Food Safety and Inspection Service

Title: Modernization of Poultry Slaughter Inspection.

OMB Control Number: 0583-0156.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451 *et seq.*). These statutes mandate that FSIS protect the public by ensuring that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged.

Need and Use of the Information: FSIS requires that all poultry slaughter establishments develop, implement, and maintain, as part of their HACCP plans, or Sanitation SOPs, or other prerequisite programs, written procedures to prevent contamination of carcasses and parts by enteric pathogens, *e.g.*, *Salmonella* and *Campylobacter*, and fecal material throughout the entire slaughter and dressing operation. FSIS requires that these procedures include sampling for microbial organisms at the pre-chill and post-chill points in the process to monitor establishments' process control for enteric pathogens, except for low volume establishments that are required to test only at post-chill. If the information was not collected or collected less frequently it would reduce the effectiveness of the poultry products inspection program.

Description of Respondents: Business or other for-profit.

Number of Respondents: 289.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 191,204.

Ruth Brown,

Departmental Information Collection Clearance Officer.
