A list of the issues that parties raised and to which we responded is attached to this notice as an Appendix. Changes Since the Preliminary Results

Results, we have made changes to the weighted-average dumping margin for ARLANXEO Brasil. For detailed information, see the Issues and Decision Memorandum.

Final Results of the Review

As a result of this review, Commerce determines that the following weighted-average dumping margin exists for the period February 24, 2017 through August 31, 2018:

Exporter/producer	Weighted-average margin (percent)
ARLANXEO Brasil S.A.	21.22

Disclosure of Calculations

We intend to disclose the calculations performed for these final results within five days of the date of publication of this notice to parties in this proceeding, in accordance with 19 CFR 351.224(b).

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b)(1), Commerce has determined, and U.S. Customs and Border Protections (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. We will calculate importer-specific assessment rates on the basis of the ratio of the total amount of antidumping duties calculated for each importer's examined sales and the total entered value of the sales in accordance with 19 CFR 351.212(b)(1).

Commerce's "automatic assessment" practice will apply to entries of subject merchandise during the POR produced by companies included in these final results of review for which the reviewed companies did not know that the merchandise they sold to the intermediary (*e.g.*, a reseller, trading company, or exporter) was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.¹⁰

We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this review.

¹⁰ For a full discussion of this practice, see *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003).

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for ARLANXEO Brasil S.A. will be equal to the weighted-average dumping margin established in the final results of this review; (2) for merchandise exported by companies not covered in this review but covered in a prior segment of this proceeding, the cash deposit will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this review or the original investigation, but the producer is, then the cash deposit rate will be the rate established for the most recently completed segment for the producer of the subject merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be 19.61 percent, the all-others rate established in the less-than-fair-value investigation.¹¹ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order (APO)

This notice serves as the only reminder to parties subject to APO of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations

and the terms of an APO is a sanctionable violation.

Notice to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: June 23, 2020.

Certain Oil Country Tubular Goods From the People's Republic of China: Final Results of the Expedited Second Sunset Review of the Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) finds that revocation of the countervailing duty (CVD) order on certain oil country tubular goods (OCTG) from the People's Republic of China (China) would be likely to lead to continuation or recurrence of countervailable subsidies.

DATES: Applicable June 29, 2020.

FOR FURTHER INFORMATION CONTACT: Dusten Hom or Mary Kolberg, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone (202) 482-5075 or (202) 482-1785, respectively.

SUPPLEMENTARY INFORMATION:

Background

On January 20, 2010, Commerce published the countervailing duty order

on OCTG from China.¹ On April 1, 2020, Commerce published the initiation of the second sunset review of this order, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² On April 14, 2020, Commerce received a notice of intent to participate from Maverick Tube Corporation, Tenaris Bay City, Inc., and IPSCO Tubulars Inc. (collectively, Tenaris USA), and on April 16, 2020, Commerce received a notice of intent to participate from United States Steel Corporation (U.S. Steel), Vallourec Star, L.P. and Welded Tube USA, Inc. (collectively, Vallourec USA), and BENTELEER Steel/Tube Manufacturing Corp. (BENTELEER).³ All notices of intent to participate were filed within the deadline specified in 19 CFR 351.218(d)(1)(i). Tenaris USA, U.S. Steel, Vallourec USA, and BENTELEER (collectively, domestic interested parties) claimed interested party status under section 771(9)(C) of the Act as producers of OCTG in the United States.

On May 1, 2020, Commerce received an adequate substantive response from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3).⁴ Commerce did not receive any submissions from any other interested parties. Because Commerce did not receive a substantive response from either the Government of China (GOC) or the respondent interested parties who are producers or exporters of OCTG, we determined that respondent interested parties provided inadequate responses to Commerce's notice of initiation.

On May 22, 2020, Commerce notified the U.S. International Trade Commission that it did not receive an

adequate substantive response from respondent interested parties.⁵ As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(B)-(C), Commerce is conducting an expedited (120-day) sunset review of the *CVD Order*.

Scope of the Order

Imports covered by the order are shipments of certain oil country tubular goods, which are hollow steel products of circular cross-section, including oil well casing and tubing, of iron (other than cast iron) or steel (both carbon and alloy), whether seamless or welded, regardless of end finish (e.g., whether or not plain end, threaded, or threaded and coupled) whether or not conforming to American Petroleum Institute (API) or non-API specifications, whether finished (including limited service OCTG products) or unfinished (including green tubes and limited service OCTG products), whether or not thread protectors are attached. The scope of the order also covers OCTG coupling stock. Excluded from the scope of the order are casing or tubing containing 10.5 percent or more by weight of chromium; drill pipe; unattached couplings; and unattached thread protectors.
