriptive; they will provide managing Program Directors a means to monitor the operational and financial states of the Centers and ensure that the award is in good standing. These data will also allow NSF to assess the Centers in terms of intellectual, broader, and commercial impacts that are core to our review criteria. Finally, in compliance with the Evidence Act of 2019, information collected will be used in satisfying congressional requests, and supporting the agency’s policymaking and reporting needs.

In addition to the agency’s annual report requirement, Principal Investigators (IUCRC Center and Site Directors) of the awards are required to provide the following information:

Center-Related Information

- Center Data Reporting
 - A comprehensive annual survey collecting information on structure, funding, membership, personnel, and outcomes of the Center during a given reporting period. A Center must submit data for each fiscal year no later than September 30 of each year of operation, as well as after the award expires to describe its final year of activity.

Certification of Membership

- A list of members and membership fees collected by the Center and certified by the respective university’s Sponsored Research Office (SRO), Total
