

the quantity was under reported and should have read 9 sets. The value of all 9 sets was captured in the MDE total. The value of the CATMs was included in the sale but not enumerated as MDE in the original notification. The addition of these items as MDE resulted in a net \$350,000 increase in the MDE cost. The total case value for this notification remained \$1.42 billion.

This transmittal reports the inclusion of an additional one hundred ninety-two (192) AGM-114R (NN) Hellfire missiles (MDE). The estimated additional MDE cost is \$30 million, resulting in a revised MDE value of \$754 million. The revised case value is \$1.72 billion.

(iv) *Significance*: The United States is committed to the security of Indonesia, and it is vital to U.S. national interests to assisting Indonesia in developing and maintaining a strong and ready self-defense capability. The Indonesian Army (TNI-AD) expends Hellfire missiles in training as well as during internal and bilateral exercises to ensure mission readiness and enhance interoperability with U.S. armed forces. Most notably, successful employment of Apache Hellfire missiles in Exercise Garuda Shield in August 2019 reinforced Indonesia's confidence in the weapons.

(v) *Justification*: This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a friendly country. The additional missiles will provide a robust stock to cover several years of training and exercises, and it will prepare Indonesia for future maritime security contingencies.

(vi) *Sensitivity of Technology*: The Sensitivity of Technology statement contained in the original notification applies to items reported here.

(vii) *Date Report Delivered to Congress*: May 27, 2020.
