Nature and Extent of Confidentiality: No assurance of confidentiality has been given regarding the information. However, respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the FCC's rules.

Needs and Uses: In order to determine which carriers are entitled to universal service support, all rate-of-return regulated (rate-of-return) incumbent local exchange carriers (LECs) must provide the National Exchange Carrier Association (NECA) with the loop cost and loop count data required by section 54.1305 for each of its study areas and, if applicable, for each wire center as that term is defined in 47 CFR part 54. See 47 CFR 54.1305 and 54.5. The loop cost and loop count information is to be filed annually with NECA by July 31st of each year, and may be updated occasionally pursuant to section 54.1306. See 47 CFR 54.1306. Pursuant to section 54.1307, the information filed on July 31st of each year will be used to calculate universal service support for each study area and is filed by NECA with the Commission on October 1 of each year. See 47 CFR 54.1307. An incumbent LEC is defined as a carrier that meets the definition of "incumbent local exchange carrier" in section 51.5 of the Commission's rules. See 47 CFR 51.5.

In March 2016, the Commission adopted the *Rate-of-Return Reform Order*, 81 FR 24282, April 25, 2016, to continue modernizing the universal service support mechanisms for rate-of-return carriers. The *Rate-of-Return Reform Order* replaced the Interstate Common Line Support (ICLS) mechanism with the Connect America Fund—Broadband Loop Support (CAF-BLS) mechanism. While ICLS supported

only lines used to provide traditional voice service (including voice service bundled with broadband service), CAF-BLS also supports consumer broadband-only loops. In March 2016, the Commission adopted the *Rate-of-Return Reform Order* to continue modernizing the universal service support mechanisms for rate-of-return carriers. The *Rate-of-Return Reform Order* replaced the Interstate Common Line Support (ICLS) mechanism with the Connect America Fund—Broadband Loop Support (CAF-BLS) mechanism. While ICLS supported only lines used to provide traditional voice service (including voice service bundled with broadband service), CAF-BLS also supports consumer broadband-only loops. For the purposes of calculating and monitoring CAF-BLS, rate-of-return carriers that receive CAF-BLS must file common line and consumer broadband-only loop counts on FCC Form 507, forecasted common line and consumer broadband-only loop costs and revenues on FCC Form 508, and actual common line and consumer broadband-only loop costs and revenues on FCC Form 509. See 47 CFR 54.903(a).

In December 2018, the Commission adopted the *December 2018 Rate-of-Return Reform Order*, 84 FR 4711, February 19, 2019, to require rate-of-return carriers that receive Alternative Connect American Model (A-CAM) or Alaska Plan support to file line count data on FCC Form 507 as a condition of high-cost support. Historically, all rate-of-return carriers received CAF BLS or, prior to that, ICLS, and were required to file line count data on FCC Form 507 as a condition of that support. In recent years, some rate-of-return carriers have elected to receive A-CAM I, A-CAM II, or Alaska Plan instead, and those carriers were not required to file line count data because the requirement to file applied only to rate-of-return carriers receiving CAF BLS. In order to restore a data set that the Commission relied on to evaluate the effectiveness of its high-cost universal service programs, the Commission revised its rules in that Order to require all rate-of-return carriers to file that data. While carriers receiving CAF-BLS must file the line count data on March 31 for line counts as of the prior December 31, the A-CAM I, A-CAM II, and Alaska Plan carriers will be required to file on July 1 of each year to coincide with other existing requirements in OMB Control No. 3060-0986. *Connect America Fund et al.*, WC Docket No. 10-90 et al., Report and Order, Further Notice of Proposed Rulemaking and Order on Reconsideration, 33 FCC Rcd 11893

(2018) (*2018 Rate-of-Return Reform Order*). See also 47 CFR 54.313(f)(5).

The Commission therefore revises this information collection. We also increased the burdens associated with existing reporting requirements to account for additional carriers that will be subject to those requirements.

Federal Register Liaison Officer.

SUPPLEMENTARY INFORMATION:

Executive Summary

Why we need to publish a rule. Under the Act, if we determine that any species is an endangered or threatened species, we must designate critical habitat to the maximum extent prudent and determinable. We published in the *Federal Register* a final rule to list the elfin-woods warbler as a threatened species on June 22, 2016 (81 FR 40534). On that same day, we also published a proposed rule to designate critical habitat for the elfin-woods warbler (81 FR 40632). Designations of critical habitat can only be completed by issuing a rule.

What this rule does. This rule will finalize the designation of critical habitat for the elfin-woods warbler under the Act. Accordingly, this rule revises part 17 of title 50 of the Code of Federal Regulations at 50 CFR 17.95.

Basis for this rule. Under section 4(a)(3) of the Act, if we determine that any species is an endangered or threatened species we must, to the maximum extent prudent and determinable, designate critical habitat. Section 4(b)(2) of the Act states that the Secretary shall designate critical habitat on the basis of the best available scientific data after taking into consideration the economic impact, national security impact, and any other relevant impact of specifying any particular area as critical habitat. Section 3(5)(A) of the Act defines critical habitat as (i) the specific areas within the geographical area occupied by the species, at the time it is listed, on which are found those physical or biological features (I) essential to the conservation of the species and (II) which may require special management considerations or protections; and (ii) specific areas outside the geographical area occupied by the species at the time it is listed, upon a determination by the Secretary that such areas are essential
