DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Amendment To Consent Decree Under The Clean Water Act

On June 24, 2020, the Department of Justice lodged a proposed Amendment to Consent Decree with the United States District Court for the Southern District of Indiana in the lawsuit entitled *United States and State of Indiana v. City of Jeffersonville*, Civil Action No. 4:09cv125.

The United States and the State of Indiana filed this lawsuit under the Clean Water Act in 2009. The Complaint sought injunctive relief and civil penalties for violations of the regulations that govern discharges of untreated sewer overflows. Concurrent with filing of that Complaint, the parties lodged a Consent Decree resolving the claims in the Complaint. The Court entered the Consent Decree in 2009.

The proposed Amendment to Consent Decree authorizes the City of Jeffersonville to modify its Long Term Control Plan. The modification will allow the City of Jeffersonville to complete infrastructure projects that will enable it to comply with a State-mandated phosphorus limit. The modification also allows the City more flexibility in the counting of overflows and reduces the overall volume of sewage discharged without changing the Consent Decree's compliance deadlines. The Amendment to Consent Decree does not seek civil penalties, and all other terms of the 2009 Consent Decree remain in effect.

The publication of this notice opens a period for public comment on the Amendment to Consent Decree. Comments should be addressed to the Principal Deputy Assistant Attorney General, Environment and Natural Resources Division, Jonathan D. Brightbill and should refer to *United*

States and State of Indiana v. City of Jeffersonville, D.J. Ref. No. 90-5-1-1-08723. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

To submit comments:	Send them to:
By email	pubcomment-ees.enrd@usdoj.gov
By mail	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, D.C. 20044-7611.

During the public comment period, the Amendment to Consent Decree may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>. We will provide a paper copy of the Amendment to Consent Decree upon written request and payment of reproduction costs. Please mail your request and payment to: Consent Decree Library, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

Please enclose a check or money order for \$88.75 (25 cents per page reproduction cost) payable to the United States Treasury. For a paper copy of the Amendment to Consent Decree without the exhibits and signature pages, the cost is \$1.50.

Patricia McKenna,

Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

NATIONAL CREDIT UNION ADMINISTRATION

Strategies for Future Examination and Supervision Utilizing Digital Technology

AGENCY: National Credit Union Administration.

ACTION: Request for information (RFI).

SUMMARY: The National Credit Union Administration (NCUA) is conducting a comprehensive study of alternative procedures to modernize the agency's examination program. The objective of modernizing is to improve efficiency and effectiveness in achieving the NCUA's mandates under the Federal Credit Union Act. The agency seeks to support a predominately offsite examination and supervision model by taking advantage of new and emerging approaches and techniques to utilizing data and technology.

Through modernization, the NCUA intends to:

- Reduce burden on credit unions and increase agency efficiency by reducing onsite examination time;
- Improve offsite supervision capabilities;
- Provide more consistency and standardization for the examination and supervision process;
- Improve communication between examiners, credit unions, and state supervisory authorities; and
- Explore and evaluate technology utilization and appetite for adoption.

The NCUA is using this RFI as a research tool in its modernization efforts. Specifically, this RFI explains the NCUA's objectives and seeks assistance identifying the interrelated considerations and challenges that could arise if the agency moves forward with doing more examination work using technology. The resulting information will support a re-engineering of the concept of regulatory examination and supervision oversight.

Recent events, such as the COVID-19 pandemic, have shown that adopting modern technology helps make credit unions more resilient to economic shocks. In turn, a credit union's resiliency has a positive impact on its member-owners and the economy at large. Further, the current social unrest in the United States has exposed the limited financial options available to many minorities and underserved areas. This modernization effort could reduce the regulatory burden and establish technology options that would make it easier for credit unions to provide services to these underserved communities and populations.

The NCUA seeks public input on its modernization initiative and is eager for feedback from interested stakeholders. The NCUA will use stakeholder responses to:

- Refine a strategy for leveraging technology in the future examination and supervision process;
- Determine how much onsite examination activity would still be required with an examination primarily done offsite; and
- Develop an implementation strategy that reduces burden while maintaining the agency's ability to determine whether federally insured credit unions are operating safely and soundly and in compliance with applicable laws and regulations.

In addition to this RFI, the agency may seek clearance from the Office of Management and Budget to conduct stakeholder calls and form focus groups to gather additional information about barriers and benefits to the modernization initiative. The NCUA invites interested parties to respond generally to this modernization initiative and specifically to the questions included in this RFI.
