

Federalism, if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves a safety zone lasting less than 2 hours that will prohibit entry within 420 feet of a fireworks display in Lake Charlevoix. It is categorically excluded from further review under paragraph L[60(a)] of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A Record of Environmental Consideration supporting this determination is available in the docket. For instructions on locating the docket, see the **ADDRESSES** section of this preamble.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters.

Protesters are asked to call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and record keeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

- 1. The authority citation for part 165 continues to read as follows:

Authority: 46 U.S.C. 70034, 70051; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.1.

- 2. Add § 165.T09–0370 to read as follows:

§ 165.T09–0370 Fischer Wedding Fireworks Lake Charlevoix, Boyne City, MI.

(a) *Location.* The following area is a safety zone: All navigable water within 420 feet of the fireworks launching location in position 45°16′35.80″ N, 85°06′11.00″ W (NAD 83)

(b) *Definitions.* As used in this section, *designated representative* means a Coast Guard Patrol Commander, including a Coast Guard coxswain, petty officer, or other officer operating a Coast Guard vessel and a Federal, State, and local officer designated by or assisting the Captain of the Port, Sault Sainte Marie (COTP) in the enforcement of the safety zone.

(c) *Regulations.* (1) In accordance with the general regulations in § 165.23, entry into, transiting, or anchoring within the safety zone described in paragraph (a) is prohibited unless authorized by the Captain of the Port, Sault Sainte Marie or his designated representative.

(2) Before a vessel operator may enter or operate within the safety zone, they must obtain permission from the Captain of the Port, Sault Sainte Marie, or his designated representative via VHF Channel 16 or telephone at (906) 635–3233. Vessel operators given permission to enter or operate in the safety zone must comply with all orders given to them by the Captain of the Port, Sault Sainte Marie or his designated representative.

(d) *Enforcement period.* This section will be enforced from 10 p.m. through 11:59 p.m. on July 2, 2020.

Dated: June 24, 2020.

A.E. Florentino,

Commander, U.S. Coast Guard, Acting Captain of the Port Sault Sainte Marie.

BILLING CODE 9110–04–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 1 and 43

[WC Docket No. 11–10 and 19–195, FCC 19–79; FRS 16815]

Establishing the Digital Opportunity Data Collection; Modernizing the FCC Form 477 Data Program

AGENCY: Federal Communications Commission.

ACTION: Final rule; announcement of effective date.

SUMMARY: In this document, the Federal Communications Commission (Commission) announces that the Office of Management and Budget (OMB) has approved, for a period of three years, the information collection requirements associated with the Local Telephone Competition and Broadband Reporting, Report and Order, FCC Form 477. This document is consistent with the Report and Order, which stated that the Commission would publish a document in the **Federal Register** announcing OMB approval and the effective date of the information collection requirements.

DATES: Paragraphs 44 through 51 of the Report and Order, published at 84 FR 43705, August 22, 2019, are effective on June 29, 2020.

FOR FURTHER INFORMATION CONTACT: For additional information, contact Cathy Williams, *Cathy.Williams@fcc.gov*, (202) 418–2918.

SUPPLEMENTARY INFORMATION: This document announces that, on May 28, 2020, OMB approved the information collection requirements contained in the Commission’s Report and Order, FCC 19–79, published at 84 FR 43705, August 22, 2019. The OMB Control Numbers are 3060–0816. The Commission publishes this document as an announcement of the effective date of the information collection requirements.

Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the FCC is notifying the public that it received OMB approval on May 28, 2020, for the information collection requirements contained in the Commission’s rules.

No person shall be subject to any penalty for failing to comply with a

collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number. The OMB Control Numbers are 3060–0816.

The foregoing notice is required by the Paperwork Reduction Act of 1995, Public Law 104–13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060–0816.

OMB Approval Date: May 28, 2020.

OMB Expiration Date: March 31, 2023.

Title: Local Telephone Competition and Broadband Reporting, Report and Order, FCC Form 477 (WC Docket No. 19–195, WC Docket No. 11–10, FCC 19–79).

Form Number: FCC Form 477.

Respondents: Business or other non-profit or for-profit entities; not-for-profit institutions; and state, local, or tribal government.

Number of Respondents: 2,515 respondents, 5,030 responses.

Estimated Time per Response: 348 hours.

Frequency of Response: Semi-annual reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 47 U.S.C. 4(i), 201, 218–220, 251–252, 271, 303(r), 332 and 403 of the Communications Act of 1934, as amended, and 47 U.S.C. 1302.

Total Annual Burden: Approximately 1,750,440 hours (for all respondents).

Total Annual Cost: No cost.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission will no longer treat as confidential service providers' minimum advertised or expected speed data for mobile broadband services. Thus, provider-specific coverage data will be publicly released for all subsequent Form 477 filings. This action is necessary to ensure that consumers can easily use the information that is disclosed to the public, including minimum advertised or expected speed data, because such information is only beneficial if consumers know where service coverage is available.

Needs and Uses: On August 1, 2019, the Commission adopted a Report and Order, FCC 19–79, in WC Docket Nos. 19–195 and 11–10. The Order makes targeted changes to the existing Form 477 data collection to reduce reporting burdens for all filers and incorporate new technologies. The Order adopts the

5G–NR (New Radio) technology standards developed by the 3rd Generation Partnership Project (3GPP) with Release 15 and requires providers to submit 5G deployment data that meet the specifications of Release 15 (or any successor release that may be adopted by the Commission's Bureaus). These changes are necessary because the deployment data collected on Form 477 are no longer sufficient for targeting universal service funds. The actions to improve the Form 477 data collection will also increase the usefulness of the information to the Commission, Congress, the industry, and the public. The Order reduces the burden on broadband providers by removing the requirement that facilities-based providers submit separate coverage maps depicting their broadband network coverage areas for each transmission technology and each frequency band. It also modifies the requirement that mobile broadband providers report coverage information for each technology deployed in their networks by reducing the number of categories from nine to four. The Order also eliminates the requirement that facilities-based providers submit a list of census tracts in which the provider advertises its mobile wireless broadband service and in which the service is available to actual and potential subscribers. Finally, the Order removes the requirement that fixed providers offering business/enterprise/government services to report the maximum downstream and upstream contractual or guaranteed data throughput rate (committed information rate) available in each reported census block. As adopted by the Commission, the Order required mobile providers to submit broadband and voice subscriber data at the census-tract level based on the subscriber's place of primary use for postpaid subscribers and based on the subscriber's telephone number for prepaid and resold subscribers. These rules will not become effective as a result of the Broadband DATA Act (Broadband Deployment Accuracy and Technology Availability Act, Public Law 116–130, 134 Stat. 228 (2020) (codified at 47 U.S.C. 641–646)). The Broadband DATA Act directs the Commission to “continue to collect and publicly report subscription data that the Commission collected through the Form 477 broadband deployment service availability process, as in effect on July 1, 2019.” 47 U.S.C. 642(b)(6)(B), which became law on March 23, 2020.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 200623–0167]

RIN 0648–BJ61

Fisheries of the Northeastern United States; Atlantic Bluefish Fishery; Revised 2020 and Projected 2021 Specifications and Recreational Management Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues revised specifications and recreational management measures for the 2020 Atlantic bluefish fishery and projected specifications for fishing year 2021. This action is necessary to establish allowable harvest levels and other management measures to prevent overfishing, consistent with the most recent scientific information. This rule informs the public of these revised fishery specifications and management measures for the 2020 fishing year.

DATES: Effective June 29, 2020.

ADDRESSES: The Mid-Atlantic Fishery Management Council prepared an environmental assessment (EA) for these specifications that describes the action and other considered alternatives. The EA provides an analysis of the biological, economic, and social impacts of the preferred measures and other considered alternatives; a Regulatory Impact Review; and economic analysis. Copies of these specifications, including the EA, Regulatory Flexibility Act Analyses, and other supporting documents for the action are available upon request from Dr. Christopher M. Moore, Executive Director, Mid-Atlantic Fishery Management Council, Suite 201, 800 N State Street, Dover, DE 19901. These documents are also accessible via the internet at <https://www.mafmc.org/supporting-documents>.
