Food Safety and Inspection Service

Title: Laboratory Assessment Requests.

OMB Control Number: 0583–New.
Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*) and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by ensuring that meat, poultry, and egg products are wholesome, not adulterated, and properly labeled and packaged.

As a public health regulatory agency, FSIS investigates reports of foodborne illness, contamination, and adulteration potentially associated with FSIS-regulated products. During these investigations, non-FSIS laboratories may test FSIS regulated product and share the results with FSIS. FSIS Office of Public Health Science (OPHS) Staff (SciS) will review the results and associated documentation shared by the non-FSIS laboratory to determine whether FSIS will accept the results. If the SciS lead investigator determines the non-FSIS laboratory result is acceptable, FSIS may use the result to inform regulatory action (*e.g.* request a recall or detain product).

Need and Use of the Information: As part of the process to determine if the non-FSIS laboratory result is acceptable, the SciS lead investigator collects information from the non-FSIS laboratory and verifies that the non-FSIS laboratory can provide the appropriate certifications and documentation of accreditation, such as ISO17025, or another third-party accreditation entity covering the methods performed. The SciS lead investigator also verifies that the laboratory has submitted all the necessary information, including evidence of chain of custody, the appropriate laboratory reports with sample identification, final results, and authorization by the responsible official for affirming results. The laboratory may use FSIS Form 8000–17, *Evidence Receipt and Chain of Custody*, to submit information to FSIS. Finally, the SciS investigator collects and verifies

laboratory methods and quality assurance records documentation from the accredited, non-FSIS laboratory.

Risk Management Agency

Title: Subpart U—Ineligibility for Programs under the Federal Crop Insurance Act.

OMB Control Number: 0563–0085.

Summary of Collection: The Federal Crop Insurance Corporation (FCIC) is a wholly-owned Government corporation created February 16, 1938 (7 U.S.C. 1501). The program was amended previously, but Public Law 96–365, dated September 26, 1980, provided for nationwide expansion of a comprehensive crop insurance program. The Federal Crop Insurance Act, as amended in later years further expanded this role of the crop insurance program to be the principal tool for risk management by producers of agricultural commodities.

Need and Use of the Information: The purpose of collecting the information is to ensure persons that are ineligible for benefits under the Federal crop insurance program are accurately identified as such and do not obtain benefits to which they are not eligible. A person can become ineligible for benefits for three reasons: (1) Debt on unpaid premium or overpaid indemnity (information provided by AIP); (2) Debt on unpaid CAT fee (information provided by AIP); and (3) Debarment/disqualification/suspension, including but not limited to judgement, civil fines, etc. The Federal Crop Insurance Corporation and AIPs use the information collected to determine whether a person seeking to obtain Federal crop insurance coverage are ineligible for such coverage according to the statutory/regulatory mandates identified. Failure to collect the applicable information could result in unearned Federal benefits being issued.

Description of Respondents: Businesses or other for-profits.

Number of Respondents: 14.

Frequency of Responses: On occasions; Annually.

OMB Number: OMB No. 0570–0063.

Expiration Date of Approval: December 31, 2020.

Type of Request: Revision of a currently approved information collection.

Abstract: The Advanced Biofuel Payment Program was authorized under section 9005 of Title IX of the Food, Conservation, and Energy Act of 2008 (2008 Farm Bill). It authorizes the Agency to enter into contracts to make payments to eligible entities to support and ensure an expanding production of advanced biofuels. Entities eligible to receive payments under the Program are producers of advanced biofuels that meet all of the requirements of the Program.

Estimated Number of Respondents: 206 advanced biofuel producers.
